SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549
FORM 10-Q

(Mark One)

☒ **QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the quarterly period ended March 31, 2024

OR

☐ **TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the transition period from _____ to _____

Commission File Number: 001-35565

abbvie
AbbVie Inc.

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of incorporation or organization)

32-0375147

(I.R.S. employer identification number)

1 North Waukegan Road
North Chicago, Illinois 60064-6400

Telephone: (847) 932-7900

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large Accelerated Filer ☒

Non-Accelerated Filer ☐

Accelerated Filer ☐

Smaller reporting company ☐

Emerging growth company ☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

Securities registered pursuant to Section 12(b) of the Act:

AbbVie Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements (unaudited)

Note 1 Basis of Presentation

Basis of Historical Presentation

The unaudited interim condensed consolidated financial statements of AbbVie Inc. (AbbVie or the company) have been prepared pursuant to the rules and regulations of the U.S. Securities and Exchange Commission. Accordingly, certain information and footnote disclosures normally included in annual financial statements prepared in accordance with generally accepted accounting principles in the United States (U.S. GAAP) have been omitted. These unaudited interim condensed consolidated financial statements should be read in conjunction with the company's audited consolidated financial statements and notes included in the company's Annual Report on Form 10-K for the year ended December 31, 2023.

It is management's opinion that these financial statements include all normal and recurring adjustments necessary for a fair presentation of the company's financial position and operating results. Net revenues and net earnings for any interim period are not necessarily indicative of future or annual results. Certain other reclassifications were made to conform the prior period interim condensed consolidated financial statements to the current period presentation.

On February 12, 2024, AbbVie completed its previously announced acquisition of ImmunoGen, Inc. (ImmunoGen). Refer to Note 4 and Note 8 for additional information regarding this acquisition.

Recent Accounting Pronouncements

Recent Accounting Pronouncements Not Yet Adopted

ASU No. 2023-09

In December 2023, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2023-09, *Income Taxes - Improvements to Income Tax Disclosures (Topic 740)*. The standard requires disaggregation of the effective rate reconciliation into standard categories, enhances disclosure of income taxes paid, and modifies other income tax-related disclosures. The standard will be effective for AbbVie starting in annual periods in 2025, with early adoption permitted. AbbVie is currently assessing the impact of adopting this guidance on its consolidated financial statements.

ASU No. 2023-07

In November 2023, the FASB issued ASU No. 2023-07 *Segment Reporting - Improving Reportable Segment Disclosures (Topic 280)*. The standard requires disclosures to include significant segment expenses that are regularly provided to the chief operating decision maker (CODM), a description of other segment items by reportable segment, and any additional measures of a segment's profit or loss used by the CODM when deciding how to allocate resources. The ASU also requires all annual disclosures currently required by Topic 280 to be included in interim periods. The standard is effective for AbbVie starting in annual periods in 2024 and interim periods in 2025, with early adoption permitted and requires retrospective application to all prior periods presented in the financial statements. AbbVie is currently assessing the impact of adopting this guidance on its consolidated financial statements.

Note 2 Supplemental Financial Information

Interest Expense, Net

(in millions)	Three months ended March 31,	
	2024	2023
Interest expense	\$ 660	\$ 553
Interest income	(207)	(99)
Interest expense, net	\$ 453	\$ 454

Inventories

(in millions)	March 31, 2024	December 31, 2023
Finished goods	\$ 1,258	\$ 1,356
Work-in-process	1,890	1,643
Raw materials	1,097	1,100
Inventories	\$ 4,245	\$ 4,099

Property and Equipment, Net

(in millions)	March 31, 2024	December 31, 2023
Property and equipment, gross	\$ 11,725	\$ 11,635
Accumulated depreciation	(6,745)	(6,646)
Property and equipment, net	\$ 4,980	\$ 4,989

Depreciation expense was \$183 million for the three months ended March 31, 2024 and \$179 million for the three months ended March 31, 2023.

Note 3 Earnings Per Share

AbbVie grants certain restricted stock units (RSUs) that are considered to be participating securities. Due to the presence of participating securities, AbbVie calculates earnings per share (EPS) using the more dilutive of the treasury stock or the two-class method. For all periods presented, the two-class method was more dilutive.

The following table summarizes the impact of the two-class method:

(in millions, except per share data)	Three months ended March 31,	
	2024	2023
Basic EPS		
Net earnings attributable to AbbVie Inc.	\$ 1,369	\$ 239
Earnings allocated to participating securities	10	11
Earnings available to common shareholders	\$ 1,359	\$ 228
Weighted-average basic shares outstanding	1,769	1,770
Basic earnings per share attributable to AbbVie Inc.	\$ 0.77	\$ 0.13
Diluted EPS		
Net earnings attributable to AbbVie Inc.	\$ 1,369	\$ 239
Earnings allocated to participating securities	10	11
Earnings available to common shareholders	\$ 1,359	\$ 228
Weighted-average shares of common stock outstanding	1,769	1,770
Effect of dilutive securities	4	6
Weighted-average diluted shares outstanding	1,773	1,776
Diluted earnings per share attributable to AbbVie Inc.	\$ 0.77	\$ 0.13

Certain shares issuable under stock-based compensation plans were excluded from the computation of EPS because the effect would have been antidilutive. The number of common shares excluded was insignificant for all periods presented.

Note 4 Licensing, Acquisitions and Other Arrangements

Acquisition of ImmunoGen, Inc.

On February 12, 2024, AbbVie completed its previously announced acquisition of ImmunoGen. ImmunoGen is a commercial-stage biotechnology company focused on the discovery, development and commercialization of antibody-drug conjugates (ADC) for cancer patients. ImmunoGen's oncology portfolio includes its flagship cancer therapy Elahere, a first-in-class ADC approved for platinum-resistant ovarian cancer, and a pipeline of promising next-generation ADC's targeting hematologic malignancies and solid tumors. The combination accelerates AbbVie's entry into the solid tumor space and strengthens its oncology pipeline. Under the terms of the agreement, AbbVie acquired all outstanding shares of ImmunoGen for \$31.26 per share in cash. The total fair value of the consideration transferred to owners of ImmunoGen common stock was \$9.8 billion (\$9.2 billion, net of cash acquired).

The acquisition of ImmunoGen has been accounted for as a business combination using the acquisition method of accounting. The acquisition method requires, among other things, that assets acquired and liabilities assumed in a business combination be recognized at their fair values as of the acquisition date. The valuation of assets acquired and liabilities assumed has not yet been finalized as of March 31, 2024. As a result, AbbVie recorded preliminary estimates for the fair value of assets acquired and liabilities assumed as of the acquisition date. Finalization of the valuation during the measurement period could result in a change in the amounts recorded for the acquisition date fair value of intangible assets, goodwill and income taxes among other items. The completion of the valuation will occur no later than one year from the acquisition date.

The following table summarizes the preliminary fair value of assets acquired and liabilities assumed as of the acquisition date:

(in millions)

Assets acquired and liabilities assumed		
Cash and equivalents	\$	591
Accounts receivable		171
Inventories		211
Prepaid expenses and other current assets		40
Property and equipment, net		7
Intangible assets, net		
Developed product rights		7,200
License agreements		125
Acquired in-process research and development		1,280
Other noncurrent assets		273
Current portion of long-term debt		(99)
Accounts payable and accrued liabilities		(312)
Deferred income taxes		(899)
Other long-term liabilities		(47)
Total identifiable net assets		8,541
Goodwill		1,249
Total assets acquired and liabilities assumed	\$	9,790

The fair value step-up adjustment to inventories of \$179 million is being amortized to cost of products sold when the inventory is sold to customers, which is expected to be within approximately one year from the acquisition date.

Intangible assets relate to \$7.3 billion of definite-lived intangible assets and \$1.3 billion of acquired in-process research and development (IPR&D) associated with products that have not yet received regulatory approval. The acquired definite-lived intangible assets consist of developed product rights and license agreements and are being amortized over a weighted-average estimated useful life of approximately 12 years using the estimated pattern of economic benefit. The estimated fair values of identifiable intangible assets were determined using the "income approach" which is a valuation technique that provides an estimate of the fair value of an asset based on market participant expectations of the cash flows an asset would generate over its remaining useful life. Some of the more significant assumptions inherent in the development of these asset valuations include the estimated net cash flows for each year for each asset or product, the appropriate discount rate necessary to measure the risk inherent in each future cash flow stream, the life cycle of each asset, the potential regulatory and commercial success risk, competitive trends impacting the asset and each cash flow stream, as well as other factors.

Other noncurrent assets primarily consist of \$250 million of deferred tax assets.

The current portion of long-term debt assumed by AbbVie was repaid concurrent with the acquisition at the fair value of \$99 million. See Note 8 for additional information.

Goodwill was calculated as the excess of the consideration transferred over the net assets recognized and represents the future economic benefits arising from other assets acquired that could not be individually identified and separately recognized. Specifically, the goodwill recognized from the acquisition of ImmunoGen represents expected synergies including, the ability to: (i) expand AbbVie's product portfolio as well as the potential to increase revenue from future growth platforms, (ii) accelerate AbbVie's clinical and commercial presence in the solid tumor space within oncology, (iii) leverage the respective strengths of each company, and (iv) enhance AbbVie's existing ADC development efforts. The goodwill is not deductible for tax purposes.

Following the acquisition date, the operating results of ImmunoGen have been included in the condensed consolidated financial statements. For the period from the acquisition date through March 31, 2024, net revenues attributable to ImmunoGen were \$91 million and operating losses attributable to ImmunoGen were \$404 million, inclusive of \$349 million of cash-settled, post-closing expense for ImmunoGen employee incentive awards, \$47 million of inventory fair value step-up amortization and \$21 million of intangible asset amortization. AbbVie also issued 0.3 million RSUs to holders of ImmunoGen equity awards based on a conversion factor described in the transaction agreement. Stock compensation expense related to the issued RSUs during the three months ended March 31, 2024 was not significant.

Acquisition-related expenses, which were comprised primarily of regulatory, financial advisory and legal fees, totaled \$59 million for the three months ended March 31, 2024 and were included in selling, general and administrative (SG&A) expense in the condensed consolidated statements of earnings.

Pro Forma Financial Information

The following table presents the unaudited pro forma combined results of AbbVie and ImmunoGen for the three months ended March 31, 2024 and 2023 as if the acquisition of ImmunoGen had occurred on January 1, 2023:

(in millions)	Three months ended March 31,	
	2024	2023
Net revenues	\$ 12,365	\$ 12,275
Net earnings (loss)	1,739	(413)

The unaudited pro forma combined financial information was prepared using the acquisition method of accounting and was based on the historical financial information of AbbVie and ImmunoGen. In order to reflect the occurrence of the acquisition on January 1, 2023 as required, the unaudited pro forma financial information includes adjustments to reflect incremental amortization expense to be incurred based on the current preliminary fair values of the identifiable intangible assets acquired; the incremental cost of products sold related to the fair value adjustments associated with acquisition date inventory; the additional interest expense associated with the issuance of debt to finance the acquisition; and the reclassification of acquisition-related costs incurred during the three months ended March 31, 2024 to the three months ended March 31, 2023. The unaudited pro forma financial information is not necessarily indicative of what the consolidated results of operations would have been had the acquisition been completed on January 1, 2023. In addition, the unaudited pro forma financial information is not a projection of future results of operations of the combined company nor does it reflect the expected realization of any synergies or cost savings associated with the acquisition.

Proposed Acquisition of Cerevel Therapeutics Holdings, Inc.

On December 6, 2023, AbbVie announced that it entered into a definitive agreement under which AbbVie will acquire Cerevel Therapeutics Holdings, Inc. (Cerevel Therapeutics). Under the terms of the agreement, AbbVie will acquire all outstanding shares of Cerevel Therapeutics for \$45.00 per share in cash for a total value of approximately \$8.7 billion. The transaction is expected to close in 2024 subject to regulatory approvals and other customary closing conditions.

Cerevel Therapeutics is a clinical-stage biotechnology company focused on the discovery and development of differentiated therapies for Neuroscience diseases. Cerevel Therapeutics neuroscience pipeline includes multiple clinical-stage and preclinical candidates with the potential to treat several diseases including schizophrenia, Parkinson's disease and mood disorders.

Other Licensing & Acquisitions Activity

Cash outflows related to other acquisitions and investments totaled \$190 million for the three months ended March 31, 2024 and \$353 million for the three months ended March 31, 2023.

The following table summarizes acquired IPR&D and milestones expense:

(in millions)	Three months ended March 31,	
	2024	2023
Upfront charges	\$ 79	\$ 132
Development milestones	85	18
Acquired IPR&D and milestones	\$ 164	\$ 150

Note 5 Collaborations

The company has ongoing transactions with other entities through collaboration agreements. The following represent the significant collaboration agreements impacting the periods ended March 31, 2024 and 2023.

Collaboration with Janssen Biotech, Inc.

In December 2011, Pharmacyclics, a wholly-owned subsidiary of AbbVie, entered into a worldwide collaboration and license agreement with Janssen Biotech, Inc. and its affiliates (Janssen), one of the Janssen Pharmaceutical companies of Johnson & Johnson, for the joint development and commercialization of Imbruvica, a novel, orally active, selective covalent inhibitor of Bruton's tyrosine kinase and certain compounds structurally related to Imbruvica, for oncology and other indications, excluding all immune and inflammatory mediated diseases or conditions and all psychiatric or psychological diseases or conditions, in the United States and outside the United States.

The collaboration provides Janssen with an exclusive license to commercialize Imbruvica outside of the United States and co-exclusively with AbbVie in the United States. Both parties are responsible for the development, manufacturing and marketing of any products generated as a result of the collaboration. The collaboration has no set duration or specific expiration date and provides for potential future development, regulatory and approval milestone payments of up to \$200 million to AbbVie. The collaboration also includes a cost sharing arrangement for associated collaboration activities. Except in certain cases, Janssen is responsible for approximately 60% of collaboration development costs and AbbVie is responsible for the remaining 40% of collaboration development costs.

In the United States, both parties have co-exclusive rights to commercialize the products; however, AbbVie is the principal in the end-customer product sales. AbbVie and Janssen share pre-tax profits and losses equally from the commercialization of products. Sales of Imbruvica are included in AbbVie's net revenues. Janssen's share of profits is included in AbbVie's cost of products sold. Other costs incurred under the collaboration are reported in their respective expense line items, net of Janssen's share.

Outside the United States, Janssen is responsible for and has exclusive rights to commercialize Imbruvica. AbbVie and Janssen share pre-tax profits and losses equally from the commercialization of products. AbbVie's share of profits is included in AbbVie's net revenues. Other costs incurred under the collaboration are reported in their respective expense line items, net of Janssen's share.

The following table shows the profit and cost sharing relationship between Janssen and AbbVie:

(in millions)	Three months ended March 31,	
	2024	2023
United States - Janssen's share of profits (included in cost of products sold)	\$ 283	\$ 297
International - AbbVie's share of profits (included in net revenues)	228	240
Global - AbbVie's share of other costs (included in respective line items)	42	55

AbbVie's receivable from Janssen, included in accounts receivable, net, was \$250 million at March 31, 2024 and \$236 million at December 31, 2023. AbbVie's payable to Janssen, included in accounts payable and accrued liabilities, was \$275 million at March 31, 2024 and \$307 million at December 31, 2023.

Collaboration with Genentech, Inc.

AbbVie and Genentech, Inc. (Genentech), a member of the Roche Group, are parties to a collaboration and license agreement executed in 2007 to jointly research, develop and commercialize human therapeutic products containing BCL-2 inhibitors and certain other compound inhibitors which includes Venclexta, a BCL-2 inhibitor used to treat certain hematological malignancies. AbbVie shares equally with Genentech all pre-tax profits and losses from the development and commercialization of Venclexta in the United States. AbbVie pays royalties on Venclexta net revenues outside the United States.

AbbVie manufactures and distributes Venclexta globally and is the principal in the end-customer product sales. Sales of Venclexta are included in AbbVie's net revenues. Genentech's share of United States profits is included in AbbVie's cost of products sold. AbbVie records sales and marketing costs associated with the United States collaboration as part of SG&A expenses and global development costs as part of research and development (R&D) expenses, net of Genentech's share. Royalties paid for Venclexta revenues outside the United States are also included in AbbVie's cost of products sold.

The following table shows the profit and cost sharing relationship between Genentech and AbbVie:

(in millions)	Three months ended March 31,	
	2024	2023
Genentech's share of profits, including royalties (included in cost of products sold)	\$ 227	\$ 202
AbbVie's share of sales and marketing costs from U.S. collaboration (included in SG&A)	9	11
AbbVie's share of development costs (included in R&D)	19	28

Note 6 Goodwill and Intangible Assets

Goodwill

The following table summarizes the changes in the carrying amount of goodwill:

(in millions)		
Balance as of December 31, 2023	\$	32,293
Additions ^(a)		1,249
Foreign currency translation adjustments		(116)
Balance as of March 31, 2024	\$	33,426

(a) Goodwill additions related to the acquisition of ImmunoGen (see Note 4).

The company performs its annual goodwill impairment assessment in the third quarter, or earlier if impairment indicators exist. As of March 31, 2024, there were no accumulated goodwill impairment losses.

Intangible Assets, Net

The following table summarizes intangible assets:

(in millions)	March 31, 2024			December 31, 2023		
	Gross carrying amount	Accumulated amortization	Net carrying amount	Gross carrying amount	Accumulated amortization	Net carrying amount
Definite-lived intangible assets						
Developed product rights	\$ 82,219	\$ (24,059)	\$ 58,160	\$ 75,142	\$ (22,455)	\$ 52,687
License agreements	8,316	(5,831)	2,485	8,191	(5,571)	2,620
Total definite-lived intangible assets	90,535	(29,890)	60,645	83,333	(28,026)	55,307
Indefinite-lived intangible assets	1,580	—	1,580	303	—	303
Total intangible assets, net	\$ 92,115	\$ (29,890)	\$ 62,225	\$ 83,636	\$ (28,026)	\$ 55,610

Definite-Lived Intangible Assets

The increase in definite-lived intangible assets during 2024 was primarily due to the acquisition of ImmunoGen. The intangible assets will be amortized using the estimated pattern of economic benefit. Refer to Note 4 for additional information regarding the acquisition.

Amortization expense was \$1.9 billion for the three months ended March 31, 2024 and 2023. Amortization expense was included in cost of products sold in the condensed consolidated statements of earnings.

Indefinite-Lived Intangible Assets

Indefinite-lived intangible assets represent acquired IPR&D associated with products that have not yet received regulatory approval. The company performs its annual impairment assessment of indefinite-lived intangible assets in the third quarter, or earlier if impairment indicators exist. The increase in indefinite-lived intangible assets during 2024 was primarily due to the acquisition of ImmunoGen. Refer to Note 4 for additional information regarding the acquisition.

During the first quarter of 2023, the company made a decision to revise the research and development plan for AGN-151607, a novel investigational neurotoxin for the prevention of postoperative atrial fibrillation in cardiac surgery patients. This decision contributed to a delay in the estimated timing of regulatory approval as well as a significant decrease in estimated future cash flows of the product and represented a triggering event which required the company to evaluate the underlying indefinite-lived intangible asset for impairment. The company utilized a discounted cash flow analysis to estimate the fair value which was below the carrying value of the intangible asset. Based on the revised cash flows, the company recorded a pre-tax impairment charge of \$630 million to research and development expense in the condensed consolidated statements of earnings for the first quarter of 2023.

Note 7 Restructuring Plans

AbbVie continuously evaluates its operations to identify opportunities to optimize its manufacturing and R&D operations, commercial infrastructure and administrative costs and to respond to changes in its business environment. As a result, AbbVie management periodically approves individual restructuring plans to achieve these objectives. As of March 31, 2024 and 2023, no such plans were individually significant. Restructuring charges were \$15 million for the three months ended March 31, 2024 and \$27 million for the three months ended March 31, 2023. These charges are recorded in cost of products sold, R&D expense and SG&A expense in the condensed consolidated statements of earnings based on the classification of the affected employees or the related operations.

The following table summarizes the cash activity in the restructuring reserve for the three months ended March 31, 2024:

(in millions)

Accrued balance as of December 31, 2023	\$	196
Restructuring charges		14
Payments and other adjustments		(32)
Accrued balance as of March 31, 2024	\$	178

Allergan Integration Plan

Following the closing of the Allergan acquisition, AbbVie implemented an integration plan designed to reduce costs, integrate and optimize the combined organization and incurred total cumulative charges of \$2.5 billion through December 31, 2023. These costs consisted of severance and employee benefit costs (cash severance, non-cash severance including accelerated equity award compensation expense, retention and other termination benefits) and other integration expenses. The Allergan integration plan was substantially complete as of December 31, 2023 and the remaining accrual as of March 31, 2024 is not significant.

The following table summarizes the prior year charges associated with the Allergan acquisition integration plan:

(in millions)	Three months ended March 31,	
	2023	
Cost of products sold	\$	14
Research and development		—
Selling, general and administrative		44
Total charges	\$	58

Note 8 Financial Instruments and Fair Value Measures

Risk Management Policy

See Note 11 to the company's Annual Report on Form 10-K for the year ended December 31, 2023 for a summary of AbbVie's risk management policy and use of derivative instruments.

Financial Instruments

Various AbbVie foreign subsidiaries enter into foreign currency forward exchange contracts to manage exposures to changes in foreign exchange rates for anticipated intercompany transactions denominated in a currency other than the functional currency of the local entity. These contracts, with notional amounts totaling \$1.1 billion at March 31, 2024 and \$1.8 billion at December 31, 2023, are designated as cash flow hedges and are recorded at fair value. The durations of these forward exchange contracts were generally less than 18 months. Accumulated gains and losses as of March 31, 2024 are reclassified from accumulated other comprehensive income (loss) (AOI) and included in cost of products sold at the time the products are sold, generally not exceeding six months from the date of settlement.

In 2019, the company entered into treasury rate lock agreements with notional amounts totaling \$10.0 billion to hedge exposure to variability in future cash flows resulting from changes in interest rates related to the issuance of long-term debt in connection with the acquisition of Allergan. The treasury rate lock agreements were designated as cash flow hedges and recorded at fair value. The agreements were net settled upon issuance of the senior notes in 2019 and the resulting net gain was recognized in AOI. This gain is reclassified to interest expense, net over the term of the related debt.

The company also enters into foreign currency forward exchange contracts to manage its exposure to foreign currency denominated trade payables and receivables and intercompany loans. These contracts are not designated as hedges and are recorded at fair value. Resulting gains or losses are reflected in net foreign exchange gain or loss in the condensed consolidated statements of earnings and are generally offset by losses or gains on the foreign currency exposure being managed. These contracts had notional amounts totaling \$6.2 billion at March 31, 2024 and \$7.9 billion at December 31, 2023.

The company also uses foreign currency forward exchange contracts or foreign currency denominated debt to hedge its net investments in certain foreign subsidiaries and affiliates. The company had an aggregate principal amount of senior Euro notes designated as net investment hedges of €5.4 billion at March 31, 2024 and December 31, 2023. In addition, the company had foreign currency forward exchange contracts designated as net investment hedges with notional amounts totaling €4.9 billion, SEK1.4 billion, CAD750 million and CHF50 million at March 31, 2024 and December 31, 2023. The company uses the spot method of assessing hedge effectiveness for derivative instruments designated as net investment hedges. Realized and unrealized gains and losses from these hedges are included in AOCI and the initial fair value of hedge components excluded from the assessment of effectiveness is recognized in interest expense, net over the life of the hedging instrument.

The company is a party to interest rate swap contracts designated as fair value hedges with notional amounts totaling \$5.0 billion at March 31, 2024 and December 31, 2023. The effect of the hedge contracts is to change a fixed-rate interest obligation to a floating rate for that portion of the debt. AbbVie records the contracts at fair value and adjusts the carrying amount of the fixed-rate debt by an offsetting amount.

No amounts are excluded from the assessment of effectiveness for cash flow hedges or fair value hedges.

The following table summarizes the amounts and location of AbbVie's derivative instruments on the condensed consolidated balance sheets:

(in millions)	Fair value – Derivatives in asset position			Fair value – Derivatives in liability position		
	Balance sheet caption	March 31, 2024	December 31, 2023	Balance sheet caption	March 31, 2024	December 31, 2023
Foreign currency forward exchange contracts						
Designated as cash flow hedges	Prepaid expenses and other \$	30	\$ 12	Accounts payable and accrued liabilities \$	4	\$ 32
Designated as net investment hedges	Prepaid expenses and other	53	13	Accounts payable and accrued liabilities	38	66
Designated as net investment hedges	Other assets	6	—	Other long-term liabilities	3	69
Not designated as hedges	Prepaid expenses and other	10	41	Accounts payable and accrued liabilities	25	36
Interest rate swap contracts						
Designated as fair value hedges	Prepaid expenses and other	—	—	Accounts payable and accrued liabilities	1	—
Designated as fair value hedges	Other assets	—	—	Other long-term liabilities	357	293
Total derivatives		\$ 99	\$ 66		\$ 428	\$ 496

While certain derivatives are subject to netting arrangements with the company's counterparties, the company does not offset derivative assets and liabilities within the condensed consolidated balance sheets.

The following table presents the pre-tax amounts of gains (losses) from derivative instruments recognized in other comprehensive loss:

(in millions)	Three months ended March 31,	
	2024	2023
Foreign currency forward exchange contracts		
Designated as cash flow hedges	\$ 55	\$ (9)
Designated as net investment hedges	134	(94)

Assuming market rates remain constant through contract maturities, the company expects to reclassify pre-tax gains of \$50 million into cost of products sold for foreign currency cash flow hedges and pre-tax gains of \$23 million into interest expense, net for treasury rate lock agreement cash flow hedges during the next 12 months.

Related to AbbVie's non-derivative, foreign currency denominated debt designated as net investment hedges, the company recognized in other comprehensive loss pre-tax gains of \$157 million for the three months ended March 31, 2024 and pre-tax losses of \$162 million for the three months ended March 31, 2023.

The following table summarizes the pre-tax amounts and location of derivative instrument net gains (losses) recognized in the condensed consolidated statements of earnings, including the net gains (losses) reclassified out of AOCl into net earnings. See Note 10 for the amount of net gains (losses) reclassified out of AOCl.

(in millions)	Statement of earnings caption	Three months ended March 31,	
		2024	2023
Foreign currency forward exchange contracts			
Designated as cash flow hedges	Cost of products sold	\$ 12	\$ 30
Designated as net investment hedges	Interest expense, net	27	28
Not designated as hedges	Net foreign exchange loss	(18)	30
Treasury rate lock agreements designated as cash flow hedges	Interest expense, net	6	6
Interest rate swap contracts			
Designated as fair value hedges	Interest expense, net	(65)	35
Debt designated as hedged item in fair value hedges	Interest expense, net	65	(35)

Fair Value Measures

The fair value hierarchy consists of the following three levels:

- Level 1 – Valuations based on unadjusted quoted prices in active markets for identical assets that the company has the ability to access;
- Level 2 – Valuations based on quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active and model-based valuations in which all significant inputs are observable in the market; and
- Level 3 – Valuations using significant inputs that are unobservable in the market and include the use of judgment by the company's management about the assumptions market participants would use in pricing the asset or liability.

The following table summarizes the bases used to measure certain assets and liabilities carried at fair value on a recurring basis on the condensed consolidated balance sheet as of March 31, 2024:

(in millions)	Total	Basis of fair value measurement			
		Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)	
Assets					
Cash and equivalents	\$ 18,067	\$ 7,221	\$ 10,846	\$ —	
Money market funds and time deposits	10	—	10	—	
Debt securities	26	—	26	—	
Equity securities	110	84	26	—	
Foreign currency contracts	99	—	99	—	
Total assets	\$ 18,312	\$ 7,305	\$ 11,007	\$ —	
Liabilities					
Interest rate swap contracts	\$ 358	\$ —	\$ 358	\$ —	
Foreign currency contracts	70	—	70	—	
Contingent consideration	20,159	—	—	20,159	
Total liabilities	\$ 20,587	\$ —	\$ 428	\$ 20,159	

The following table summarizes the bases used to measure certain assets and liabilities carried at fair value on a recurring basis on the condensed consolidated balance sheet as of December 31, 2023:

(in millions)	Total	Basis of fair value measurement		
		Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Assets				
Cash and equivalents	\$ 12,814	\$ 6,223	\$ 6,591	\$ —
Money market funds and time deposits	10	—	10	—
Debt securities	26	—	26	—
Equity securities	111	86	25	—
Foreign currency contracts	66	—	66	—
Total assets	\$ 13,027	\$ 6,309	\$ 6,718	\$ —
Liabilities				
Interest rate swap contracts	\$ 293	\$ —	\$ 293	\$ —
Foreign currency contracts	203	—	203	—
Contingent consideration	19,890	—	—	19,890
Total liabilities	\$ 20,386	\$ —	\$ 496	\$ 19,890

Money market funds and time deposits are valued using relevant observable market inputs including quoted prices for similar assets and interest rate curves. Equity securities primarily consist of investments for which the fair values were determined by using the published market prices per unit multiplied by the number of units held, without consideration of transaction costs. The derivatives entered into by the company were valued using observable market inputs including published interest rate curves and both forward and spot prices for foreign currencies.

The fair value measurements of the contingent consideration liabilities were determined based on significant unobservable inputs, including the discount rate, estimated probabilities and timing of achieving specified development, regulatory and commercial milestones and the estimated amount of future sales of the acquired products. The potential contingent consideration payments are estimated by applying a probability-weighted expected payment model for contingent milestone payments and a Monte Carlo simulation model for contingent royalty payments, which are then discounted to present value. Changes to the fair value of the contingent consideration liabilities can result from changes to one or a number of inputs, including discount rates, the probabilities of achieving the milestones, the time required to achieve the milestones and estimated future sales. Significant judgment is

employed in determining the appropriateness of certain of these inputs. Changes to the inputs described above could have a material impact on the company's financial position and results of operations in any given period.

The fair value of the company's contingent consideration liabilities was calculated using the following significant unobservable inputs:

	March 31, 2024		December 31, 2023	
	Range	Weighted average ^(a)	Range	Weighted average ^(a)
Discount rate	4.6% - 5.8%	4.8%	4.3%- 5.9%	4.5%
Probability of payment for royalties by indication ^(b)	89% - 100%	99%	89% - 100%	99%
Projected year of payments	2024 - 2034	2030	2024 - 2034	2027

(a) Unobservable inputs were weighted by the relative fair value of the contingent consideration liabilities.

(b) Excluding approved indications, the estimated probability of payment was 89% at March 31, 2024 and December 31, 2023.

There have been no transfers of assets or liabilities into or out of Level 3 of the fair value hierarchy. The following table presents the changes in fair value of total contingent consideration liabilities which are measured using Level 3 inputs:

(in millions)	Three months ended March 31,	
	2024	2023
Beginning balance	\$ 19,890	\$ 16,384
Change in fair value recognized in net earnings	660	1,872
Payments	(391)	(325)
Ending balance	\$ 20,159	\$ 17,931

The change in fair value recognized in net earnings is recorded in other expense, net in the condensed consolidated statements of earnings. Contingent consideration payments of amounts up to the initial acquisition date fair value are classified as cash outflows from financing activities and payments of amounts in excess of the initial acquisition date fair value are classified as cash outflows from operating activities in the condensed consolidated statements of cash flows.

Certain financial instruments are carried at historical cost or some basis other than fair value. The book values, approximate fair values and bases used to measure the approximate fair values of certain financial instruments as of March 31, 2024 are shown in the table below:

(in millions)	Book value	Approximate fair value	Basis of fair value measurement		
			Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Liabilities					
Short-term borrowings	\$ 3	\$ 3	\$ —	\$ 3	\$ —
Current portion of long-term debt and finance lease obligations, excluding fair value hedges	10,194	10,021	9,687	334	—
Long-term debt and finance lease obligations, excluding fair value hedges	64,140	60,887	60,469	418	—
Total liabilities	\$ 74,337	\$ 70,911	\$ 70,156	\$ 755	\$ —

The book values, approximate fair values and bases used to measure the approximate fair values of certain financial instruments as of December 31, 2023 are shown in the table below:

(in millions)	Book value	Approximate fair value	Basis of fair value measurement		
			Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Liabilities					
Current portion of long-term debt and finance lease obligations, excluding fair value hedges	\$ 7,191	\$ 7,069	\$ 6,862	\$ 207	\$ —
Long-term debt and finance lease obligations, excluding fair value hedges	52,460	49,541	48,983	558	—
Total liabilities	\$ 59,651	\$ 56,610	\$ 55,845	\$ 765	\$ —

AbbVie also holds investments in equity securities that do not have readily determinable fair values. The company records these investments at cost and remeasures them to fair value based on certain observable price changes or impairment events as they occur. The carrying amount of these investments was \$161 million as of March 31, 2024 and \$159 million as of December 31, 2023. No significant cumulative upward or downward adjustments have been recorded for these investments as of March 31, 2024.

Concentrations of Risk

Of total net accounts receivable, three U.S. wholesalers accounted for 79% as of March 31, 2024 and 81% as of December 31, 2023, and substantially all of AbbVie's pharmaceutical product net revenues in the United States were to these three wholesalers.

Debt and Credit Facilities

Financing Related to ImmunoGen and Cerevel Therapeutics Acquisitions

In connection with the acquisition of ImmunoGen and proposed acquisition of Cerevel Therapeutics, in February, 2024, the company issued \$15.0 billion aggregate principal amount of unsecured senior notes. The notes are unsecured, unsubordinated obligations of AbbVie and will rank equally in right of payment with all of AbbVie's existing and future unsecured, unsubordinated indebtedness, liabilities and other obligations. AbbVie may redeem the fixed-rate senior notes prior to maturity at a redemption price equal to the greater of the principal amount or the sum of present values of the remaining scheduled payments of principal and interest on the fixed-rate senior notes to be redeemed plus a make-whole premium. AbbVie may also redeem the fixed-rate senior notes at par between one and six months prior to maturity. In connection with the offering, debt issuance costs incurred totaled \$99 million and debt discounts totaled \$37 million, which are being amortized over the respective terms of the notes to interest expense, net in the condensed consolidated statements of earnings.

AbbVie used the net proceeds received from the issuance of the notes to finance the acquisition of ImmunoGen, repay its term-loan, repay commercial paper borrowings, pay fees and expenses in respect of the foregoing, finance general corporate purposes and expects, together with cash on hand, to fund AbbVie's proposed acquisition of Cerevel Therapeutics. See Note 4 for additional information.

The following table summarizes issued debt in connection with the acquisition of ImmunoGen and proposed acquisition of Cerevel Therapeutics:

(in millions)	March 31, 2024
Senior Notes	
4.80% Senior Notes due 2027	\$ 2,250
4.80% Senior Notes due 2029	2,500
4.95% Senior Notes due 2031	2,000
5.05% Senior Notes due 2034	3,000
5.35% Senior Notes due 2044	750
5.40% Senior Notes due 2054	3,000
5.50% Senior Notes due 2064	1,500
Total acquired debt outstanding	\$ 15,000

In December 2023, AbbVie entered into a \$9.0 billion 364-day bridge credit agreement and \$5.0 billion 364-day term loan credit agreement. In February, 2024, AbbVie borrowed and repaid \$5.0 billion under the term loan credit agreement. Interest charged on this borrowing was based on Secured Overnight Financing Rate Reference Rate (SOFR) +0.975% with an effective interest rate of 6.29%. Subsequent to the \$15.0 billion issuance of senior notes, AbbVie terminated both the bridge and term loan credit agreements in the first quarter of 2024. In February 2024, concurrent with the acquisition, the company assumed and repaid an ImmunoGen senior secured term loan at a fair value of \$99 million.

Long-Term Debt Repayments

In January 2023, the company repaid a \$1.0 billion floating rate three-year term loan that was scheduled to mature in May 2023. In March 2023, the company repaid a \$350 million aggregate principal amount of 2.80% senior notes at maturity.

Short-Term Borrowings

During the three months ended March 31, 2024, the company issued and redeemed \$1.7 billion of commercial paper. There were no commercial paper borrowings outstanding as of March 31, 2024 and December 31, 2023. The weighted average interest rate on commercial paper borrowings was 5.54% for the three months ended March 31, 2024.

In March 2023, AbbVie entered into an amended and restated five-year revolving credit facility. The amendment increased the unsecured revolving credit facility commitments from \$4.0 billion to \$5.0 billion and extended the maturity date of the facility from August 2023 to March 2028. This amended facility enables the company to borrow funds on an unsecured basis at variable interest rates and contains various covenants. At March 31, 2024, the company was in compliance with all covenants, and commitment fees under the credit facility were insignificant. No amounts were outstanding under the company's credit facilities as of March 31, 2024 and December 31, 2023.

Note 9 Post-Employment Benefits

The following table summarizes net periodic benefit cost relating to the company's defined benefit and other post-employment plans:

(in millions)	Defined benefit plans		Other post-employment plans	
	Three months ended March 31,		Three months ended March 31,	
	2024	2023	2024	2023
Service cost	\$ 72	\$ 68	\$ 11	\$ 8
Interest cost	113	107	10	9
Expected return on plan assets	(197)	(180)	—	—
Amortization of prior service credit	—	—	(9)	(9)
Amortization of actuarial loss	13	4	4	3
Net periodic benefit cost	\$ 1	\$ (1)	\$ 16	\$ 11

The components of net periodic benefit cost other than service cost are included in other expense, net in the condensed consolidated statements of earnings.

Note 10 Equity

Stock-Based Compensation

Stock-based compensation expense is principally related to awards issued pursuant to the AbbVie 2013 Incentive Stock Program and the AbbVie Amended and Restated 2013 Incentive Stock Program and is summarized as follows:

(in millions)	Three months ended March 31,	
	2024	2023
Cost of products sold	\$ 22	\$ 20
Research and development	133	117
Selling, general and administrative	193	176
Pre-tax compensation expense	348	313
Tax benefit	60	55
After-tax compensation expense	\$ 288	\$ 258

In addition to stock-based compensation expense included in the table above and in connection with the acquisition of ImmunoGen, AbbVie incurred \$349 million of cash-settled, post-closing expense for ImmunoGen employee incentive awards, of which \$192 million was recorded in SG&A expenses, \$126 million was recorded in R&D expenses and \$31 million was recorded in cost of products sold in the condensed consolidated statements of earnings for the three months ended March 31, 2024. Refer to Note 4 for additional information regarding the ImmunoGen acquisition.

Stock Options

During the three months ended March 31, 2024, primarily in connection with the company's annual grant, AbbVie granted 0.6 million stock options with a weighted-average grant-date fair value of \$31.53. As of March 31, 2024, \$11 million of unrecognized compensation cost related to stock options is expected to be recognized as expense over approximately the next two years.

RSUs and Performance Shares

During the three months ended March 31, 2024, primarily in connection with the company's annual grant, AbbVie granted 4.9 million RSUs and performance shares with a weighted-average grant-date fair value of \$175.97. In connection with the ImmunoGen acquisition, during the first quarter of 2024, AbbVie issued 0.3 million RSUs to holders of ImmunoGen equity awards based on a conversion factor described in the transaction agreement. Refer to Note 4 for additional information regarding the ImmunoGen acquisition. As of March 31, 2024, \$967 million of unrecognized compensation cost related to RSUs and performance shares is expected to be recognized as expense over approximately the next two years.

Cash Dividends

The following table summarizes quarterly cash dividends declared during 2024 and 2023:

2024			2023		
Date Declared	Payment Date	Dividend Per Share	Date Declared	Payment Date	Dividend Per Share

Stock Repurchase Program

The company's stock repurchase authorization permits purchases of AbbVie shares from time to time in open-market or private transactions at management's discretion. The program has no time limit and can be discontinued at any time. Shares repurchased under this program are recorded at acquisition cost, including related expenses, and are available for general corporate purposes.

On February 16, 2023, AbbVie's board of directors authorized a \$5.0 billion increase to the existing stock repurchase authorization. AbbVie repurchased 5 million shares for \$959 million during the three months ended March 31, 2024 and 10 million shares for \$1.6 billion during the three months ended March 31, 2023. AbbVie's remaining stock repurchase authorization was approximately \$3.9 billion as of March 31, 2024.

Accumulated Other Comprehensive Loss

The following table summarizes the changes in each component of accumulated other comprehensive loss, net of tax, for the three months ended March 31, 2024:

(in millions)	Foreign currency translation adjustments	Net investment hedging activities	Pension and post-employment benefits	Cash flow hedging activities	Total
Balance as of December 31, 2023	\$ (1,106)	\$ 65	\$ (1,488)	\$ 224	\$ (2,305)
Other comprehensive income (loss) before reclassifications	(396)	228	3	44	(121)
Net losses (gains) reclassified from accumulated other comprehensive loss	—	(21)	7	(14)	(28)
Net current-period other comprehensive income (loss)	(396)	207	10	30	(149)
Balance as of March 31, 2024	\$ (1,502)	\$ 272	\$ (1,478)	\$ 254	\$ (2,454)

Other comprehensive loss for the three months ended March 31, 2024 included foreign currency translation adjustments totaling a loss of \$396 million principally due to the impact of the weakening of the Euro on the translation of the company's Euro-denominated assets and the offsetting impact of net investment hedging activities totaling a gain of \$207 million.

The following table summarizes the changes in each component of accumulated other comprehensive loss, net of tax, for the three months ended March 31, 2023:

(in millions)	Foreign currency translation adjustments	Net investment hedging activities	Pension and post-employment benefits	Cash flow hedging activities	Total
Balance as of December 31, 2022	\$ (1,513)	\$ 464	\$ (1,458)	\$ 308	\$ (2,199)
Other comprehensive income (loss) before reclassifications	194	(202)	40	(10)	22
Net gains reclassified from accumulated other comprehensive loss	—	(22)	(2)	(31)	(55)
Net current-period other comprehensive income (loss)	194	(224)	38	(41)	(33)
Balance as of March 31, 2023	\$ (1,319)	\$ 240	\$ (1,420)	\$ 267	\$ (2,232)

Other comprehensive loss for the three months ended March 31, 2023 included foreign currency translation adjustments totaling a gain of \$194 million principally due to the impact of the strengthening of the Euro on the translation of the company's Euro-denominated assets and the offsetting impact of net investment hedging activities totaling a loss of \$224 million.

The following table presents the impact on AbbVie's condensed consolidated statements of earnings for significant amounts reclassified out of each component of accumulated other comprehensive loss:

(in millions) (brackets denote gains)	Three months ended March 31,	
	2024	2023
Net investment hedging activities		
Gains on derivative amount excluded from effectiveness testing ^(a)	\$ (27)	\$ (28)
Tax expense	6	6
Total reclassifications, net of tax	\$ (21)	\$ (22)
Pension and post-employment benefits		
Amortization of actuarial losses (gains) and other ^(b)	\$ 8	\$ (2)
Tax benefit	(1)	—
Total reclassifications, net of tax	\$ 7	\$ (2)
Cash flow hedging activities		
Gains on foreign currency forward exchange contracts ^(c)	\$ (12)	\$ (30)
Gains on treasury rate lock agreements ^(a)	(6)	(6)
Tax expense	4	5
Total reclassifications, net of tax	\$ (14)	\$ (31)

(a) Amounts are included in interest expense, net (see Note 8).

(b) Amounts are included in the computation of net periodic benefit cost (see Note 9).

(c) Amounts are included in cost of products sold (see Note 8).

Note 11 Income Taxes

The effective tax rate was 22% for the three months ended March 31, 2024 compared to 49% for the three months ended March 31, 2023. The effective tax rate in each period differed from the U.S. statutory tax rate of 21% principally due to the impact of foreign operations which reflects the impact of lower income tax rates in locations outside the United States, changes in fair value of contingent consideration and business development activities, including ImmunoGen acquisition-related costs. The decrease in the effective tax rate for the three months ended March 31, 2024 over the prior year was primarily due to changes in fair value of contingent consideration and impairment of certain intangible assets in the prior year.

It is reasonably possible that the company's gross unrecognized tax benefits balance may change within the next 12 months by up to \$162 million. The company has various federal, state and foreign examinations ongoing. Finalizing examinations with the relevant taxing authorities can include formal administrative and legal proceedings, and as a result, we cannot reasonably estimate the timing of resolution for certain unrecognized tax benefits.

Note 12 Legal Proceedings and Contingencies

AbbVie is subject to contingencies, such as various claims, legal proceedings and investigations regarding product liability, intellectual property, commercial, securities and other matters that arise in the normal course of business. The most significant matters are described below. Loss contingency provisions are recorded for probable losses at management's best estimate of a loss, or when a best estimate cannot be made, a minimum loss contingency amount within a probable range is recorded. For litigation matters discussed below for which a loss is probable or reasonably possible, the company is unable to estimate the possible loss or range of loss, if any, beyond the amounts accrued. Initiation of new legal proceedings or a change in the status of existing proceedings may result in a change in the estimated loss accrued by AbbVie. While it is not feasible to predict the outcome of all proceedings and exposures with certainty, management believes that their ultimate disposition should not have a material adverse effect on AbbVie's consolidated financial position, results of operations or cash flows.

Subject to certain exceptions specified in the separation agreement by and between Abbott Laboratories (Abbott) and AbbVie, AbbVie assumed the liability for, and control of, all pending and threatened legal matters related to its business, including liabilities for any claims or legal proceedings related to products that had been part of its business, but were discontinued prior to the distribution, as well as assumed or retained liabilities, and will indemnify Abbott for any liability arising out of or resulting from such assumed legal matters.

Antitrust Litigation

Lawsuits are pending against AbbVie and others generally alleging that the 2005 patent litigation settlement involving Niaspan entered into between Kos Pharmaceuticals, Inc. (a company acquired by Abbott in 2006 and presently a subsidiary of AbbVie) and a generic company violated federal and state antitrust laws and state unfair and deceptive trade practices and unjust enrichment laws. Plaintiffs generally seek monetary damages and/or injunctive relief and attorneys' fees. The lawsuits pending in federal court consist of six individual plaintiff lawsuits and a certified class action by Niaspan direct purchasers. The cases are pending in the United States District Court for the Eastern District of Pennsylvania for coordinated or consolidated pre-trial proceedings under the MDL Rules as In re: Niaspan Antitrust Litigation, MDL No. 2460. In October 2016, the Orange County, California District Attorney's Office filed a lawsuit on behalf of the State of California regarding the Niaspan patent litigation settlement in Orange County Superior Court, asserting a claim under the unfair competition provision of the California Business and Professions Code seeking injunctive relief, restitution, civil penalties and attorneys' fees.

In August 2019, direct purchasers of AndroGel filed a lawsuit, King Drug Co. of Florence, Inc., et al. v. AbbVie Inc., et al., against AbbVie and others in the United States District Court for the Eastern District of Pennsylvania, alleging that 2006 patent litigation settlements and related agreements by Solvay Pharmaceuticals, Inc. (a company Abbott acquired in February 2010 and now known as AbbVie Products LLC) with three generic companies violated federal antitrust law, and also alleging that 2011 patent litigation by Abbott with two generic companies regarding AndroGel was sham litigation and the settlements of those litigations violated federal antitrust law. Plaintiffs generally seek monetary damages and/or injunctive relief and attorneys' fees. In November 2022, the State of Oregon filed a lawsuit in the Multnomah County, Oregon Circuit Court making similar allegations regarding the 2011 patent litigation with one of the generic companies.

Lawsuits were filed against Forest Laboratories, LLC and others generally alleging that 2012 and 2013 patent litigation settlements involving Bystolic with six generic manufacturers violated federal and state antitrust laws and state unfair and deceptive trade practices and unjust enrichment laws. Plaintiffs generally seek monetary damages and/or injunctive relief and attorneys' fees. The lawsuits, purported class actions filed on behalf of direct and indirect purchasers of Bystolic, were consolidated as In re: Bystolic Antitrust Litigation in the United States District Court for the Southern District of New York. In February 2023, the court granted Forest Laboratories' motion to dismiss the cases, dismissing them with prejudice. Plaintiffs are appealing the court's motion to dismiss ruling.

Government Proceedings

Lawsuits are pending against Allergan and several other manufacturers generally alleging that they improperly promoted and sold prescription opioid products. Approximately 580 lawsuits are pending against Allergan in federal and state courts. Most of the federal court lawsuits are consolidated for pre-trial purposes in the United States District Court for the Northern District of Ohio under the MDL rules as In re: National Prescription Opiate Litigation, MDL No. 2804. Approximately 130 of the lawsuits are pending in various state courts. The plaintiffs in these lawsuits, which include states, counties, cities, other municipal entities, Native American tribes, union trust funds and other third-party payors, private hospitals and personal injury claimants, generally seek compensatory and punitive damages. Of these approximately 580 lawsuits, approximately 165 of them are brought by states, counties, cities, and other municipal entities, approximately 125 of which are in the process of being dismissed pursuant to the previously announced settlement for which AbbVie recorded a charge of \$2.1 billion to selling, general and administrative expense in the consolidated statement of earnings in the second quarter of 2022.

In March 2023, AbbVie Inc. filed a petition in the United States Tax Court, AbbVie Inc. and Subsidiaries v. Commissioner of Internal Revenue. The petition disputes the Internal Revenue Service determination concerning a \$572 million income tax benefit recorded in 2014 related to a payment made to a third party for the termination of a proposed business combination.

Shareholder and Securities Litigation

In October 2018, a federal securities lawsuit, Holwill v. AbbVie Inc., et al., was filed in the United States District Court for the Northern District of Illinois against AbbVie, its chief executive officer and former chief financial officer, alleging that reasons stated for Humira sales growth in financial filings between 2013 and 2018 were misleading because they omitted alleged misconduct in connection with Humira patient and reimbursement support services and other services and items of value that allegedly induced Humira prescriptions. In September 2021, the court granted plaintiffs' motion to certify a class.

Lawsuits were filed against Allergan and certain of its former officers alleging they made misrepresentations and omissions regarding Allergan's textured breast implants. The lawsuits, which were filed by Allergan shareholders, have been consolidated in the United States District Court for the Southern District of New York as In re: Allergan plc Securities Litigation. The plaintiffs generally seek compensatory damages and attorneys' fees. In September 2019, the court partially granted Allergan's motion to dismiss. In September 2021, the court granted plaintiffs' motion to certify a class. In December 2022, the court granted Allergan's motion for

summary judgment on the remaining claims, dismissing them with prejudice. In February 2024, the United States Court of Appeals for the Second Circuit affirmed the district court's dismissals.

In May and July 2022, two shareholder derivative lawsuits, Treppel Family Trust v. Gonzalez et al., and Katcher v. Gonzalez, et al., were filed in the United States District Court for the Northern District of Illinois, alleging that certain AbbVie directors and officers breached fiduciary and other legal duties in making or allowing alleged misstatements regarding the potential effect that safety information about another company's product would have on the Food and Drug Administration's approval and labeling for AbbVie's Rinvoq.

Product Liability and General Litigation

In April 2023, a putative class action lawsuit, Camargo v. AbbVie Inc., was filed in the United States District Court for the Northern District of Illinois on behalf of Humira patients who paid for Humira based on its list price or who, after losing insurance coverage, discontinued Humira because they could not pay based on its list price, alleging that Humira's list price is excessive in violation of multiple states' unfair and deceptive trade practices statutes. The plaintiff generally seeks monetary damages, injunctive relief, and attorneys' fees.

In 2018, a qui tam lawsuit, U.S. ex rel. Silbersher v. Allergan Inc., et al., was filed in the United States District Court for the Northern District of California against several Allergan entities and others, alleging that their conduct before the U.S. Patent Office resulted in false claims for payment being made to federal and state healthcare payors for Namenda XR and Namzaric. The plaintiff-relator sought damages and attorneys' fees under the federal False Claims Act and state law analogues. The federal government and state governments declined to intervene in the lawsuit. In March 2023, the court granted Allergan's motion to dismiss, dismissing plaintiff-relator's federal law claims with prejudice and state law claims without prejudice. The plaintiff-relator is appealing the court's motion to dismiss ruling.

Intellectual Property Litigation

AbbVie Inc. is seeking to enforce patent rights relating to venetoclax (a drug sold under the trademark Venclexta). Litigation was filed in the United States District Court for the District of Delaware in July 2020 against Dr. Reddy's Laboratories, Ltd. and Dr. Reddy's Laboratories, Inc.; and Alembic Pharmaceuticals Ltd., Alembic Pharmaceuticals, Inc., and Alembic Global Holdings SA. AbbVie alleges defendants' proposed generic venetoclax products infringe certain patents and seeks declaratory and injunctive relief. Genentech, Inc., which is in a global collaboration with AbbVie concerning the development and marketing of Venclexta, is the co-plaintiff in this suit.

AbbVie Inc. is seeking to enforce patent rights relating to upadacitinib (a drug sold under the trademark Rinvoq). Litigation was filed in the United States District Court for the District of Delaware in November 2023 against Hetero USA, Inc., Hetero Labs Limited, Hetero Labs Limited Unit-V, Aurobindo Pharma USA, Inc., Aurobindo Pharma Ltd., Sandoz, Inc. Sandoz Private Limited, Sandoz GMBH, Intas Pharmaceuticals Ltd., Accord Healthcare, Inc., and Sun Pharmaceutical Industries, Ltd. AbbVie alleges defendants' proposed generic upadacitinib products infringe certain patents and seeks declaratory and injunctive relief.

AbbVie Inc. is seeking to enforce patent rights related to ubrogepant (a drug sold under the trademark Ubrelvy). Litigation was filed in the United States District Court for the District of New Jersey in March 2024 against Aurobindo Pharma U.S.A., Inc., Aurobindo Pharma Limited, and Apitoria Pharma Private Limited; Zydus Pharmaceuticals (USA) Inc. and Zydus Lifesciences Limited; MSN Pharmaceuticals Inc., MSN Laboratories Private Limited, and MSN Life Sciences Private Limited; and Hetero USA Inc., Hetero Labs Limited Unit-III, and Hetero Labs Limited. AbbVie alleges defendants' proposed generic ubrogepant products infringe certain patents and seeks declaratory and injunctive relief. Merck Sharp & Dohme LLC, which exclusively licenses certain patents to AbbVie, is a co-plaintiff in the litigation.

Note 13 Segment Information

AbbVie operates as a single global business segment dedicated to the research and development, manufacturing, commercialization and sale of innovative medicines and therapies. This operating structure enables the Chief Executive Officer, as chief operating decision maker (CODM), to allocate resources and assess business performance on a global basis in order to achieve established long-term strategic goals. Consistent with this structure, a global research and development and supply chain organization is responsible for the discovery, manufacturing and supply of products. Commercial efforts that coordinate the marketing, sales and distribution of these products are organized by geographic region or therapeutic area. All of these activities are supported by a global corporate administrative staff. The determination of a single business segment is consistent with the consolidated financial information regularly reviewed by the CODM for purposes of assessing performance, allocating resources and planning and forecasting future periods.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following is a discussion and analysis of the financial condition of AbbVie Inc. (AbbVie or the company) as of March 31, 2024 and December 31, 2023 and the results of operations for the three months ended March 31, 2024 and 2023. This commentary should be read in conjunction with the Condensed Consolidated Financial Statements and accompanying notes appearing in Item 1, "Financial Statements and Supplementary Data."

EXECUTIVE OVERVIEW

Company Overview

AbbVie is a global, diversified research-based biopharmaceutical company positioned for success with a comprehensive product portfolio that has leadership positions across immunology, oncology, aesthetics, neuroscience and eye care. AbbVie uses its expertise, dedicated people and unique approach to innovation to develop and market advanced therapies that address some of the world's most complex and serious diseases.

On February 20, 2024, AbbVie announced Robert A. Michael, AbbVie's current president and chief operating officer, will succeed Richard A. Gonzalez as the company's chief executive officer (CEO). Mr. Gonzalez, who has served as CEO since the company's formation in 2013, will retire from the role of CEO and become executive chairman of the board of directors, effective July 1, 2024. Additionally, the board has appointed Mr. Michael as a member of the board of directors effective July 1, 2024.

On February 12, 2024, AbbVie completed the acquisition of ImmunoGen, Inc. (ImmunoGen). The acquisition of ImmunoGen further builds on AbbVie's existing solid tumor pipeline of novel targeted therapies and next-generation immuno-oncology assets, which have the potential to create new treatment possibilities across multiple solid tumors and hematologic malignancies. AbbVie and ImmunoGen's combined capabilities represent an opportunity to deliver potentially transformative antibody-drug conjugate (ADC) therapies to patients. See Note 4 to the Condensed Consolidated Financial Statements for additional information on the acquisition. Subsequent to the acquisition date, AbbVie's consolidated financial statements include the assets, liabilities, operating results and cash flows of ImmunoGen.

AbbVie's products are generally sold worldwide directly to wholesalers, distributors, government agencies, health care facilities, specialty pharmacies and independent retailers from AbbVie-owned distribution centers and public warehouses. Certain products (including aesthetic products and devices) are also sold directly to physicians and other licensed healthcare providers. In the United States, AbbVie distributes pharmaceutical products principally through independent wholesale distributors, with some sales directly to retailers, pharmacies, patients or other customers. Outside the United States, AbbVie sells products primarily to wholesalers or through distributors, and depending on the market works through largely centralized national payers system to agree on reimbursement terms. Certain products are co-marketed or co-promoted with other companies. AbbVie operates as a single global business segment and has approximately 50,000 employees.

2024 Strategic Objectives

AbbVie's mission is to discover and develop innovative medicines and products that solve serious health issues today and address the medical challenges of tomorrow while achieving top-tier financial performance through outstanding execution. AbbVie intends to execute its strategy and advance its mission in a number of ways, including: (i) maximizing the benefits of a diversified revenue base with multiple long-term growth drivers; (ii) leveraging AbbVie's commercial strength and international infrastructure across therapeutic areas and ensuring strong commercial execution of new product launches; (iii) continuing to invest in and expand its pipeline in support of opportunities in immunology, oncology, aesthetics, neuroscience and eye care as well as continued investment in key on-market products; (iv) generating substantial operating cash flows to support investment in innovative research and development, and return cash to shareholders via a strong and growing dividend while also continuing to repay debt. In addition, AbbVie anticipates several regulatory submissions and data readouts from key clinical trials in the next 12 months.

Financial Results

The company's financial performance for the three months ended March 31, 2024 included delivering worldwide net revenues of \$12.3 billion, operating earnings of \$2.8 billion, diluted earnings per share of \$0.77 and cash flows from operations of \$4.0 billion. Worldwide net revenues increased 1% on a reported basis and 2% on a constant currency basis.

Diluted earnings per share was \$0.77 for the three months ended March 31, 2024 and included the following after-tax costs: (i) \$1.6 billion related to the amortization of intangible assets; (ii) \$643 million for the change in fair value of contingent

consideration liabilities; and (iii) \$486 million of acquisition and integration expenses. Additionally, financial results reflected continued funding to support all stages of AbbVie's pipeline assets and continued investment in AbbVie's on-market brands.

Research and Development

Research and innovation are the cornerstones of AbbVie's business as a global biopharmaceutical company. AbbVie's long-term success depends to a great extent on its ability to continue to discover and develop innovative products and acquire or collaborate on compounds currently in development by other biotechnology or pharmaceutical companies.

AbbVie's pipeline currently includes approximately 90 compounds, devices or indications in development individually or under collaboration or license agreements and is focused on such important specialties as immunology, oncology, aesthetics, neuroscience and eye care. Of these programs, approximately 50 are in mid- and late-stage development.

The following sections summarize transitions of significant programs from mid-stage development to late-stage development as well as developments in significant late-stage and registration programs. AbbVie expects multiple mid-stage programs to transition into late-stage programs in the next 12 months.

Significant Programs and Developments

Immunology

Rinvoq

- In January 2024, AbbVie initiated a Phase 3 study to evaluate Rinvoq in adults and adolescents with non-segmental vitiligo who are eligible for systemic therapy.
- In April 2024, AbbVie announced positive top-line results from its Phase 3 SELECT-GCA trial for Rinvoq in combination with a 26-week steroid taper regimen in patients with giant cell arteritis achieved its primary endpoint.
- In April 2024, AbbVie announced positive top-line results from the head-to-head Phase 3b/4 Level-Up trial evaluating Rinvoq compared to dupilumab in adolescent and adult patients with moderate to severe atopic dermatitis. In the study, Rinvoq demonstrated superiority to dupilumab on the primary endpoint and all ranked secondary endpoints.

Lutikizumab

- In January 2024, AbbVie announced Phase 2 results showing adults with moderate to severe hidradenitis suppurativa (HS) who had previously failed anti-TNF therapy who received lutikizumab achieved higher response rates than placebo in the primary endpoint of achieving HS Clinical Response at week 16. Based on these data, AbbVie will advance its clinical program of lutikizumab in HS to Phase 3.

Oncology

Epkinly

- In February 2024, AbbVie announced that the U.S. Food and Drug Administration (FDA) granted priority review of the supplemental Biologics License Application (sBLA) of Epkinly, for the treatment of adult relapsed or refractory (R/R) follicular lymphoma (FL).
- In March 2024, AbbVie initiated a Phase 3 clinical trial to evaluate Epkinly in combination with rituximab and lenalidomide in patients with previously untreated follicular lymphoma.

Elahere

- In March 2024, AbbVie announced that the FDA granted full approval for Elahere for the treatment of folate receptor alpha (FR α)-positive, platinum-resistant epithelial ovarian, fallopian tube or primary peritoneal adult cancer patients treated with up to three prior therapies.

Navitoclax

- In April 2024, AbbVie announced its decision to discontinue the Phase 3 TRANSFORM-2 study evaluating Navitoclax, a BCL-XL/BCL-2 inhibitor, plus ruxolitinib in patients with relapsed/refractory myelofibrosis following evaluation of the totality of data from the Phase 3 TRANSFORM-1 trial and recent feedback from regulators.

Aesthetics

Juvederm Collection

- In March 2024, AbbVie announced the FDA approval of Juvederm Voluma XC for injection in the temple region to improve moderate to severe temple hollowing in adults over the age of 21.

Neuroscience

ABBV-951

- In January 2024, AbbVie announced the launch of Produodopa (ABBV-951) in the European Union for the treatment of advanced Parkinson's disease with severe motor fluctuations and hyperkinesia (excessive movement) or dyskinesia (involuntary movement), and when available combinations of Parkinson's medicinal products have not given satisfactory results.

For a more comprehensive discussion of AbbVie's products and pipeline, see the company's Annual Report on Form 10-K for the year ended December 31, 2023.

RESULTS OF OPERATIONS

Net Revenues

The comparisons presented at constant currency rates reflect comparative local currency net revenues at the prior year’s foreign exchange rates. This measure provides information on the change in net revenues assuming that foreign currency exchange rates had not changed between the prior and current periods. AbbVie believes that the non-GAAP measure of change in net revenues at constant currency rates, when used in conjunction with the GAAP measure of change in net revenues at actual currency rates, may provide a more complete understanding of the company’s operations and can facilitate analysis of the company’s results of operations, particularly in evaluating performance from one period to another.

(dollars in millions)	Three months ended March 31,		Percent change			
	2024	2023	At actual currency rates		At constant currency rates	
United States	\$ 9,041	\$ 9,201	(1.7)	%	(1.7)	%
International	3,269	3,024	8.1	%	11.6	%
Net revenues	\$ 12,310	\$ 12,225	0.7	%	1.6	%

The following table details AbbVie's worldwide net revenues:

(dollars in millions)		Three months ended March 31,		Percent change	
		2024	2023	At actual currency rates	At constant currency rates
Immunology					
Humira	United States	\$ 1,771	\$ 2,948	(39.9) %	(39.9) %
	International	499	593	(15.8) %	(11.6) %

n/m – Not meaningful

(a) Net revenues include ImmunoGen product revenues after the acquisition closing date of February 12, 2024.

The following discussion and analysis of AbbVie's net revenues by product is presented on a constant currency basis.

Global Humira sales decreased 35% for the three months ended March 31, 2024. In the United States, Humira sales decreased by 40% for the three months ended March 31, 2024 primarily driven by direct biosimilar competition following the loss of exclusivity on January 31, 2023. Internationally, Humira revenues decreased 12% for the three months ended March 31, 2024 primarily driven by the continued impact of direct biosimilar competition. AbbVie continues to pursue strategies to maintain broad formulary access of Humira and manage the impact of biosimilar erosion.

Net revenues for Skyrizi increased 48% for the three months ended March 31, 2024 primarily driven by continued strong market share uptake and market growth across all indications, partially offset by the timing of retail inventory destocking.

Net revenues for Rinvoq increased 62% for the three months ended March 31, 2024 primarily driven by continued strong market share uptake as well as market growth across all indications.

Net revenues for Imbruvica represent product revenues in the United States and collaboration revenues outside of the United States related to AbbVie's 50% share of Imbruvica profit. AbbVie's global Imbruvica revenues decreased 5% for the three months ended March 31, 2024 primarily driven by decreased demand and lower market share in the United States as well as decreased collaboration revenues, partially offset by the timing of inventory stocking.

Net revenues for Venclexta increased 16% for the three months ended March 31, 2024 driven by continued market share uptake as well as market growth across all indications.

Net revenues for Elahere were \$64 million for the three months ended March 31, 2024 for the period subsequent to the completion of the ImmunoGen acquisition.

Net revenues for Botox Cosmetic decreased 3% for the three months ended March 31, 2024 primarily driven by the unfavorable impact related to timing of customer inventory destocking in the United States.

Net revenues for Juvederm Collection decreased 14% for the three months ended March 31, 2024 primarily driven by the unfavorable impact related to timing of customer inventory destocking in the United States and decreased consumer demand across certain international markets.

Net revenues for Botox Therapeutic increased 5% for the three months ended March 31, 2024 primarily driven by continued market share uptake as well as market growth.

Net revenues for Vraylar increased 24% for the three months ended March 31, 2024 primarily driven by continued market share uptake.

Net revenues for Ubrelvy increased 34% for the three months ended March 31, 2024 primarily driven by continued market share uptake as well as market growth.

Net revenues for Qulipta increased 98% for the three months ended March 31, 2024 primarily driven by continued strong market share uptake. Net revenues were also favorably impacted by the regulatory approval of Qulipta for the preventive treatment of chronic migraine in adults.

Gross Margin

(dollars in millions)	Three months ended March 31,			
	2024		2023	
				% change
Gross margin	\$	8,216	\$	8,239
as a % of net revenues		67 %		67 %

Gross margin as a percentage of net revenues was flat for the three months ended March 31, 2024 compared to the prior year. Gross margin percentage for the three months ended March 31, 2024 was unfavorably impacted by changes in product mix, offset by lower amortization of intangibles.

Selling, General and Administrative

(dollars in millions)	Three months ended March 31,			
	2024		2023	
				% change
Selling, general and administrative	\$	3,315	\$	3,039
as a % of net revenues		27 %		25 %

Selling, general and administrative (SG&A) expenses as a percentage of net revenues increased for the three months ended March 31, 2024 compared to the prior year. SG&A expense percentage was unfavorably impacted by acquisition and integration costs incurred in connection with the ImmunoGen acquisition including cash-settled, post-closing expense for ImmunoGen employee incentive awards. See Note 4 to the condensed consolidated financial statements for additional information.

Research and Development

(dollars in millions)	Three months ended March 31,			
	2024		2023	
				% change
Research and development	\$	1,939	\$	2,292
as a % of net revenues		16 %		19 %

Research and development (R&D) expenses as a percentage of net revenues decreased for the three months ended March 31, 2024 compared to the prior year primarily due to an intangible asset impairment charge of \$630 million incurred during the three months ended March 31, 2023, partially offset by increased funding to support all stages of the company's pipeline assets as well as acquisition and integration costs incurred in connection with the ImmunoGen acquisition including cash-settled, post-closing expense for ImmunoGen employee incentive awards. See Note 4 to the condensed consolidated financial statements for additional information.

Acquired IPR&D and Milestones

(dollars in millions)	Three months ended March 31,	
	2024	2023
Upfront charges	\$ 79	\$ 132
Development milestones	85	18
Acquired IPR&D and milestones	\$ 164	\$ 150

Other Non-Operating Expenses (Income)

(in millions)	Three months ended March 31,	
	2024	2023
Interest expense	\$ 660	\$ 553
Interest income	(207)	(99)
Interest expense, net	\$ 453	\$ 454
Net foreign exchange loss	\$ 4	\$ 35
Other expense, net	586	1,804

Interest expense increased for the three months ended March 31, 2024 compared to the prior year primarily due to the incremental interest and debt issuance costs associated with financing the ImmunoGen and proposed Cerevel Therapeutics acquisitions as well as the impact of higher interest rates. See Note 8 to the condensed consolidated financial statements for additional information related to debt issued to finance the ImmunoGen acquisition.

Interest income increased for the three months ended March 31, 2024 compared to the prior year primarily due to a higher average cash and cash equivalents balance and the impact of higher interest rates.

Other expense, net included charges related to changes in fair value of contingent consideration liabilities of \$660 million for the three months ended March 31, 2024 and \$1.9 billion for the three months ended March 31, 2023. The fair value of contingent consideration liabilities is impacted by the passage of time and multiple other inputs, including the probability of success of achieving regulatory/commercial milestones, discount rates, the estimated amount of future sales of the acquired products and other market-based factors. For the three months ended March 31, 2024, the change in fair value reflected higher estimated Skyrizi sales driven by stronger market share uptake and the passage of time, partially offset by higher discount rates. For the three months ended March 31, 2023 the change in fair value reflected higher estimated Skyrizi sales driven by stronger market share uptake, the passage of time, lower discount rates and favorable clinical trial results.

Income Tax Expense

The effective tax rate was 22% for the three months ended March 31, 2024 compared to 49% for the three months ended March 31, 2023. The effective tax rate in each period differed from the U.S. statutory tax rate of 21% principally due to the impact of foreign operations which reflects the impact of lower income tax rates in locations outside the United States, changes in fair value of contingent consideration and business development activities, including ImmunoGen acquisition-related costs. The decrease in the effective tax rate for the three months ended March 31, 2024 over the prior year was primarily due to changes in fair value of contingent consideration and impairment of certain intangible assets in the prior year.

FINANCIAL POSITION, LIQUIDITY AND CAPITAL RESOURCES

(in millions)	Three months ended March 31,	
	2024	2023
Cash flows provided by (used in):		
Operating activities	\$ 4,040	\$ 4,193
Investing activities	(9,588)	(499)
Financing activities	10,819	(6,192)

Operating cash flows for the three months ended March 31, 2024 decreased compared to the prior year primarily due to ImmunoGen acquisition-related cash expenses, decreased results from operations driven by changes in product mix and increased R&D funding to support all stages of the company's pipeline assets, partially offset by the timing of working capital.

Investing cash flows for the three months ended March 31, 2024 primarily included \$9.8 billion cash consideration paid to acquire ImmunoGen offset by cash acquired of \$591 million, payments made for other acquisitions and investments of \$190 million and capital expenditures of \$193 million. Investing cash flows for the three months ended March 31, 2023 included payments made for other acquisitions and investments of \$353 million and capital expenditures of \$175 million.

Financing cash flows for the three months ended March 31, 2024 included the issuance of unsecured senior notes totaling \$15.0 billion aggregate principal which were used to finance the acquisition of ImmunoGen and proposed acquisition of Cerevel Therapeutics. Additionally, financing cash flows included the issuance and repayment of \$5.0 billion under the term loan credit agreement and the repayment of \$99 million of secured term notes assumed from ImmunoGen in conjunction with the acquisition. Financing cash flows for the three months ended March 31, 2023 included repayments of \$1.0 billion floating rate term loan and \$350 million aggregate principal amount of the company's 2.80% senior notes.

Financing cash flows also included cash dividend payments of \$2.8 billion for the three months ended March 31, 2024 and \$2.7 billion for the three months ended March 31, 2023. The increase in cash dividend payments was primarily driven by the increase in the quarterly dividend rate.

On February 15, 2024, the company announced that its board of directors declared a quarterly cash dividend of \$1.55 per share for stockholders of record at the close of business on April 15, 2024, payable on May 15, 2024. The timing, declaration, amount of and payment of any dividends by AbbVie in the future is within the discretion of its board of directors and will depend upon many factors, including AbbVie's financial condition, earnings, capital requirements of its operating subsidiaries, covenants associated with certain of AbbVie's debt service obligations, legal requirements, regulatory constraints, industry practice, ability to access capital markets and other factors deemed relevant by its board of directors.

The company's stock repurchase authorization permits purchases of AbbVie shares from time to time in open-market or private transactions at management's discretion. The program has no time limit and can be discontinued at any time. On February 16, 2023, AbbVie's board of directors authorized a \$5.0 billion increase to the existing stock repurchase authorization. AbbVie repurchased 5 million shares for \$959 million during the three months ended March 31, 2024 and 10 million shares for \$1.6 billion during the three months ended March 31, 2023.

During the three months ended March 31, 2024, the company issued and redeemed \$1.7 billion of commercial paper. There were no commercial paper borrowings outstanding as of March 31, 2024 and December 31, 2023. AbbVie may issue additional commercial paper or retire commercial paper to meet liquidity requirements as needed.

Credit Risk

AbbVie monitors economic conditions, the creditworthiness of customers and government regulations and funding, both domestically and abroad. AbbVie regularly communicates with its customers regarding the status of receivable balances, including their payment plans and obtains positive confirmation of the validity of the receivables. AbbVie establishes an allowance for credit losses equal to the estimate of future losses over the contractual life of outstanding accounts receivable. AbbVie may also utilize factoring arrangements to mitigate credit risk, although the receivables included in such arrangements have historically not been a significant amount of total outstanding receivables.

Credit Facility, Access to Capital and Credit Ratings

Credit Facility

In December 2023, in connection with the acquisition of ImmunoGen and proposed acquisition of Cerevel Therapeutics, AbbVie entered into a \$9.0 billion 364-day bridge credit agreement and \$5.0 billion 364-day term loan credit agreement. In February, 2024, AbbVie borrowed and repaid \$5.0 billion under the term loan credit agreement. Subsequent to the \$15.0 billion issuance of senior notes, AbbVie terminated both the bridge and term loan credit agreements in the first quarter of 2024.

In March 2023, AbbVie entered into an amended and restated five-year revolving credit facility. The amendment increased the unsecured revolving credit facility commitments from \$4.0 billion to \$5.0 billion and extended the maturity date of the facility from August 2023 to March 2028. This credit facility enables the company to borrow funds on an unsecured basis at variable interest rates and contains various covenants. At March 31, 2024, the company was in compliance with all covenants, and commitment fees under the credit facility were insignificant. No amounts were outstanding under the company's credit facility as of March 31, 2024 and December 31, 2023.

Access to Capital

The company intends to fund short-term and long-term financial obligations as they mature through cash on hand, future cash flows from operations or has the ability to issue additional debt. The company's ability to generate cash flows from operations, issue debt or enter into financing arrangements on acceptable terms could be adversely affected if there is a material decline in the demand for the company's products or in the solvency of its customers or suppliers, deterioration in the company's key financial ratios or credit ratings or other material unfavorable changes in business conditions. At the current time, the company believes it has sufficient financial flexibility to issue debt, enter into other financing arrangements and attract long-term capital on acceptable terms to support the company's growth objectives.

Credit Ratings

There were no changes in the company's credit ratings during the three months ended March 31, 2024. Unfavorable changes to the ratings may have an adverse impact on future financing arrangements; however, they would not affect the company's ability to draw on its credit facility and would not result in an acceleration of scheduled maturities of any of the company's outstanding debt.

CRITICAL ACCOUNTING POLICIES

A summary of the company's significant accounting policies is included in Note 2, "Summary of Significant Accounting Policies" in AbbVie's Annual Report on Form 10-K for the year ended December 31, 2023. There have been no significant changes in the company's application of its critical accounting policies during the three months ended March 31, 2024.

FORWARD-LOOKING STATEMENTS

Some statements in this quarterly report on Form 10-Q are, or may be considered, forward-looking statements for purposes of the Private Securities Litigation Reform Act of 1995. The words "believe," "expect," "anticipate," "project," and similar expressions and use of future or conditional verbs, generally identify forward-looking statements. AbbVie cautions that these forward-looking statements are subject to risks and uncertainties that may cause actual results to differ materially from those expressed or implied in the forward-looking statements. Such risks and uncertainties include, but are not limited to challenges to intellectual property, competition from other products, difficulties inherent in the research and development process, adverse litigation or government action and changes to laws and regulations applicable to our industry. Additional information about the economic, competitive, governmental, technological and other factors that may affect AbbVie's operations is set forth in Item 1A, "Risk Factors," in AbbVie's Annual Report on Form 10-K for the year ended December 31, 2023, which has been filed with the Securities and Exchange Commission. AbbVie notes these factors for investors as permitted by the Private Securities Litigation Reform Act of 1995. AbbVie undertakes no obligation, and specifically declines, to release publicly any revisions to forward-looking statements as a result of subsequent events or developments, except as required by law.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

For a discussion of the company's market risk, see Item 7A, "Quantitative and Qualitative Disclosures About Market Risk" in AbbVie's Annual Report on Form 10-K for the year ended December 31, 2023.

ITEM 4. CONTROLS AND PROCEDURES

DISCLOSURE CONTROLS AND PROCEDURES

Evaluation of disclosure controls and procedures. The Chief Executive Officer, Richard A. Gonzalez, and the Chief Financial Officer, Scott T. Reents, evaluated the effectiveness of AbbVie's disclosure controls and procedures as of the end of the period covered by this report, and concluded that AbbVie's disclosure controls and procedures were effective to ensure that information AbbVie is required to disclose in the reports that it files or submits with the Securities and Exchange Commission under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported, within the time periods specified in the Commission's rules and forms, and to ensure that information required to be disclosed by AbbVie in the reports that it files or submits under the Securities Exchange Act of 1934 is accumulated and communicated to AbbVie's management, including its principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

INTERNAL CONTROL OVER FINANCIAL REPORTING

Changes in internal control over financial reporting. There were no changes in AbbVie's internal control over financial reporting (as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934) that have materially affected, or are reasonably likely to materially affect, AbbVie's internal control over financial reporting during the quarter ended March 31, 2024.

Inherent Limitations on Effectiveness of Controls. AbbVie's management, including its Chief Executive Officer and its Chief Financial Officer, do not expect that AbbVie's disclosure controls or internal control over financial reporting will prevent or detect all errors and all fraud. A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the control system's objectives will be met. The design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Further, because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that misstatements due to error or fraud will not occur or that all control issues and instances of fraud, if any, have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Controls can also be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the controls.

The design of any system of controls is based in part on certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Projections of any evaluation of controls effectiveness to future periods are subject to risks. Over time, controls may become inadequate because of changes in conditions or deterioration in the degree of compliance with policies or procedures.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Information pertaining to legal proceedings is provided in Note 12 to the Condensed Consolidated Financial Statements and is incorporated by reference herein.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

(c) Issuer Purchases of Equity Securities

Period	(a) Total Number of Shares (or Units) Purchased	(b) Average Price Paid per Share (or Unit)	(c) Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs	(d) Maximum Number (or Approximate Dollar Value) of Shares (or Units) that May Yet Be Purchased Under the Plans or Programs
January 1, 2024 - January 31, 2024	994 ⁽¹⁾	\$160.15 ⁽¹⁾	—	\$4,808,991,028
February 1, 2024 - February 28, 2024	845 ⁽¹⁾	\$171.75 ⁽¹⁾	—	\$4,808,991,028
March 1, 2024 - March 31, 2024	5,317,518 ⁽¹⁾	\$180.45 ⁽¹⁾	5,316,656	\$3,849,610,303
Total	5,319,357 ⁽¹⁾	\$180.44 ⁽¹⁾	5,316,656	\$3,849,610,303

1. In addition to AbbVie shares repurchased on the open market under a publicly announced program, if any, these shares also included the shares purchased on the open market for the benefit of participants in the AbbVie Employee Stock Purchase Plan – 994 in January; 845 in February; and 862 in March.

These shares do not include the shares surrendered to AbbVie to satisfy minimum tax withholding obligations in connection with the vesting or exercise of stock-based awards.

ITEM 5. OTHER ITEMS

(c) Director and Officer Trading Arrangements

During the three months ended March 31, 2024, no director or officer of the company adopted, modified or terminated a “Rule 10b5-1 trading arrangement” or “non-Rule 10b5-1 trading arrangement,” as each term is defined in Item 408(a) of Regulation S-K, except as provided below.

Name & Title	Action Taken	Date Adopted	Type of Trading Arrangement ⁽¹⁾	Aggregate Number of Shares to be Sold Pursuant to Trading Arrangement	Duration of Trading Arrangement ⁽²⁾
Richard A. Gonzalez Chairman of the Board and Chief Executive Officer	Adoption	03/26/2024	Rule 10b5-1 Trading Arrangement	Up to 282,845 Shares Issuable Upon the Exercise of Options	12/31/2024

1. Except as indicated by footnote, each trading arrangement marked as a "Rule 10b5-1 Trading Arrangement" is intended to satisfy the affirmative defense of Rule 10b5-1(c), as amended.
2. Except as indicated by footnote, each trading arrangement permitted or permits transactions through and including the earlier to occur of (a) the completion of all sales or (b) the date listed in the table. Each trading arrangement marked as a “Rule 10b5-1 Trading Arrangement” only permitted or only permits transactions upon expiration of the applicable mandatory cooling-off period under the Rule.

ITEM 6. EXHIBITS

Exhibits 32.1 and 32.2 are furnished herewith and should not be deemed to be “filed” under the Securities Exchange Act of 1934.

Exhibit No.	Exhibit Description
10.1	Form of AbbVie Inc. Performance-Vested Restricted Stock Unit Agreement*
10.2	Form of AbbVie Inc. Performance Share Award Agreement*
10.3	Form of AbbVie Inc. Non-Employee Director RSU Agreement (US)*
10.4	Form of AbbVie Inc. Non-Qualified Stock Option Agreement*
10.5	Form of AbbVie Inc. Retention RSU Agreement - Ratable Vesting*
31.1	Certification of Chief Executive Officer Required by Rule 13a-14(a) (17 CFR 240.13a-14(a)).
31.2	Certification of Chief Financial Officer Required by Rule 13a-14(a) (17 CFR 240.13a-14(a)).
32.1	Certification of Chief Executive Officer Pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
32.2	Certification of Chief Financial Officer Pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
101	The following financial statements and notes from the AbbVie Inc. Quarterly Report on Form 10-Q for the quarter ended March 31, 2024, filed on May 3, 2024, formatted in iXBRL (Inline eXtensible Business Reporting Language): (i) Condensed Consolidated Statements of Earnings; (ii) Condensed Consolidated Statements of Comprehensive Income; (iii) Condensed Consolidated Balance Sheets; (iv) Condensed Consolidated Statements of Equity; (v) Condensed Consolidated Statements of Cash Flows; and (vi) the Notes to Condensed Consolidated Financial Statements.
104	Cover Page Interactive Data File (the cover page from the AbbVie Inc. Quarterly Report on Form 10-Q formatted as Inline XBRL and contained in Exhibit 101).
