NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying Consolidated Financial Statements have been prepared in accordance with the instructions to Form 10-Q and do not include all of the information and footnotes required by generally accepted accounting principles ("GAAP") for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. These statements should be read in conjunction with the Consolidated Financial Statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended February 2, 2014, as filed with the Securities and Exchange Commission.

Business

The Home Depot, Inc. and its subsidiaries (the "Company") operate The Home Depot stores, which are full-service, warehouse-style stores averaging approximately 104,000 square feet of enclosed space, with approximately 24,000 additional square feet of outside garden area. The stores stock approximately 30,000 to 40,000 different kinds of building materials, home improvement supplies and lawn and garden products that are sold to do-it-yourself customers, do-it-for-me customers and professional customers. The Company also offers over 700,000 products through its websites, including Home Depot, Home Decorators Collection and Blinds.com.

Valuation Reserves

As of August 3, 2014 and February 2, 2014, the valuation allowances for Merchandise Inventories and uncollectible Receivables were not material.

2. LONG-TERM DEBT

In June 2014, the Company issued \$1.0 billion of 2.00% senior notes due June 15, 2019 (the "2019 notes") at a discount of \$4 million and \$1.0 billion of 4.40% senior notes due March 15, 2045 (the "2045 notes") at a discount of \$15 million (together, the "June 2014 issuance"). Interest on the 2019 notes is due semi-annually on June 15 and December 15 of each year, beginning December 15, 2014. Interest on the 2045 notes is due semi-annually on March 15 and September 15 of each year, beginning September 15, 2014. The net proceeds of the June 2014 issuance were used for general corporate purposes, including repurchases of shares of the Company's common stock. The \$19 million discount associated with the June 2014 issuance is being amortized over the term of the notes using the effective interest rate method. Issuance costs associated with the June 2014 issuance were approximately \$14 million and are being amortized over the term of the notes.

The notes may be redeemed by the Company at any time, in whole or in part, at the redemption price plus accrued interest up to the redemption date. The redemption price is equal to the greater of (1) 100% of the principal amount of the notes to be redeemed, and (2) the sum of the present values of the remaining scheduled payments of principal and interest to the Par Call Date, as defined in the respective notes. Additionally, if a Change in Control Triggering Event occurs, as defined in the notes, holders of the notes have the right to require the Company to redeem those notes at 101% of the aggregate principal amount of the notes plus accrued interest up to the redemption date. The Company is generally not limited under the indenture governing the notes in its ability to incur additional indebtedness or required to maintain financial ratios or specified levels of net worth or liquidity. Further, while the indenture governing the notes contains various restrictive covenants, none are expected to impact the Company's liquidity or capital resources.

3. INVESTMENT IN HD SUPPLY HOLDINGS, INC.

At the end of fiscal 2013, the Company owned 16.3 million shares of HD Supply Holdings, Inc. ("HD Supply") common stock, which represented approximately 8% of the shares of HD Supply common stock outstanding. This investment is accounted for using the cost method, as there are significant restrictions in place on the Company's ability to sell or transfer its HD Supply shares. The restrictions are controlled by the three largest shareholders of HD Supply (the "Principal Shareholders"). The carrying value of the HD Supply shares was impaired by the Company to a zero cost basis in fiscal 2009. During the first quarter of fiscal 2014, the Principal Shareholders elected to sell shares in a secondary public offering of HD Supply common stock. Under the terms of a registration rights agreement among the Company, HD Supply and the Principal Shareholders, the Company had the right to include a portion of its shares in the offering, and the Company elected to do so. As a result, the restrictions on 3.9 million shares were lifted so that they could be sold in the offering. The Company received \$97 million of proceeds from the sale of these shares and recognized a corresponding gain in the first quarter of fiscal 2014.

THE HOME DEPOT, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

In the second quarter of fiscal 2014, the underwriters of the secondary public offering exercised their overallotment option to sell additional shares of HD Supply common stock to the public. As a result, the Company sold 600 thousand additional shares of HD Supply common stock and received \$15 million of proceeds from the sale of these shares and recognized a corresponding gain in the second quarter of fiscal 2014. The total gain of \$112 million is included in Interest and Investment Income in the accompanying Consolidated Statements of Earnings for the six months ended August 3, 2014. The remaining 11.8 million shares owned by the Company, which represent approximately 6% of the shares of HD Supply common stock outstanding, continue to be accounted for using the cost method as the restrictions on these shares remain in place.

4. ACCELERATED SHARE REPURCHASE AGREEMENTS

In the first quarter of fiscal 2014, the Company entered into an Accelerated Share Repurchase ("ASR") agreement with a third-party financial institution to repurchase \$950 million of the Company's common stock. Under this agreement, the Company paid \$950 million to the financial institution and received an initial delivery of 9.5 million shares in the first quarter of fiscal 2014. The transaction was completed later in the first quarter of fiscal 2014, at which time the Company received 2.6 million additional shares. The final number of shares delivered upon settlement of the \$950 million ASR agreement was determined with reference to the average price of the Company's common stock over the term of the agreement. The \$950 million of shares repurchased is included in Treasury Stock in the accompanying Consolidated Balance Sheets as of August 3, 2014.

In the second quarter of fiscal 2014, the Company entered into an ASR agreement with a third-party financial institution to repurchase \$1.75 billion of the Company's common stock. Under this agreement, the Company paid \$1.75 billion to the financial institution and received an initial delivery of 16.9 million shares in the second quarter of fiscal 2014. The fair market value of the 16.9 million shares on the date of purchase was \$1.32 billion and is included in Treasury Stock in the accompanying Consolidated Balance Sheets as of August 3, 2014. The remaining \$430 million is included in Paid-In Capital in the accompanying Consolidated Balance Sheets as of August 3, 2014. The final number of shares delivered upon settlement of the \$1.75 billion ASR agreement will be determined in the third quarter of fiscal 2014 with reference to the average price of the Company's common stock over the term of the agreement.

5. FAIR VALUE MEASUREMENTS

The fair value of an asset is considered to be the price at which the asset could be sold in an orderly transaction between unrelated knowledgeable and willing parties. A liability's fair value is defined as the amount that would be paid to transfer the liability to a new obligor, rather than the amount that would be paid to settle the liability with the creditor. Assets and liabilities recorded at fair value are measured using a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers are:

- Level 1 – Observable inputs that reflect quoted prices in active markets
- Level 2 – Inputs other than quoted prices in active markets that are either directly or indirectly observable
- Level 3 – Unobservable inputs for which little or no market data exists, therefore requiring the Company to develop its own assumptions

Assets and Liabilities Measured at Fair Value on a Recurring Basis

The assets and liabilities of the Company that are measured at fair value on a recurring basis as of August 3, 2014 and February 2, 2014 were as follows (amounts in millions):

	Fair Value at August 3, 2014 Using			Fair Value at February 2, 2014 Using		
	Level 1	Level 2	Level 3	Level 1	Level 2	Level 3
Derivative agreements - assets	\$ —	\$ 30	\$ —	\$ —	\$ 30	\$ —
Derivative agreements - liabilities	—	(25)	—	—	(10)	—
Total	\$ —	\$ 5	\$ —	\$ —	\$ 20	\$ —

The Company uses derivative financial instruments from time to time in the management of its interest rate exposure on long-term debt and its exposure on foreign currency fluctuations. The fair value of the Company's derivative financial instruments was measured using level 2 inputs.

THE HOME DEPOT, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Assets and Liabilities Measured at Fair Value on a Nonrecurring Basis

Long-lived assets were analyzed for impairment on a nonrecurring basis using fair value measurements with unobservable inputs (level 3). Impairment charges related to long-lived assets in the first six months of fiscal 2014 and 2013 were not material.

The aggregate fair value of the Company's senior notes, based on quoted market prices, was \$17.8 billion and \$15.6 billion at August 3, 2014 and February 2, 2014, respectively, compared to a carrying value of \$16.2 billion and \$14.2 billion at August 3, 2014 and February 2, 2014, respectively.

6. BASIC AND DILUTED WEIGHTED AVERAGE COMMON SHARES

The reconciliation of basic to diluted weighted average common shares for the three and six months ended August 3, 2014 and August 4, 2013 was as follows (amounts in millions):

	Three Months Ended		Six Months Ended	
	August 3, 2014	August 4, 2013	August 3, 2014	August 4, 2013
Weighted average common shares	1,346	1,434	1,358	1,452
Effect of potentially dilutive securities:				
Stock plans	7	9	7	10
Diluted weighted average common shares	1,353	1,443	1,365	1,462

Stock plans consist of shares granted under the Company's employee stock plans. Options to purchase 2 million and 1 million shares of common stock for the three months ended August 3, 2014 and August 4, 2013, respectively, and options to purchase 2 million and 1 million shares of common stock for the six months ended August 3, 2014 and August 4, 2013, respectively, were excluded from the computation of Diluted Earnings per Share because their effect would have been anti-dilutive.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Stockholders
The Home Depot, Inc.:

We have reviewed the Consolidated Balance Sheet of The Home Depot, Inc. and subsidiaries as of August 3, 2014, the related Consolidated Statements of Earnings and Comprehensive Income for the three-month and six-month periods ended August 3, 2014 and August 4, 2013, and the related Consolidated Statements of Cash Flows for the six-month periods ended August 3, 2014 and August 4, 2013. These Consolidated Financial Statements are the responsibility of the Company's management.

We conducted our reviews in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to the Consolidated Financial Statements referred to above for them to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with standards of the Public Company Accounting Oversight Board (United States), the Consolidated Balance Sheet of The Home Depot, Inc. and subsidiaries as of February 2, 2014, and the related Consolidated Statements of Earnings, Comprehensive Income, Stockholders' Equity, and Cash Flows for the year then ended (not presented herein); and in our report dated March 27, 2014, we expressed an unqualified opinion on those Consolidated Financial Statements. In our opinion, the information set forth in the accompanying Consolidated Balance Sheet as of February 2, 2014, is fairly stated, in all material respects, in relation to the Consolidated Balance Sheet from which it has been derived.

For the second quarter of fiscal 2014, we reported Net Earnings of \$2.1 billion and Diluted Earnings per Share of \$1.52 compared to Net Earnings of \$1.8 billion and Diluted Earnings per Share of \$1.24 for the second quarter of fiscal 2013. We also continued to introduce innovative new products and great values to our customers. This includes plans to launch a new light bulb reset, which will add 26 new SKUs to our assortment, and introduce new products for the connected home, such as garage door openers, thermostats and water heaters.

Disciplined Capital Allocation, Productivity and Efficiency – Our approach to driving productivity and efficiency is advanced through continuous operational improvement in the stores and our supply chain, disciplined capital allocation and building shareholder value through higher returns on invested capital and total value returned to shareholders in the form of dividends and share repurchases. During the first six months of fiscal 2014, we introduced our new Customer Order Management system. This system is designed to provide greater visibility into and improved execution of special orders by our associates and a more seamless experience for our customers. We intend to roll this system out to all U.S. stores by the end of fiscal 2014.

During the second quarter of fiscal 2014, we entered into a \$1.75 billion Accelerated Share Repurchase (“ASR”) agreement and received an initial delivery of 16.9 million shares of our common stock. Also in the second quarter of fiscal 2014, we repurchased 6.2 million shares of our common stock through the open market. During the first six months of fiscal 2014, we repurchased a total of 38.9 million shares of our common stock for \$3.5 billion through ASR agreements and the open market.

We opened one new store in Mexico during the second quarter of fiscal 2014, for a total store count of 2,264 at the end of the quarter. As of the end of the second quarter of fiscal 2014, a total of 287 of our stores, or 12.7%, were located in Canada and Mexico.

We generated \$5.3 billion of cash flow from operations in the first six months of fiscal 2014. This cash flow, along with \$2.0 billion of long-term debt issued in the second quarter of fiscal 2014, was used to fund \$3.5 billion of share repurchases, pay \$1.3 billion of dividends and fund \$631 million in capital expenditures.

Our return on invested capital (computed on net operating profit after tax for the trailing twelve months and the average of beginning and ending long-term debt and equity) was 21.9% for the second quarter of fiscal 2014 compared to 19.1% for the second quarter of fiscal 2013.

Interconnected Retail – Our focus on interconnected retail, which connects our other three key initiatives, is based on building a competitive and seamless platform across all commerce channels. During the first six months of fiscal 2014, we continued to enhance our website and mobile experience, resulting in improved customer satisfaction scores and online sales conversion rates. Sales from our online channels increased over 38% for the second quarter and first six months of fiscal 2014 compared to the same periods last year and represented approximately 4.2% of our total Net Sales at the end of the quarter.

RESULTS OF OPERATIONS

Net Sales for the second quarter of fiscal 2014 increased 5.7% to \$23.8 billion from \$22.5 billion for the second quarter of fiscal 2013. For the first six months of fiscal 2014, Net Sales increased 4.4% to \$43.5 billion from \$41.6 billion for the comparable period of fiscal 2013. The increase in Net Sales for the second quarter and first six months of fiscal 2014 reflects the impact of positive comparable store sales driven by customer transactions and average ticket growth. Total comparable store sales increased 5.8% for the second quarter of fiscal 2014 on top of an increase of 10.7% for the second quarter of fiscal 2013. For the first six months of fiscal 2014, total comparable store sales increased 4.3% on top of an increase of 7.7% for the same period of fiscal 2013.

The positive comparable store sales for the second quarter and first six months of fiscal 2014 reflect a number of factors, including the execution of our key initiatives, continued strength in our maintenance and repair categories, and an improved U.S. and Canadian home improvement market. All of our departments posted positive comparable store sales for the second quarter and first six months of fiscal 2014. Comparable store sales for our Tools, Millwork, Outdoor Garden, Electrical, Kitchen and Bath product categories were above or at the Company average for the second quarter of fiscal 2014. Further, our comparable store customer transactions increased 4.1% and 3.2% for the second quarter and first six months of fiscal 2014, respectively, and our comparable store average ticket increased 1.7% and 1.1% for the second quarter and first six months of fiscal 2014, respectively, due in part to strong sales in big ticket purchases, such as appliances, windows, water heaters and wood and laminate flooring.

Gross Profit increased 5.7% to \$8.2 billion for the second quarter of fiscal 2014 from \$7.7 billion for the second quarter of fiscal 2013. Gross Profit increased 4.5% to \$15.0 billion for the first six months of fiscal 2014 from \$14.4 billion for the first six months for fiscal 2013. Gross Profit as a percent of Net Sales was 34.3% for the second quarter of both fiscal 2014 and 2013. For the first six months of both fiscal 2014 and 2013, Gross Profit as a percent of Net Sales was 34.6%. Gross profit margin for the second quarter and first six months of fiscal 2014 reflects higher levels of co-op allowances and rebates and benefits from sales mix changes, offset by higher shrink and deleverage within our supply chain due to higher transportation costs.

Selling, General and Administrative expenses ("SG&A") were \$4.3 billion for the second quarter of both fiscal 2014 and 2013, and were \$8.5 billion for the first six months of both fiscal 2014 and 2013. As a percent of Net Sales, SG&A was 18.1% for the second quarter of fiscal 2014 compared to 19.1% for the second quarter of fiscal 2013. For the first six months of fiscal 2014, SG&A as a percent of Net Sales was 19.5% compared to 20.4% for the same period last year. The decrease in SG&A as a percent of Net Sales for the second quarter and first six months of fiscal 2014 reflects expense leverage resulting from the positive comparable store sales environment, strong expense controls, and lower management bonuses and workers' compensation expenses than last year.

Depreciation and Amortization increased 1.5% to \$415 million for the second quarter of fiscal 2014 from \$409 million for the second quarter of fiscal 2013. For the first six months of fiscal 2014, Depreciation and Amortization increased 2.2% to \$829 million from \$811 million for the same period of fiscal 2013. Depreciation and Amortization as a percent of Net Sales was 1.7% for the second quarter of fiscal 2014 compared to 1.8% for the second quarter of 2013, and was 1.9% for the first six months of both fiscal 2014 and 2013. Depreciation and Amortization as a percent of Net Sales for the second quarter and first six months of fiscal 2014 reflects expense leverage in the positive comparable store sales environment, offset by higher depreciation related to capital expenditures that in recent years have been more heavily weighted toward technology assets, which have shorter depreciable lives.

Operating Income increased 14.2% to \$3.4 billion for the second quarter of fiscal 2014 from \$3.0 billion for the second quarter of fiscal 2013. Operating Income increased 12.0% to \$5.7 billion for the first six months of fiscal 2014 from \$5.1 billion for the first six months of fiscal 2013.

For the second quarter of fiscal 2014, we recognized \$191 million of Interest and Other, net, compared to \$172 million for the second quarter of fiscal 2013. We recognized \$282 million of Interest and Other, net, for the first six months of fiscal 2014 compared to \$333 million for the same period last year. Interest and Other, net, as a percent of Net Sales was 0.8% for the second quarter of both fiscal 2014 and 2013. For the first six months of fiscal 2014, Interest and Other, net, as a percent of Net Sales was 0.6% compared to 0.8% for the same period last year. These results reflect additional interest expense incurred in the second quarter and first six months of fiscal 2014 on the long-term debt issued in September 2013 and June 2014. This was offset by a \$112 million pretax gain in the first six months of fiscal 2014 related to the sale of a portion of our equity ownership in HD Supply.

Our combined effective income tax rate was 37.0% for the first six months of fiscal 2014 compared to 36.8% for the first six months of fiscal 2013.

Diluted Earnings per Share were \$1.52 and \$2.51 for the second quarter and first six months of fiscal 2014, respectively, compared to \$1.24 and \$2.07 for the second quarter and first six months of fiscal 2013, respectively. Diluted Earnings per Share for the second quarter and first six months of fiscal 2014 reflect \$0.01 and \$0.05, respectively, of benefit related to the sale of a portion of our equity ownership in HD Supply.

LIQUIDITY AND CAPITAL RESOURCES

Cash flow generated from operations provides us with a significant source of liquidity. During the first six months of fiscal 2014, Net Cash Provided by Operating Activities was \$5.3 billion compared to \$4.7 billion for the same period in fiscal 2013. This increase was primarily due to a \$408 million increase in Net Earnings resulting from higher comparable store sales and expense controls and cash generated through working capital efficiency.

Net Cash Used in Investing Activities for the first six months of fiscal 2014 was \$503 million compared to \$596 million for the same period in fiscal 2013. This change was primarily due to \$112 million of proceeds from the sale of a portion of our equity ownership in HD Supply and a \$13 million decrease in Payments for Business Acquired partially offset by a \$32 million increase in Capital Expenditures in the first six months of fiscal 2014 compared to the same period last year.

Net Cash Used in Financing Activities for the first six months of fiscal 2014 was \$2.5 billion compared to \$3.2 billion for the same period of fiscal 2013. This change was primarily the result of \$846 million less in repurchases of common stock, partially offset by \$142 million more in cash dividends paid to stockholders in the first six months of fiscal 2014 compared to the same period last year.

In June 2014, we issued \$1.0 billion of 2.00% senior notes due June 15, 2019 (the "2019 notes") at a discount of \$4 million and \$1.0 billion of 4.40% senior notes due March 15, 2045 (the "2045 notes") at a discount of \$15 million (together, the "June 2014 issuance"). Interest on the 2019 notes is due semi-annually on June 15 and December 15 of each year, beginning December 15, 2014. Interest on the 2045 notes is due semi-annually on March 15 and September 15 of each year, beginning September 15, 2014. The net proceeds of the June 2014 issuance were used for general corporate purposes, including repurchases of shares of our common stock.

In the first quarter of fiscal 2014, we entered into an ASR agreement with a third-party financial institution to repurchase \$950 million of our common stock. Under this agreement, we paid \$950 million to the financial institution and received a total of 12.1 million shares in the first quarter of fiscal 2014. The final number of shares delivered upon settlement of the \$950 million ASR agreement was determined with reference to the average price of our common stock over the term of the agreement.

In the second quarter of fiscal 2014, we entered into an ASR agreement with a third-party financial institution to repurchase \$1.75 billion of our common stock. Under this agreement, we paid \$1.75 billion to the financial institution and received an initial delivery of 16.9 million shares in the second quarter of fiscal 2014. The final number of shares delivered upon settlement of the \$1.75 billion ASR agreement will be determined in the third quarter of fiscal 2014 with reference to the average price of our common stock over the term of the agreement. In the first six months of fiscal 2014, we also repurchased 9.9 million additional shares of our common stock for \$800 million in the open market.

We have commercial paper programs that allow for borrowings up to \$2.0 billion. In connection with the programs, we have a back-up credit facility with a consortium of banks for borrowings up to \$2.0 billion. The credit facility expires in July 2017 and contains various restrictive covenants. At August 3, 2014, we were in compliance with all of the covenants, and they are not expected to impact our liquidity or capital resources. As of August 3, 2014, there were no borrowings outstanding under the commercial paper programs or the related credit facility.

As of August 3, 2014, we had \$4.2 billion in Cash and Cash Equivalents. We believe that our current cash position, access to the debt capital markets and cash flow generated from operations should be sufficient not only for our operating requirements but also to enable us to complete our capital expenditure programs and fund dividend payments, share repurchases and any required long-term debt payments through the next several fiscal years. In addition, we have funds available from our commercial paper programs and the ability to obtain alternative sources of financing.

RECENT ACCOUNTING PRONOUNCEMENTS

In May 2014, the Financial Accounting Standards Board issued Accounting Standards Update No. 2014-09, "*Revenue from Contracts with Customers (Topic 606)*" ("ASU No. 2014-09"), which requires an entity to recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which it expects to be entitled in exchange for those goods or services. ASU No. 2014-09 supersedes most existing revenue recognition guidance in U.S. GAAP. This guidance is effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period, and early application is not permitted. The guidance permits the use of either the retrospective or cumulative effect transition method. The Company is evaluating the effect that ASU No. 2014-09 will have on its consolidated financial statements and related disclosures.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

We are reporting the following proceeding to comply with SEC regulations, which require us to disclose certain information about proceedings arising under federal, state or local environmental provisions if we reasonably believe that such proceedings may result in monetary sanctions of \$100,000 or more. Except as set forth below, there were no other material changes during the second quarter of fiscal 2014 to our disclosure in Item 3 of our 2013 Form 10-K.

In June 2014, the Company received a proposed consent order and fine from the New York State Department of Environmental Conservation related to the sale of a mildew treatment product that had not been properly registered for sale in the state of New York. In August 2014, the Company resolved the matter by signing a consent order imposing a civil fine of \$100,000.

Item 1A. Risk Factors

In addition to the other information set forth in this Form 10-Q, you should carefully consider the factors discussed under Item 1A, "Risk Factors" and elsewhere in our 2013 Form 10-K. These risks and uncertainties could materially and adversely affect our business, financial condition and results of operations. Our operations could also be affected by additional factors that are not presently known to us or by factors that we currently consider immaterial to our business. There have been no material changes in the risk factors discussed in our 2013 Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

(a) Unregistered Sales of Equity Securities

- During the second quarter of fiscal 2014, the Company issued 6,461 deferred stock units under The Home Depot, Inc. Non-Employee Directors' Deferred Stock Compensation Plan pursuant to the exemption from registration provided by Section 4(a)(2) of the Securities Act of 1933, as amended (the "Securities Act") and Rule 506 of the SEC's Regulation D thereunder. The deferred stock units were credited to the accounts of those non-employee directors who elected to receive board retainers in the form of deferred stock units instead of cash during the second quarter of fiscal 2014. The deferred stock units convert to shares of common stock on a one-for-one basis following a termination of service as described in this plan.
- During the second quarter of fiscal 2014, the Company credited 1,402 deferred stock units to participant accounts under The Home Depot FutureBuilder Restoration Plan pursuant to an exemption from the registration requirements of the Securities Act for involuntary, non-contributory plans. (b) Purchases of Equity Securities

In the first quarter of fiscal 2013, the Board of Directors authorized a \$17.0 billion share repurchase program. Through the end of the second quarter of fiscal 2014, the Company has repurchased shares of its common stock having a value of approximately \$12.0 billion under this program. The number and average price of shares purchased in each fiscal month of the second quarter of fiscal 2014 are set forth in the table below:

Under the Plans, participants may surrender shares as payment of applicable tax withholding on the vesting of restricted stock and deferred share awards. Participants in the Plans may also exercise stock options by surrendering shares of common stock that the participants already own as payment of the exercise price. Shares so surrendered by participants in the Plans are repurchased pursuant to the terms of the Plans and applicable award agreement and not pursuant to publicly announced share repurchase programs.
