and Subsidiaries

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2009

Note 1. General

The accompanying unaudited Consolidated Financial Statements include the accounts of Berkshire Hathaway Inc. ("Berkshire" or "Company") consolidated with the accounts of all its subsidiaries and affiliates in which Berkshire holds controlling financial interests as of the financial statement date. Reference is made to Berkshire's most recently issued Annual Report on Form 10-K ("Annual Report") that included information necessary or useful to understanding Berkshire's businesses and financial statement presentations. In particular, Berkshire's significant accounting policies and practices were presented as Note 1 to the Consolidated Financial Statements included in the Annual Report. Certain immaterial amounts in 2008 have been reclassified to conform with the current year presentation. Financial information in this Report reflects any adjustments (consisting only of normal recurring adjustments) that are, in the opinion of management, necessary to a fair statement of results for the interim periods in accordance with accounting principles generally accepted in the United States ("GAAP").

For a number of reasons, Berkshire's results for interim periods are not normally indicative of results to be expected for the year. The timing and magnitude of catastrophe losses incurred by insurance subsidiaries and the estimation error inherent to the process of determining liabilities for unpaid losses of insurance subsidiaries can be relatively more significant to results of interim periods than to results for a full year. Variations in the amounts and timing of investment gains/losses and other-than-temporary impairment losses on investments can cause significant variations in periodic net earnings. Investment gains/losses are recorded when investments are sold or in instances when investments are required to be marked-to-market. In addition, changes in the fair value of derivative assets/liabilities associated with derivative contracts that do not qualify for hedge accounting treatment can cause significant variations in periodic net earnings.

Note 2. Accounting pronouncements adopted in 2009

During the third quarter of 2009, the FASB Accounting Standards Codification ("the Codification" or "ASC") became effective and superseded prior existing Financial Accounting Standards and is now the single source of authoritative GAAP. The Codification does not change previous GAAP and accordingly, its adoption did not have a material impact on Berkshire's consolidated financial statements.

As of January 1, 2009, Berkshire adopted certain provisions of "ASC 810 Consolidation" which require that noncontrolling interests (formerly known as "minority interests") be displayed in the balance sheet as a separate component of shareholders' equity and that net earnings attributable to the noncontrolling interests be clearly identified and presented in the statement of earnings. In addition, changes in ownership interests where the parent retains a controlling interest are to be reported as transactions affecting shareholders' equity. Previously such transactions were reportable as additional investment purchases (potentially resulting in recognition of additional other assets, including goodwill, or liabilities) or sales. During the first nine months of 2009, Berkshire acquired certain noncontrolling interests in subsidiaries that resulted in a reduction to shareholders' equity attributable to Berkshire of approximately \$118 million, representing the excess of consideration paid over the previously recorded balance sheet carrying amount of the acquired noncontrolling (minority) interests.

Effective April 1, 2009, Berkshire adopted guidance issued by the FASB in April 2009 relating to financial instruments. The following three paragraphs further discuss this guidance, the adoption of which was not material to Berkshire's Consolidated Financial Statements.

The FASB amended standards included in "ASC 320 Investments—Debt and Equity Securities" related to recognition, measurement and presentation for other-than-temporary impairments of debt securities and changed the disclosure requirements for both debt and equity securities. With respect to an investment in a debt security, an other-than-temporary impairment occurs if the investor (a) intends to sell the security before amortized cost is recovered, (b) will more likely than not be required to sell the security before amortized cost is recovered or (c) does not expect to ultimately recover the amortized cost basis even if it does not intend to sell the security. Under (a) and (b) the entire other-than-temporary impairment loss is recognized in earnings. Under (c) a credit loss is recognized in earnings to the extent that the present value of expected cash flows is less than the amortized cost basis and any difference between fair value and the amortized cost basis net of the credit loss is reflected in other comprehensive income net of applicable income taxes.

Note 2. Accounting pronouncements adopted in 2009 (Continued)

The FASB amended “ASC 820 Fair Value Measurements and Disclosures” to clarify that adjustments to quoted market prices may be required in illiquid or disorderly markets in order to estimate fair value and to provide guidance on the circumstances indicating whether markets are illiquid or disorderly. This amendment prescribes no specific methodology for making adjustments to quoted prices but rather confirms that different valuation techniques may be appropriate under the circumstances to determine the value that would be received to sell an asset or paid to transfer a liability in an orderly transaction.

The FASB also amended “ASC 825 Financial Instruments” to require publicly traded companies to make fair value disclosures of financial instruments in interim financial statements whether or not such instruments are carried in the financial statements at fair value. Previously, these disclosures were required only in annual financial statements. See Note 10.

In May 2009, the FASB amended “ASC 855 Subsequent Events” to set forth general accounting and disclosure requirements for events that occur subsequent to the balance sheet date but before the company’s financial statements are issued and is effective for the periods ending after June 15, 2009. Events that occurred subsequent to September 30, 2009 have been evaluated by Berkshire’s management through the time of filing this report on November 6, 2009.

Note 3. Accounting pronouncements to be adopted

In June 2009, the FASB issued revised standards relating to securitizations and special-purpose entities. The guidance eliminates the concept of a qualifying special-purpose entity (“QSPE”) and the exemption for QSPEs from previous consolidation guidance and also modifies the derecognition criteria for transfers of financial assets. The guidance includes new criteria for determining the primary beneficiary of variable interest entities and increases the frequency in which reassessments must be made to determine the primary beneficiary of such variable interest entities. The guidance also requires additional disclosures and is effective for financial statements issued for fiscal periods beginning after November 15, 2009. Berkshire is currently evaluating the impact these changes in accounting standards will have on its consolidated financial statements.

In August 2009, the FASB issued Accounting Standards Update 2009-05, “Measuring Liabilities at Fair Value” (“ASU 2009-05”). ASU 2009-05 provides guidance on valuing a liability when a quoted price in an active market is not available and is effective October 1, 2009. Berkshire does not anticipate that the adoption of ASU 2009-05 will have a material impact on its consolidated financial statements.

Note 4. Business acquisitions

Berkshire’s long-held acquisition strategy is to purchase businesses with consistent earnings, good returns on equity, able and honest management and at sensible prices. On March 18, 2008, Berkshire acquired 60% of Marmon Holdings, Inc. (“Marmon”), a private company owned by trusts for the benefit of members of the Pritzker Family of Chicago, for \$4.5 billion. In the second quarter of 2008, subsequent to this acquisition, Berkshire acquired additional shares of Marmon and currently owns 63.6%. Under the terms of the original purchase agreement, Berkshire will acquire the remaining interests in Marmon between 2011 and 2014 for consideration based on the future earnings of Marmon. Berkshire also acquired several other relatively small businesses during 2008. Consideration paid for all businesses acquired in the year ended December 31, 2008 (including Marmon) was approximately \$6.1 billion.

Marmon consists of approximately 130 manufacturing and service businesses that operate independently within eleven diverse business sectors. These sectors are: Engineered Wire & Cable, serving energy related markets, residential and non-residential construction and other industries; Building Wire, producing copper electrical wiring for residential, commercial and industrial buildings; Transportation Services & Engineered Products, including railroad tank cars and intermodal tank containers; Highway Technologies, primarily serving the heavy-duty highway transportation industry; Distribution Services for specialty pipe and steel tubing; Flow Products, producing a variety of metal products and materials for the plumbing, HVAC/R, construction and industrial markets; Industrial Products, including metal fasteners, safety products and metal fabrication; Construction Services, providing the leasing and operation of mobile cranes primarily to the energy, mining and petrochemical markets; Water Treatment equipment for residential, commercial and industrial applications; Retail Store Fixtures, providing store fixtures and accessories for major retailers worldwide; and Food Service Equipment, providing food preparation equipment and shopping carts for restaurants and retailers worldwide. Marmon operates more than 250 manufacturing, distribution and service facilities, primarily in North America, Europe and China.

Notes To Consolidated Financial Statements (Continued)

Note 4. Business acquisitions (Continued)

The results of operations for businesses acquired in 2008 are included in Berkshire's consolidated results from the effective date of each acquisition. The following table sets forth certain unaudited pro forma consolidated earnings data for the first nine months of 2008 as if each acquisition occurring during 2008 was consummated on the same terms at the beginning of the year. Amounts are in millions, except earnings per share.

	2008
Total revenues	\$ 84,601
Net earnings attributable to Berkshire Hathaway	4,961
Earnings per equivalent Class A common share attributable to Berkshire Hathaway shareholders	3,203

Note 5. Investments in fixed maturity securities

Investments in securities with fixed maturities as of September 30, 2009 and December 31, 2008 are shown below (in millions).

	Amortized Cost	Unrealized Gains	Unrealized Losses *	Fair Value
<i>September 30, 2009</i>				
U.S. Treasury, U.S. government corporations and agencies	\$ 2,358	\$ 59	\$ —	\$ 2,417
States, municipalities and political subdivisions	3,904	286	(1)	4,189

Berkshire uses no bright-line test in determining whether impairments are temporary or other-than-temporary. Berkshire considers several factors in determining other-than-temporary impairment losses including the current and expected long-term business prospects of the issuer, the length of time and relative magnitude of the price decline and its ability and intent to hold the investment until the price recovers.

Unrealized losses at September 30, 2009 included \$575 million related to securities that have been in an unrealized loss position for 12 months or more. Approximately 90% of the gross unrealized losses at September 30, 2009 were concentrated in six issuers. Unrealized losses generally ranged from 3% to 40% of cost. In management's judgment, the future earnings potential and underlying business economics of these companies are favorable and Berkshire possesses the ability and intent to hold these securities until their prices recover. Changing market conditions and other facts and circumstances may change the business prospects of these issuers as well as Berkshire's ability and intent to hold these securities until the prices recover. Accordingly, other-than-temporary impairment charges may be recorded in future periods with respect to one or more of these securities.

Note 7. Other Investments

Notes To Consolidated Financial Statements (Continued)

Note 7. Other Investments (Continued)

Fixed maturity and equity investments in the preceding table include Berkshire's investments in The Goldman Sachs Group, Inc. ("GS"), The General Electric Company ("GE") and the Wm. Wrigley Jr. Company ("Wrigley"), which were acquired in the fourth quarter of 2008. In 2009, investments were also made in the Swiss Reinsurance Company Limited ("Swiss Re") and The Dow Chemical Company ("Dow"). Additional information regarding these investments follows.

Berkshire owns 50,000 shares of 10% Cumulative Perpetual Preferred Stock of GS ("GS Preferred") and Warrants to purchase 43,478,260 shares of common stock of GS ("GS Warrants") which were acquired for a combined cost of \$5 billion. The GS Preferred may be redeemed at any time by GS at a price of \$110,000 per share (\$5.5 billion in aggregate). The GS Warrants expire in 2013 and can be exercised for an additional aggregate cost of \$5 billion (\$115/share). Berkshire also owns 30,000 shares of 10% Cumulative Perpetual Preferred Stock of GE ("GE Preferred") and Warrants to purchase 134,831,460 shares of common stock of GE ("GE Warrants") which were acquired for a combined cost of \$3 billion. The GE Preferred may be redeemed beginning in October 2011 by GE at a price of \$110,000 per share (\$3.3 billion in aggregate). The GE Warrants expire in 2013 and can be exercised for an additional aggregate cost of \$3 billion (\$22.25/share).

Berkshire owns \$4.4 billion par amount of 11.45% subordinated notes due 2018 of Wrigley ("Wrigley Notes") and \$2.1 billion of 5% preferred stock of Wrigley ("Wrigley Preferred"). The Wrigley Notes and Wrigley Preferred were acquired in connection with Mars, Incorporated's acquisition of Wrigley.

On March 23, 2009, Berkshire acquired a 12% convertible perpetual capital instrument issued by Swiss Re at a cost of 3 billion Swiss Francs ("CHF"), which is also the face amount of the instrument. The instrument has no maturity or mandatory redemption date but can be redeemed under certain conditions at the option of Swiss Re at 140% of the face amount until March 23, 2011 and thereafter at 120% of the face amount. The instrument possesses no voting rights and is subordinated to senior securities of Swiss Re as defined in the agreement. Beginning March 23, 2012, the instrument can be converted at Berkshire's option into 120,000,000 common shares of Swiss Re (a rate of 25 CHF per share of Swiss Re common stock).

On April 1, 2009, Berkshire acquired 3,000,000 shares of Series A Cumulative Convertible Perpetual Preferred Stock of Dow ("Dow Preferred") for a cost of \$3 billion. The Dow Preferred was issued in connection with Dow's acquisition of the Rohm and Haas Company. Under certain conditions, each share of the Dow Preferred is convertible into 24.201 shares of Dow common stock. Beginning in April 2014, if the Dow common stock price exceeds \$53.72 per share for any 20 trading days in a consecutive 30-day window, Dow, at its option, at any time, in whole or in part, may convert the Dow Preferred into Dow common stock at the then applicable conversion rate. The Dow Preferred is entitled to dividends at a rate of 8.5% per annum.

As of December 31, 2008, equity method investments included Burlington Northern Santa Fe Corporation ("BNSF") and Moody's Corporation ("Moody's"). During the fourth quarter of 2008, Berkshire's investment in each of these companies exceeded 20%. Accordingly, Berkshire adopted the equity method of accounting with respect to these investments as of December 31, 2008. Prior to December 31, 2008, the BNSF and Moody's investments were accounted for as available-for-sale equity securities recorded in the financial statements at fair value. The cumulative effect of adopting the equity method with respect to the investments in BNSF and Moody's was recorded in the financial statements as of December 31, 2008. Prior years' financial statements were not restated due to immateriality.

As of September 30, 2009, Berkshire owned 22.6% of BNSF's outstanding common stock. See Note 20 for additional information regarding Berkshire's investment in BNSF. During the third quarter of 2009, Berkshire sold shares of Moody's common stock, which reduced its ownership interest to about 16.6% as of September 30. As a result, Berkshire discontinued the use of the equity method with respect to its investment in Moody's as of the beginning of the third quarter of 2009. As of September 30, 2009, Berkshire's remaining investment in Moody's common stock is carried at fair value and is included as a component of investments in equity securities in the Consolidated Balance Sheet. This change did not have a material impact on Berkshire's Consolidated Financial Statements.

Note 8. Investment gains/losses

Investment gains/losses are summarized below (in millions).

	Third Quarter		First Nine Months	
	2009	2008	2009	2008
Fixed maturity securities:				
Gross gains from sales and other disposals	\$ 44	\$ 46	\$ 216	\$ 152
Gross losses from sales and other disposals	(8)	(4)	(17)	(5)

Other	(13)	3	(79)	15
	<u>\$ 110</u>	<u>\$ (46)</u>	<u>\$ (257)</u>	<u>\$ 744</u>

Note 8. Investment gains/losses (Continued)

Net investment gains/losses are reflected in the Consolidated Statements of Earnings as follows (in millions).

	Third Quarter		First Nine Months	
	2009	2008	2009	2008
Insurance and other	\$ 115	\$ (48)	\$ (314)	\$ 738
Finance and financial products	(5)	2	57	6
	<u>\$ 110</u>	<u>\$ (46)</u>	<u>\$ (257)</u>	<u>\$ 744</u>

Note 9. Derivative contracts of finance and financial products businesses

Derivative contracts of Berkshire's finance and financial products businesses, with limited exceptions, are not designated as hedges for financial reporting purposes. These contracts were initially entered into with the expectation that the premiums received would exceed the amounts ultimately paid to counterparties. Changes in the fair values of such contracts are reported in earnings as derivative gains/losses. A summary of derivative contracts outstanding as of September 30, 2009 and December 31, 2008 follows (in millions).

	September 30, 2009			December 31, 2008		
	Assets (3)	Liabilities	Notional Value	Assets (3)	Liabilities	Notional Value
Equity index put options	\$ —	\$ 8,012	\$ 38,592 ⁽¹⁾	\$ —	\$ 10,022	\$ 37,134 ⁽¹⁾
Credit default obligations:						
High yield indexes	—	1,213	5,855 ⁽²⁾	—	3,031	7,892 ⁽²⁾
States/municipalities	—	657	16,042 ⁽²⁾	—	958	18,364 ⁽²⁾

Other	449	500		503	528	
Counterparty netting and funds held as collateral	(238)	(30)		(295)	(32)	
	<u>\$ 222</u>	<u>\$ 10,352</u>		<u>\$ 208</u>	<u>\$ 14,612</u>	

⁽¹⁾ Represents the aggregate undiscounted amount payable at the contract expiration dates assuming that the value of each index is zero at the contract expiration date.

⁽²⁾ Represents the maximum undiscounted future value of losses payable under the contracts, assuming a sufficient number of credit defaults occur. The number of losses required to exhaust contract limits under substantially all of the contracts is dependent on the loss recovery rate related to the specific obligor at the time of the default.

⁽³⁾ Included in Other assets of finance and financial products businesses.

A summary of derivative gains/losses included in the Consolidated Statements of Earnings are as follows (in millions).

	Third Quarter		First Nine Months	
	2009	2008	2009	2008
Equity index put options	\$ 220	\$ (880)	\$ 2,010	\$ (1,731)
Credit default obligations	1,443	(342)	483	(478)
Other	69	(39)	79	(4)
	<u>\$ 1,732</u>	<u>\$ (1,261)</u>	<u>\$ 2,572</u>	<u>\$ (2,213)</u>

Berkshire has written equity index put option contracts on four major equity indexes including three indexes outside of the United States. These contracts are European style options and will be settled on the contract expiration dates, which occur between June 2018 and January 2028. Future payments, if any, under these contracts will be required if the underlying index value is below the strike price at the contract expiration dates. Premiums on these contracts were received in full at the contract inception dates and therefore Berkshire has no counterparty credit risk.

At September 30, 2009, the aggregate intrinsic value (the undiscounted liability assuming the contracts are settled on their future expiration dates based on the September 30, 2009 index values) was approximately \$6.3 billion. Aggregate intrinsic value was approximately \$9.3 billion at June 30, 2009 and \$10.8 billion as of December 31, 2008. However, these contracts may not be terminated or fully settled before the expiration dates and therefore the ultimate amount of cash basis gains or losses on these contracts will not be known for many years.

Note 9. Derivative contracts of finance and financial products businesses (Continued)

In 2009, Berkshire agreed with certain counterparties to amend six equity index put option contracts. The amendments reduced the related contract expiration dates between 3.5 and 9.5 years. Also, the amendments reduced the strike prices of those contracts between 29% and 39%. In addition, the aggregate notional value related to three of the amended contracts increased by approximately \$161 million. No consideration was paid by either party with respect to these amendments. Other changes in notional amounts occur from quarter to quarter because of foreign exchange fluctuations. The remaining weighted average life of all contracts was approximately 12 years at September 30, 2009.

Credit default contracts include various high yield indexes, state/municipal debt issuers and individual corporate issuers. These contracts cover the loss in value of specified debt obligations of the issuers arising from default events, which are usually for non-payment or bankruptcy. Loss amounts are subject to contract limits.

High yield indexes are comprised of specified North American corporate issuers (usually 100 in number) whose obligations are rated below investment grade. The weighted average contract life on these contracts at September 30, 2009 was approximately 2 years. State and municipality contracts are comprised of over 500 state and municipality issuers. The weighted average contract life at September 30, 2009 was approximately 11 years. Potential obligations related to approximately 50% of the notional amount of the state and municipality contracts cannot be settled before the maturity dates of the underlying obligations, which range from 2019 to 2054.

Premiums on the high yield index and state/municipality contracts were received in full at the inception dates of the contracts and, as a result, Berkshire has no counterparty credit risk. Berkshire's payment obligations under certain of these contracts are on a first loss basis. Several other contracts are subject to aggregate loss deductibles that must be satisfied before Berkshire has any payment obligations.

Credit default contracts written on individual corporate issuers primarily relate to investment grade obligations. Installment premiums are due from counterparties over the terms of the contracts. In most instances, premiums are due from counterparties on a quarterly basis. Most of the in-force individual corporate issuer contracts expire in 2013.

With limited exceptions, Berkshire's equity index put option and credit default contracts contain no collateral posting requirements with respect to changes in either the fair value or intrinsic value of the contracts and/or a downgrade of Berkshire's credit ratings. Under certain conditions, a few contracts require that Berkshire post collateral. As of September 30, 2009, Berkshire's collateral posting requirement under such contracts was approximately \$50 million compared to about \$650 million at June 30, 2009. If Berkshire's credit ratings are downgraded, as much as an additional \$1.1 billion could be required to be posted as collateral in addition to the amounts otherwise required depending on the degree of the downgrade.

Note 10. Fair value measurements

The fair values of Berkshire's financial assets and liabilities as of September 30, 2009 and December 31, 2008 are shown in the following table (in millions). The carrying values of cash and cash equivalents, accounts receivable, accounts payable, accruals and other liabilities are deemed to be reasonable estimates of their fair values.

	Carrying Value		Fair Value

Note 10. Fair value measurements (Continued)

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date. Fair value measurements assume the asset or liability is exchanged in an orderly manner; the exchange is in the principal market for that asset or liability (or in the most advantageous market when no principal market exists); and the market participants are independent, knowledgeable, able and willing to transact an exchange.

Fair values for substantially all of Berkshire's financial instruments were measured using market or income approaches. Considerable judgment may be required in interpreting market data used to develop the estimates of fair value. Accordingly, the estimates presented herein are not necessarily indicative of the amounts that could be realized in an actual current market exchange. The use of different market assumptions and/or estimation methodologies may have a material effect on the estimated fair value.

A hierarchy for measuring fair value consists of Levels 1 through 3.

Level 1 – Inputs represent unadjusted quoted prices for identical assets or liabilities exchanged in active markets. Substantially all of Berkshire's equity investments are traded on an exchange in active markets and fair value is based on the closing prices as of the balance sheet date.

Level 2 – Inputs include directly or indirectly observable inputs (other than Level 1 inputs) such as quoted prices for similar assets or liabilities exchanged in active or inactive markets; quoted prices for identical assets or liabilities exchanged in inactive markets; other inputs that may be considered in fair value determinations of the assets or liabilities, such as interest rates and yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. Fair values for Berkshire's investments in fixed maturity securities are primarily based on market prices and market data available for instruments with similar characteristics since active markets are not common for many instruments. Pricing evaluations are based on yield curves for instruments with similar characteristics, such as credit rating, estimated duration, and yields for other instruments of the issuer or entities in the same industry sector.

Level 3 – Inputs include unobservable inputs used in the measurement of assets and liabilities. Management is required to use its own assumptions regarding unobservable inputs because there is little, if any, market activity in the assets or liabilities or related observable inputs that can be corroborated at the measurement date. Unobservable inputs require management to make certain projections and assumptions about the information that would be used by market participants in pricing assets or liabilities. Measurements of non-exchange traded derivative contracts and certain other investments carried at fair value are based primarily on valuation models, discounted cash flow models or other valuation techniques that are believed to be used by market participants. Berkshire values its equity index put option contracts based on the Black-Scholes option valuation model which Berkshire believes is widely used by market participants. Credit default contracts are primarily valued based on indications of bid or offer data as of the balance sheet date. These contracts are not exchange traded and certain of the terms of Berkshire's contracts are not standard in derivatives markets. For example, Berkshire is not required to post collateral under most of its contracts. For these reasons, Berkshire has classified these contracts as Level 3.

Notes To Consolidated Financial Statements (Continued)

Note 10. Fair value measurements (Continued)

Financial assets and liabilities measured and carried at fair value on a recurring basis in the financial statements as of September 30, 2009 and December 31, 2008 are summarized according to the hierarchy previously described as follows (in millions).

	Total Fair Value	Quoted Prices (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Note 15. Notes payable and other borrowings

Notes payable and other borrowings of Berkshire and its subsidiaries are summarized below (in millions).

	September 30, 2009	December 31, 2008
<i>Insurance and other:</i>		
Issued or guaranteed by Berkshire due 2009-2035	\$ 2,066	\$ 2,275
Issued by subsidiaries and not guaranteed by Berkshire due 2009-2041	1,749	2,074
	<u>\$ 3,815</u>	<u>\$ 4,349</u>

Debt issued or guaranteed by Berkshire includes short term borrowings of \$1.8 billion as of September 30, 2009 and December 31, 2008.

Notes To Consolidated Financial Statements (Continued)

Note 15. Notes payable and other borrowings (Continued)

	September 30, 2009	December 31, 2008
<i>Utilities and energy:</i>		
Issued by MidAmerican Energy Holdings Company ("MidAmerican") and its subsidiaries and not guaranteed by Berkshire:		
MidAmerican senior debt due 2012-2037	\$ 5,371	\$ 5,121
Subsidiary and other debt due 2009-2039	14,193	14,024
	<u>\$ 19,564</u>	<u>\$ 19,145</u>

MidAmerican senior debt is unsecured and has a weighted average interest rate of about 6.2% as of September 30, 2009. Subsidiary debt of utilities and energy businesses represents amounts issued by subsidiaries of MidAmerican pursuant to separate financing agreements and has a weighted average interest rate of about 6% as of September 30, 2009. All or substantially all of the assets of certain MidAmerican subsidiaries are or may be pledged or encumbered to support or otherwise secure the debt. These borrowing arrangements generally contain various covenants including, but not limited to, leverage ratios, interest coverage ratios and debt service coverage ratios. As of September 30, 2009, MidAmerican and its subsidiaries were in compliance with all applicable covenants. Subsidiary debt with an aggregate par amount of \$1.0 billion was issued in the first quarter of 2009. These obligations mature in 2019 and 2039 and have interest rates of 5.5% and 6.0%. MidAmerican issued \$250 million par amount 3.15% senior notes in the third quarter of 2009 that mature in 2012.

	September 30, 2009	December 31, 2008
<i>Finance and financial products:</i>		
Issued by Berkshire Hathaway Finance Corporation ("BHFC") and guaranteed by Berkshire	\$ 12,050	\$ 10,778
Issued by other subsidiaries and guaranteed by Berkshire due 2009-2027	783	706
Issued by other subsidiaries and not guaranteed by Berkshire due 2009-2036	1,809	1,904
	<u>\$ 14,642</u>	<u>\$ 13,388</u>

Debt issued by BHFC matures between 2010 and 2018 and has a weighted average interest rate of approximately 4.3% as of September 30, 2009. In 2009, BHFC issued \$1 billion par amount of 4% notes due in 2012 and \$250 million of 5.4% notes due in 2018.

Note 16. Shareholders' equity

The following table summarizes Berkshire's Class A and B common stock activity during the first nine months of 2009.

	Class A common stock (1,650,000 shares authorized) Issued and Outstanding	Class B common stock (55,000,000 shares authorized) Issued and Outstanding
Balance at December 31, 2008	1,059,001	14,706,996
Issuance of Class B common stock and conversions of Class A common stock to Class B	(1,951)	133,341
Balance at September 30, 2009	<u>1,057,050</u>	<u>14,840,337</u>

Each share of Class A common stock (\$5 par per share) is convertible, at the option of the holder, into thirty shares of Class B common stock (\$0.1667 par per share). Class B common stock is not convertible into Class A common stock. Class B common stock has economic rights equal to one-thirtieth (1/30) of the economic rights of Class A common stock. Accordingly, on an equivalent Class A common stock basis, there are 1,551,728 shares outstanding at September 30, 2009 and 1,549,234 shares outstanding at December 31, 2008. Each Class A common share is entitled to one vote per share. Each Class B common share possesses the voting rights of one-two-hundredth (1/200) of the voting rights of a Class A share. Class A and Class B common shares vote together as a single class. In March 2009, Berkshire issued 74,574 shares of Class B common stock to acquire certain noncontrolling shareholder interests in MidAmerican.

Note 16. Shareholders' equity (Continued)

Changes in shareholders' equity for the first nine months of 2008 and 2009 are shown in the table below (in millions).

* Includes other-than-temporary impairment losses on investments.

Note 18. Contingencies

Berkshire and its subsidiaries are parties in a variety of legal actions arising out of the normal course of business. In particular, such legal actions affect Berkshire's insurance and reinsurance businesses. Such litigation generally seeks to establish liability directly through insurance contracts or indirectly through reinsurance contracts issued by Berkshire subsidiaries. Plaintiffs occasionally seek punitive or exemplary damages. Berkshire does not believe that such normal and routine litigation will have a material effect on its financial condition or results of operations. Berkshire and certain of its subsidiaries are also involved in other kinds of legal actions, some of which assert or may assert claims or seek to impose fines and penalties in substantial amounts.

a) *Governmental Investigations*

Berkshire, General Re Corporation ("General Re") and certain of Berkshire's insurance subsidiaries, including General Reinsurance Corporation ("General Reinsurance") and National Indemnity Company ("NICO") have been continuing to cooperate fully with the U.S. Securities and Exchange Commission ("SEC"), the U.S. Department of Justice, the U.S. Attorney for the Eastern District of Virginia and the New York State Attorney General ("NYAG") in their ongoing investigations of non-traditional products. General Re originally received subpoenas from the SEC and NYAG in January 2005. Berkshire, General Re, General Reinsurance and NICO have been providing information to the government relating to transactions between General Reinsurance or NICO (or their respective subsidiaries or affiliates) and other insurers in response to the January 2005 subpoenas and related requests and, in the case of General Reinsurance (or its subsidiaries or affiliates), in response to subpoenas from other U.S. Attorneys conducting investigations relating to certain of these transactions. In particular, Berkshire and General Re have been responding to requests from the government for information relating to certain transactions that may have been accounted for incorrectly by counterparties of General Reinsurance (or its subsidiaries or affiliates). The government has interviewed a number of current and former officers and employees of General Re and General Reinsurance as well as Berkshire's Chairman and CEO, Warren E. Buffett, in connection with these investigations.

In one case, a transaction initially effected with American International Group ("AIG") in late 2000 (the "AIG Transaction"), AIG has corrected its prior accounting for the transaction on the grounds, as stated in AIG's 2004 10-K, that the transaction was done to accomplish a desired accounting result and did not entail sufficient qualifying risk transfer to support reinsurance accounting. General Reinsurance has been named in related civil actions brought against AIG. As part of their ongoing investigations, governmental authorities have also inquired about the accounting by certain of Berkshire's insurance subsidiaries for certain assumed and ceded finite reinsurance transactions.

In June 2005, John Houldsworth, the former Chief Executive Officer of Cologne Reinsurance Company (Dublin) Limited ("CRD"), a subsidiary of General Re, and Richard Napier, a former Senior Vice President of General Re who had served as an account representative for the AIG account, each pleaded guilty to a federal criminal charge of conspiring with others to misstate certain AIG financial statements in connection with the AIG Transaction and entered into a partial settlement agreement with the SEC with respect to such matters.

On February 25, 2008, Ronald Ferguson, General Re's former Chief Executive Officer, Elizabeth Monrad, General Re's former Chief Financial Officer, Christopher Garand, a former General Reinsurance Senior Vice President and Robert Graham, a former General Reinsurance Senior Vice President and Assistant General Counsel, were each convicted in a trial in the U.S. District Court for the District of Connecticut on charges of conspiracy, mail fraud, securities fraud and making false statements to the SEC in connection with the AIG Transaction. These individuals have the right to appeal their convictions. Following their convictions, each of these individuals agreed to a judgment of a forfeiture allegation which required them to be jointly and severally liable for a payment of \$5 million to the U.S. Government. This \$5 million amount, which represented the fee received by General Reinsurance in connection with the AIG Transaction, was paid by General Reinsurance in April 2008. Each of these individuals, who had previously received a "Wells" notice in 2005 from the SEC, is also the subject of an SEC enforcement action for allegedly aiding and abetting AIG's violations of the antifraud provisions and other provisions of the federal securities laws in connection with the AIG Transaction. On or about September 26, 2009, the United States District Court, Southern District of New York, granted judgment in favor of the SEC and against each of these individuals which, among other things, prohibits them from acting as an officer or director of an issuer that has a class of securities registered pursuant to Section 12 of the Securities Exchange Act of 1934 or that is required to file reports pursuant to Section 15(d) of that Act. Joseph Brandon, who resigned as the Chief Executive Officer of General Re effective on April 14, 2008, also received a "Wells" notice from the SEC in 2005.

Berkshire understands that the government is evaluating the actions of General Re and its subsidiaries, as well as those of their counterparties, to determine whether General Re or its subsidiaries conspired with others to misstate counterparty financial statements or aided and abetted such misstatements by the counterparties. Berkshire believes that government authorities are continuing to evaluate possible legal actions against General Re and its subsidiaries.

Note 18. Contingencies (Continued)

Various state insurance departments have issued subpoenas or otherwise requested that General Reinsurance, NICO and their affiliates provide documents and information relating to non-traditional products. The Office of the Connecticut Attorney General has also issued a subpoena to General Reinsurance for information relating to non-traditional products. General Reinsurance, NICO and their affiliates have been cooperating fully with these subpoenas and requests.

CRD is also providing information to and cooperating fully with the Irish Financial Services Regulatory Authority in its inquiries regarding the activities of CRD. The Office of the Director of Corporate Enforcement in Ireland is conducting a preliminary evaluation in relation to CRD concerning, in particular, transactions between CRD and AIG. CRD is cooperating fully with this preliminary evaluation.

Berkshire cannot at this time predict the outcome of these matters and is unable to estimate a range of possible loss and cannot predict whether or not the outcomes will have a material adverse effect on Berkshire's business or results of operations for at least the quarterly period when these matters are completed or otherwise resolved.

b) Civil Litigation

Reference is made to Note 20 to the Annual Report on Form 10-K for the year ended December 31, 2008 for detailed discussion of such actions. Except as discussed in the paragraph below, there have been no material developments related to such actions since December 31, 2008.

In August 2005, General Reinsurance received a Summons and First Amended Consolidated Shareholders' Derivative Complaint in *In re American International Group, Inc. Consolidated Derivative Litigation*, Case No. 769-N, Delaware Chancery Court. In June 2007, AIG filed an Amended Complaint in the Delaware Derivative Litigation asserting claims against two of its former officers, but not against General Reinsurance. On September 28, 2007, AIG and the shareholder plaintiffs filed a Second Combined Amended Complaint, in which AIG asserted claims against certain of its former officers and the shareholder plaintiffs asserted claims against a number of other defendants, including General Reinsurance and General Re. The claims asserted in the Delaware complaint are substantially similar to those asserted in the New York derivative complaint, except that the Delaware complaint makes clear that the plaintiffs are asserting claims against both General Reinsurance and General Re. General Reinsurance and General Re filed a motion to dismiss on November 30, 2007. Various parties moved to stay discovery and/or all proceedings in the Delaware derivative litigation. At a hearing held on February 12, 2008, the Court ruled that discovery would be stayed pending the resolution of the claims asserted against AIG in the AIG Securities Litigation. The briefing on the motions filed by General Reinsurance and General Re was completed by September 8, 2008. The court heard argument on certain other defendants' motions to dismiss on November 7, 2008 and issued a decision on February 10, 2009 granting some defendants' motions and denying others. On July 13, 2009, the Delaware Chancery Court entered judgment dismissing with prejudice the claims asserted against General Re, General Reinsurance and certain other defendants in the matter. Plaintiffs have appealed the judgment. General Re and General Reinsurance are vigorously opposing that appeal.

Note 19. Supplemental cash flow information

A summary of supplemental cash flow information for the first nine months of 2009 and 2008 is presented in the following table (in millions).

	First Nine Months	
	2009	2008
Cash paid during the period for:		
Income taxes	\$ 1,861	\$ 2,921
Interest of finance and financial products businesses	469	412
Interest of utilities and energy businesses	850	872
Interest of insurance and other businesses	99	127
Non-cash investing and financing activity:		
Liabilities assumed in connection with acquisitions of businesses	240	4,127

Note 20. Subsequent event

On November 3, 2009, Berkshire Hathaway Inc. announced that it had entered into a definitive agreement to acquire for \$100 per share the remaining 77.4% of BNSF's outstanding shares not currently owned by Berkshire. Based upon the outstanding shares of BNSF not currently owned by Berkshire, the value of the aggregate consideration to acquire the remaining BNSF shares is approximately \$26.4 billion of which approximately 60% will be paid in cash and 40% in Berkshire Class A and Class B Common Stock. Berkshire expects to fund about 50% of the total cash consideration of approximately \$16 billion with internally generated cash and the remainder with borrowings expected to be repaid over a three year period. The acquisition requires approval by holders of two-thirds of BNSF's outstanding shares not currently held by Berkshire and is subject to customary closing conditions. The closing is expected to occur in the first quarter of 2010.

On November 3, 2009, Berkshire also announced that its Board of Directors approved a 50-for-1 split of its Class B Common Stock. The stock split is subject to the approval of Berkshire's shareholders who must approve an amendment to Berkshire's certificate of incorporation to increase Berkshire's total number of authorized shares of common stock. Berkshire's Class A Common Stock is not being split.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Results of Operations

Net earnings attributable to Berkshire are disaggregated in the table that follows. Amounts are after deducting income taxes and exclude earnings attributable to noncontrolling interests. Amounts are in millions.

	Third Quarter		First Nine Months	
	2009	2008	2009	2008
Insurance – underwriting	\$ 363	\$ 81	\$ 665	\$ 622
Insurance – investment income	976	809	3,168	2,495
Utilities and energy	346	324	802	848
Manufacturing, service and retailing	336	665	833	1,871
Finance and financial products	92	91	252	397
Other	(58)	99	(180)	37
Investment and derivative gains/losses	1,183	(1,012)	(541)	(1,393)
Net earnings attributable to Berkshire	<u>\$ 3,238</u>	<u>\$ 1,057</u>	<u>\$ 4,999</u>	<u>\$ 4,877</u>

Berkshire's operating businesses are managed on an unusually decentralized basis. There are essentially no centralized or integrated business functions (such as sales, marketing, purchasing, legal or human resources) and there is minimal involvement by Berkshire's corporate headquarters in the day-to-day business activities of the operating businesses. Berkshire's corporate office management participates in and is ultimately responsible for significant capital allocation decisions, investment activities and the selection of the Chief Executive to head each of the operating businesses. The business segment data (Note 17 to the Consolidated Financial Statements) should be read in conjunction with this discussion.

The declines in global economic activity over the last half of 2008 continued through the first nine months of 2009. Berkshire's operating results in 2009 were significantly impacted by those declines. Earnings in 2009 of most of Berkshire's diverse group of manufacturing, service and retailing businesses declined, in some cases severely, compared to the prior year. The effects from the economic recession resulted in lower sales volume, revenues and profit margins as consumers have significantly curtailed spending, particularly for discretionary items. Berkshire's two largest business segments, insurance and utilities, remain strong and operating results have not been negatively impacted in any significant way by the recession.

Investment and derivative gains were \$1,183 million in the third quarter of 2009, while in the first nine months there were losses of \$541 million. The gains and losses primarily derived from credit default contracts, dispositions of certain equity securities, other-than-temporary impairment charges with respect to certain equity securities and changes in estimated fair values of long duration equity index put option contracts. Changes in the equity and credit markets from period to period have caused and will likely continue to cause significant volatility in periodic earnings.

In response to the crises in the financial and capital markets and global recession, the U.S. and other governments around the world are taking measures to stabilize financial institutions, regulate markets (including over-the-counter derivatives markets) and stimulate economic activity. While management believes such actions will be successful, the ultimate impact on Berkshire is not clear at this time. Berkshire's operating companies have taken and will continue to take cost reduction actions as necessary to manage through the current economic situation. Management believes that the economic franchises of Berkshire's business operations remain intact and that operating results will ultimately improve, although it cannot predict the timing of an economic recovery that will be required to have this happen.

Insurance — Underwriting

Berkshire's management views insurance businesses as possessing two distinct operations – underwriting and investing. Underwriting decisions are the responsibility of the unit managers; investing, with limited exception, is the responsibility of Berkshire's Chairman and CEO, Warren E. Buffett. Accordingly, Berkshire evaluates performance of underwriting operations without any allocation of investment income.

Berkshire provides both primary insurance and reinsurance of property and casualty risks. Through General Re, Berkshire also reinsures life and health risks. Berkshire's principal insurance and reinsurance underwriting units are: (1) GEICO, (2) General Re, (3) Berkshire Hathaway Reinsurance Group and (4) Berkshire Hathaway Primary Group.

Periodic underwriting results can be affected significantly by changes in estimates for unpaid losses and loss adjustment expenses, including amounts established for occurrences in prior years. In addition, the timing and amount of catastrophe losses produce significant volatility in periodic underwriting results. A key marketing strategy followed by all of the insurance businesses is the maintenance of extraordinary capital strength. Statutory surplus of Berkshire's insurance businesses was approximately \$51 billion at December 31, 2008. This superior capital strength creates opportunities, especially with respect to reinsurance activities, to negotiate and enter into insurance and reinsurance contracts specially designed to meet the unique needs of insurance and reinsurance buyers.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)

Insurance—Underwriting (Continued)

A summary follows of underwriting results from Berkshire's insurance businesses. Amounts are in millions.

	Third Quarter		First Nine Months	
	2009	2008	2009	2008
Underwriting gain (loss) attributable to:				
GEICO	\$ 200	\$ 246	\$ 459	\$ 730
General Re	186	54	446	198
Berkshire Hathaway Reinsurance Group	167	(166)	79	(58)
Berkshire Hathaway Primary Group	7	(8)	40	98
Pre-tax underwriting gain	560	126	1,024	968
Income taxes and noncontrolling interests	197	45	359	346
Net underwriting gain	\$ 363	\$ 81	\$ 665	\$ 622

GEICO

GEICO provides primarily private passenger automobile coverages to insureds in all 50 states and the District of Columbia. GEICO policies are marketed mainly by direct response methods in which customers apply for coverage directly to the company via the Internet, over the telephone or through the mail. This is a significant element in GEICO's strategy to be a low-cost insurer. In addition, GEICO strives to provide excellent service to customers, with the goal of establishing long-term customer relationships. GEICO's underwriting results are summarized in the table below. Dollar amounts are in millions.

	Third Quarter				First Nine Months			
	2009		2008		2009		2008	
	Amount	%	Amount	%	Amount	%	Amount	%
Premiums earned	\$ 3,448	100.0	\$ 3,150	100.0	\$ 10,103	100.0	\$ 9,268	100.0
Losses and loss adjustment expenses	2,636	76.5	2,350	74.6	7,798	77.2	6,868	74.1
Underwriting expenses	612	17.7	554	17.6	1,846	18.3	1,670	18.0
Total losses and expenses	3,248	94.2	2,904	92.2	9,644	95.5	8,538	92.1
Pre-tax underwriting gain	\$ 200		\$ 246		\$ 459		\$ 730	

Premiums earned in the third quarter and first nine months of 2009 increased \$298 million (9.5%) and \$835 million (9.0%), respectively, over premiums earned in the corresponding 2008 periods. The growth in premiums earned for voluntary auto was 9.0% for the first nine months of 2009, reflecting an increase in policies-in-force of 10.1% offset somewhat by a decrease in average premiums per policy. It is believed that the weak economic conditions have caused customers to raise policy deductibles and reduce coverage in order to save money. Voluntary auto new business sales in the first nine months of 2009 increased 18.2% versus 2008. Growth was particularly strong during the first quarter and slowed to more normal rates in the second and third quarters. Voluntary auto policies-in-force at September 30, 2009 were 662,000 greater than at December 31, 2008.

Losses and loss adjustment expenses incurred in the third quarter and first nine months of 2009 increased \$286 million (12.2%) and \$930 million (13.5%), respectively, over amounts incurred in 2008 periods. The loss ratio was 77.2% in the first nine months of 2009 compared to 74.1% in 2008. The higher loss ratio in 2009 reflected overall increases in average claim frequencies and injury claim severities. Claims frequencies in 2009 for physical damage coverages increased in the two to four percent range, while frequencies for injury coverages increased in the eight to ten percent range compared with the very low frequency levels in 2008. Average injury severities in 2009 increased in the three to five percent range while average physical damage severities decreased in the three to five percent range from 2008. Incurred losses from catastrophe events for the first nine months of 2009 were \$73 million compared to \$88 million for the first nine months of 2008. Underwriting expenses in the first nine months of 2009 increased 10.5% over 2008 to \$1,846 million due primarily to higher policy issuance costs and increased salary and employee benefit expenses.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)

Insurance—Underwriting (Continued)

General Re

General Re conducts a reinsurance business offering property and casualty and life and health coverages to clients worldwide. Property and casualty reinsurance is written in North America on a direct basis through General Reinsurance Corporation and internationally through Cologne Re (based in Germany) and other wholly-owned affiliates. Property and casualty reinsurance is also written through brokers with respect to Faraday in London. Life and health reinsurance is written worldwide through Cologne Re. General Re strives to generate underwriting gains in essentially all product lines. Underwriting performance is not evaluated based upon market share and underwriters are instructed to reject inadequately priced risks. General Re's underwriting results are summarized in the following table. Amounts are in millions.

	Premiums earned				Pre-tax underwriting gain/loss			
	Third Quarter		First Nine Months		Third Quarter		First Nine Months	
	2009	2008	2009	2008	2009	2008	2009	2008
Property/casualty	\$ 820	\$ 819	\$ 2,397	\$ 2,678	\$ 107	\$ (13)	\$ 298	\$ 57
Life/health	656	639	1,884	1,972	79	67	148	141
	<u>\$ 1,476</u>	<u>\$ 1,458</u>	<u>\$ 4,281</u>	<u>\$ 4,650</u>	<u>\$ 186</u>	<u>\$ 54</u>	<u>\$ 446</u>	<u>\$ 198</u>

Property/casualty

Property/casualty premiums earned in the third quarter of 2009 were relatively flat when compared to the third quarter of 2008. Premiums earned in the first nine months of 2009 declined \$281 million (10.5%), versus the corresponding 2008 period. Premiums earned in 2008 included \$205 million from a reinsurance-to-close transaction in the first quarter that increased General Re's economic interest in the runoff of Lloyd's Syndicate 435's 2000 year of account from 39% to 100%. Under this transaction, General Re also assumed a corresponding amount of net loss reserves and as a result, there was no impact on net underwriting gains in the first quarter of 2008. There was no similar transaction in 2009.

Excluding the effect of the reinsurance-to-close transaction in 2008 and the effects of foreign currency translation rate changes, premiums earned in the first nine months of 2009 increased \$91 million (3.7%). The increase was due primarily to increased volume in Europe and lower retrocessions of Lloyd's market business.

In 2009, underwriting gains were \$107 million in the third quarter and \$298 million for the first nine months. Underwriting gains for the first nine months of 2009 included gains of \$260 million from property business and \$38 million from casualty/workers' compensation business. The property results in 2009 were net of \$80 million of losses from catastrophes, primarily from winter storm Klaus in Europe, the Victoria bushfires in Australia and an earthquake in Italy. The timing and magnitude of catastrophe and large individual losses can produce significant volatility in periodic underwriting results. The underwriting gains from casualty/workers' compensation business reflected the overall favorable run-off of prior years' loss reserves.

In 2008, underwriting losses were \$13 million in the third quarter and underwriting gains were \$57 million for the first nine months. Underwriting gains for the first nine months of 2008 included gains of \$126 million from property business and losses of \$69 million from casualty/workers' compensation business. Property results for the first nine months of 2008 included \$186 million of catastrophe losses arising primarily from Hurricanes Ike and Gustav in the third quarter, and winter storm Emma in Germany and hailstorms in Europe, which occurred in the first half of 2008. Casualty losses were adversely impacted by legal costs incurred in connection with the regulatory investigations of finite reinsurance.

Life/health

Premiums earned in the third quarter and first nine months of 2009 were \$656 million and \$1,884 million, respectively, an increase of \$17 million (2.7%) and a decrease of \$88 million (4.5%) from the 2008 comparable periods. Excluding the effects of changes in foreign currency translation rates, premiums earned in the first nine months of 2009 increased by \$46 million (2.3%) due to increased international business. The life/health operations produced underwriting gains of \$79 million and \$148 million in the third quarter and first nine months of 2009, respectively, an increase of \$12 million (17.9%) and \$7 million (5.0%) over the corresponding 2008 periods. This was due primarily to lower losses in the U.S. long-term health business.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)

Insurance—Underwriting (Continued)

Berkshire Hathaway Reinsurance Group

The Berkshire Hathaway Reinsurance Group ("BHRG") underwrites excess-of-loss reinsurance and quota-share coverages for insurers and reinsurers worldwide. BHRG's business includes catastrophe excess-of-loss reinsurance and excess direct and facultative reinsurance for large or otherwise unusual discrete property risks referred to as individual risk. Retroactive reinsurance policies provide indemnification of losses and loss adjustment expenses with respect to past loss events. Other multi-line refers to other business written on both a quota-share and excess basis, participations in and contracts with Lloyd's syndicates, as well as property, aviation and workers' compensation programs. BHRG's underwriting results are summarized in the table below. Amounts are in millions.

	Premiums earned				Pre-tax underwriting gain/loss			
	Third Quarter		First Nine Months		Third Quarter		First Nine Months	
	2009	2008	2009	2008	2009	2008	2009	2008
Catastrophe and individual risk	\$ 197	\$ 292	\$ 692	\$ 731	\$ 271	\$ (102)	\$ 593	\$ 248
Retroactive reinsurance	—	—	1,886	3	(137)	(104)	(339)	(337)
Other multi-line	1,032	1,091	2,948	2,789	33	40	(175)	31
	<u>\$ 1,229</u>	<u>\$ 1,383</u>	<u>\$ 5,526</u>	<u>\$ 3,523</u>	<u>\$ 167</u>	<u>\$ (166)</u>	<u>\$ 79</u>	<u>\$ (58)</u>

Premiums earned in the first nine months of 2009 from catastrophe and individual risk contracts declined \$39 million (5%) versus the first nine months of 2008. The level of business written in a given period will vary significantly due to changes in market conditions and management's assessment of the adequacy of premium rates. In early 2009, management constrained the volume of business written in response to the decline in Berkshire's net worth that occurred in the first quarter of 2009. Though net worth has recovered significantly since then, management will continue to constrain the volume of business written in light of the pending BNSF acquisition (see Note 20 to the Consolidated Financial Statements for information regarding the pending acquisition). Also, premium rates have not been attractive enough to actually warrant increasing volume thus far in 2009. Underwriting results in 2009 reflected no significant catastrophe losses, while underwriting results in 2008 included approximately \$350 million of estimated losses from third quarter hurricanes (Gustav and Ike). Underwriting results in the third quarter of 2009 reflect reductions of loss reserves primarily due to lower estimated ultimate losses from hurricanes in 2004 and 2005.

Premiums earned in the first nine months of 2009 from retroactive reinsurance included 2 billion Swiss Francs ("CHF") (approximately \$1.7 billion) from an adverse loss development contract with Swiss Reinsurance Company Limited and its affiliates ("Swiss Re") covering substantially all of Swiss Re's non-life insurance losses and allocated loss adjustment expenses for loss events occurring prior to January 1, 2009. The Swiss Re contract provides aggregate limits of indemnification of 5 billion CHF in excess of a retention of Swiss Re's reported loss reserves at December 31, 2008 (58.725 billion CHF) less 2 billion CHF. The impact on underwriting results from this contract was negligible as the premiums earned were offset by a corresponding amount of losses incurred.

Retroactive policies generally provide very large, but limited, indemnification of unpaid losses and loss adjustment expenses with respect to past loss events that are generally expected to be paid over long periods of time. The underwriting losses from retroactive policies primarily represent the periodic amortization of deferred charges established at the inception of the contracts. At September 30, 2009, unamortized deferred charges were approximately \$3.7 billion.

Premiums earned in the third quarter of 2009 from other multi-line business declined \$59 million (5%) compared to 2008 and in the first nine months of 2009 increased \$159 million (6%) versus 2008. Premiums earned in the third quarter and first nine months of 2009 included \$717 million and \$2,034 million, respectively, from a 20% quota-share contract with Swiss Re covering substantially all of Swiss Re's property/casualty risks incepting from January 1, 2008 and running through December 31, 2012. Premiums earned in 2008 from the Swiss Re contract were \$496 million in the third quarter and \$1,169 million in the first nine months. Excluding the Swiss Re quota-share contract, other multi-line business premiums earned in 2009 declined \$280 million (47%) in the third quarter and \$706 million (44%) versus 2008 periods, primarily due to significant reductions in aviation, property, workers' compensation and Lloyd's market volume.

Pre-tax underwriting results from other multi-line reinsurance in 2009 included foreign currency transaction gains of \$60 million for the third quarter and \$305 million of losses for the first nine months. The non-cash losses arose from the conversion of certain reinsurance loss reserves and other liabilities denominated in foreign currencies (primarily the U.K. Pound Sterling and the Euro). The value of these currencies rose relative to the U.S. Dollar over the first nine months of 2009, resulting in losses. In 2008, underwriting results included foreign currency transaction gains of approximately \$360 million in the third quarter and approximately \$315 million for the first nine months, resulting from declines in the Euro and U.K. Pound Sterling versus the U.S. Dollar. Underwriting results in the third quarter and first nine months of 2008 included estimated catastrophe losses of \$535 million attributable to Hurricanes Gustav and Ike.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)

Insurance—Underwriting (Continued)

Berkshire Hathaway Primary Group

Premiums earned in 2009 by Berkshire's various primary insurers were \$442 million in the third quarter and \$1,353 million in the first nine months, representing declines of \$32 million (7%) and \$111 million (8%) compared to the corresponding 2008 periods, resulting from increased competition across virtually all market segments. For the first nine months, Berkshire's primary insurers produced underwriting gains of \$40 million in 2009 and \$98 million in 2008. Underwriting results in 2009 were lower than 2008 for most of the primary insurance operations due to higher loss ratios as increased price competition narrowed profit margins, and higher expense ratios, which reflected the impact of fixed costs on lower premium volume.

Insurance—Investment Income

A summary of net investment income of Berkshire's insurance operations follows. Amounts are in millions.

	Third Quarter		First Nine Months	
	2009	2008	2009	2008
Investment income before taxes, noncontrolling interests and equity method earnings	\$ 1,348	\$ 1,074	\$ 4,068	\$ 3,367
Income taxes and noncontrolling interests	483	265	1,207	872
Net investment income before equity method earnings	865	809	2,861	2,495
Equity method earnings	111	—	307	—
Net investment income	\$ 976	\$ 809	\$ 3,168	\$ 2,495

Investment income consists of interest and dividends earned on cash equivalents and investments allocable to Berkshire's insurance businesses. Pre-tax investment income earned in the third quarter and first nine months of 2009 exceeded amounts earned in 2008 periods by \$274 million and \$701 million, respectively. The increases in investment income in 2009 primarily reflected earnings from several large investments made during the fourth quarter of 2008 and first half of 2009, partially offset by lower earnings on cash and cash equivalents due to lower short-term interest rates and lower average cash balances in 2009.

In October 2008, Berkshire subsidiaries acquired Wrigley, Goldman Sachs and General Electric securities for an aggregate cost of \$14.5 billion and in March 2009, Berkshire invested 3 billion CHF in a 12% convertible perpetual instrument of Swiss Re. In addition, on April 1, 2009, Berkshire invested \$3 billion in 8.5% Cumulative Convertible Perpetual Preferred Stock of The Dow Chemical Company. See Note 7 to the Consolidated Financial Statements. Interest and dividends from these securities will be approximately \$2 billion per annum, which will produce comparative increases in investment income in 2009. Partially offsetting these increases will be reductions in dividends from Berkshire's investments in Wells Fargo and U.S. Bancorp common stock as a result of dividend rate cuts announced by those companies.

Beginning in 2009, investment income also includes earnings from equity method investments (BNSF and Moody's). Equity method earnings represents Berkshire's proportionate share of the net earnings of these companies. As a result of a reduction of ownership of Moody's in July of 2009, Berkshire discontinued the use of the equity method for its investment in Moody's as of the beginning of the third quarter. Dividends earned on equity method investments are not reflected in Berkshire's earnings. Dividends earned on equity method investments for the first nine months of 2009 were \$102 million.

A summary of cash and investments held in Berkshire's insurance businesses follows. Amounts are in millions.

	Sept. 30, 2009	Dec. 31, 2008	Sept. 30, 2008
Cash and cash equivalents	\$ 16,147	\$ 18,845	\$ 21,957
Equity securities	54,829	48,892	75,775
Fixed maturity securities	32,510	26,932	29,408
Other *	31,927	21,535	—
	\$ 135,413	\$ 116,204	\$ 127,140

* Other investments include the investments in Wrigley, Goldman Sachs, General Electric, Swiss Re and Dow Chemical as well as the investment in BNSF, which beginning as of December 31, 2008 is accounted for under the equity method. Berkshire's investment in Moody's was accounted for under the equity method at December 31, 2008 but included in equity securities at September 30, 2009 and 2008. At September 30, 2008, the investment in BNSF was included in equity securities.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)

Insurance—Investment Income (Continued)

Fixed maturity securities as of September 30, 2009 were as follows. Amounts are in millions.

	Amortized Cost	Unrealized Gains/Losses	Fair Value
U.S. Treasury, U.S. government corporations and agencies	\$ 2,352	\$ 59	\$ 2,411
States, municipalities and political subdivisions	3,904	285	4,189
Foreign governments	11,124	374	11,498
Corporate bonds, investment grade	4,647	493	5,140
Corporate bonds, non-investment grade	6,331	491	6,822
Mortgage-backed securities	2,378	72	2,450
	<u>\$ 30,736</u>	<u>\$ 1,774</u>	<u>\$ 32,510</u>

All U.S. government obligations are rated AAA by the major rating agencies and approximately 85% of all state, municipal and political subdivisions, foreign government obligations and mortgage-backed securities were rated AA or higher. Non-investment grade securities represent securities that are rated below BBB- or Baa3.

Invested assets derive from shareholder capital and reinvested earnings as well as net liabilities assumed under insurance contracts or “float.” The major components of float are unpaid losses, unearned premiums and other liabilities to policyholders less premiums and reinsurance recoverables, deferred charges assumed under retroactive reinsurance contracts and deferred policy acquisition costs. Float was approximately \$62 billion at September 30, 2009 and \$58 billion as of December 31, 2008. The cost of float, as represented by the ratio of pre-tax underwriting gain or loss to average float, was negative in 2009 and 2008, as Berkshire’s insurance businesses generated underwriting gains in each period.

Utilities and Energy (“MidAmerican”)

Revenues and earnings from MidAmerican are summarized below. Amounts are in millions.

	Third Quarter				First Nine Months			
	Revenues		Earnings		Revenues		Earnings	
	2009	2008	2009	2008	2009	2008	2009	2008
MidAmerican Energy Company	\$ 818	\$ 1,115	\$ 81	\$ 119	\$ 2,724	\$ 3,586	\$ 229	\$ 320
PacifiCorp	1,171	1,260	231	200	3,343	3,436	575	527
Natural gas pipelines	210	279	67	140	770	867	337	423
U.K. utilities	216	247	72	67	608	780	202	260
Real estate brokerage	323	334	29	6	791	926	42	2
Other	74	63	40	80	180	132	(1)	97
	<u>\$ 2,812</u>	<u>\$ 3,298</u>			<u>\$ 8,416</u>	<u>\$ 9,727</u>		
Earnings before corporate interest and income taxes			520	612			1,384	1,629
Interest, other than to Berkshire			(79)	(86)			(238)	(258)
Interest on Berkshire junior debt			(13)	(22)			(47)	(67)
Income taxes and noncontrolling interests			(52)	(154)			(235)	(392)
Net earnings			<u>\$ 376</u>	<u>\$ 350</u>			<u>\$ 864</u>	<u>\$ 912</u>
Earnings attributable to Berkshire *			<u>\$ 346</u>	<u>\$ 324</u>			<u>\$ 802</u>	<u>\$ 848</u>
Debt owed to others at September 30							\$ 19,564	\$ 18,995
Debt owed to Berkshire at September 30							\$ 420	\$ 1,654

* Net of noncontrolling interests and includes interest earned by Berkshire (net of related income taxes).

Berkshire currently owns an 89.5% interest in MidAmerican Energy Holdings Company (“MidAmerican”), an international energy company. MidAmerican’s domestic regulated energy interests are comprised of two regulated utility companies and two interstate natural gas pipeline companies. In the United Kingdom, MidAmerican owns two electricity distribution businesses. The rates that MidAmerican’s utilities, electricity distribution businesses and natural gas pipelines charge customers for energy and other services are generally subject to regulatory approval. Rates are based in large part on the costs of business operations, including a return on capital. To the extent these operations are not allowed to include such costs in the approved rates, operating results will be adversely affected. In addition, MidAmerican’s other businesses include a diversified portfolio of independent power projects and the second-largest residential real estate brokerage firm in the United States.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)

Utilities and Energy ("MidAmerican") (Continued)

Revenues of MidAmerican Energy Company ("MEC") in the third quarter and first nine months of 2009 declined \$297 million (27%) and \$862 million (24%), respectively, from the same periods in 2008. The revenue decreases in both periods reflect lower regulated natural gas and lower regulated electricity revenues. Regulated natural gas revenues decreased by \$107 million in the third quarter and \$452 million in the first nine months primarily due to a lower average per-unit cost of gas sold, which is directly passed through to customers. MEC's regulated electricity revenues declined \$101 million in the third quarter and \$241 million in the first nine months primarily as a result of lower average wholesale prices and volumes, which have decreased as a result of reduced demand in the current economic environment as well as mild temperatures. Declines in MEC's 2009 earnings before corporate interest and income taxes ("EBIT") of \$38 million (32%) for the third quarter and \$91 million (28%) for the first nine months primarily reflect the lower regulated electricity revenues, partially offset by lower cost of sales and operating costs.

PacifiCorp's 2009 revenues decreased \$89 million (7%) in the third quarter and \$93 million (3%) in the first nine months compared to 2008. Revenues in 2009 reflect an overall decrease in sales volume (both wholesale and retail) of approximately 3% and lower wholesale prices, somewhat offset by higher retail prices approved by regulators. The increases in PacifiCorp's EBIT of \$31 million (15%) for the third quarter and \$48 million (9%) for the first nine months reflect lower energy costs as a result of reduced prices and amounts of purchased energy in response to lower sales volumes and the use of lower-cost generation facilities put into service in the second half of 2008 and first quarter of 2009.

Natural gas pipelines revenues and EBIT in the third quarter and first nine months of 2009 were lower compared to 2008 as a result of reduced transportation revenue (due to the current economic climate) and the effects of a favorable rate proceeding included in the results for 2008. U.K. utility revenues declined \$31 million (13%) in the third quarter and \$172 million (22%) in the first nine months of 2009, principally due to the impact from foreign currency exchange rates as a result of a stronger U.S. Dollar in 2009 as compared with 2008. EBIT of the U.K. utilities in 2009 was relatively unchanged in the third quarter and decreased \$58 million (22%) in the first nine months as compared to 2008 periods. The decline in EBIT reflects foreign currency exchange rate changes as well as higher depreciation expense.

Real estate brokerage revenues declined \$11 million (3%) and \$135 million (15%) in the third quarter and first nine months of 2009 as compared to corresponding 2008 periods. The decline in the third quarter reflects lower sales prices somewhat offset by higher transaction volume. The decline in revenues for the first nine months reflects declines in both sales prices and transaction volume reflecting the continuing weakness in U.S. housing markets. Improvements in earnings of the real estate brokerage business in 2009 compared to 2008 reflect lower commission and other operating expenses.

Other revenues and EBIT in 2009 included a gain of \$37 million in the first nine months associated with the Constellation Energy common stock investment. Other EBIT also included \$125 million in stock-based compensation expense recorded in the first quarter of 2009 as a result of the purchase of common stock issued by MidAmerican upon the exercise of the last remaining stock options that had been granted to certain members of management at the time of Berkshire's acquisition of MidAmerican in 2000.

Manufacturing, Service and Retailing

Many of Berkshire's subsidiaries are engaged in a wide variety of manufacturing, service and retailing businesses. A comparison of revenues and pre-tax earnings of these businesses follows. Amounts are in millions.

	Third Quarter				First Nine Months			
	Revenues		Earnings		Revenues		Earnings	
	2009	2008	2009	2008	2009	2008	2009	2008
Mammon	\$ 1,306	\$ 1,878	\$ 194	\$ 247	\$ 3,846	\$ 4,044	\$ 526	\$ 536
McLane	8,170	7,634	64	68	23,027	21,892	273	209
Shaw	1,056	1,357	51	49	3,088	3,918	136	182
Other manufacturing	3,244	3,723	293	478	8,851	11,198	640	1,458
Other service	1,538	2,094	(5)	260	4,616	6,496	(67)	786
Retailing	641	704	11	11	1,955	2,204	48	72
	<u>\$ 15,955</u>	<u>\$ 17,390</u>			<u>\$ 45,383</u>	<u>\$ 49,752</u>		
Pre-tax earnings			\$ 608	\$ 1,113			\$ 1,556	\$ 3,243
Income taxes and noncontrolling interests			272	448			723	1,372
			<u>\$ 336</u>	<u>\$ 665</u>			<u>\$ 833</u>	<u>\$ 1,871</u>

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)

Manufacturing, Service and Retailing (Continued)

Marmon

Berkshire acquired a 60% interest in Marmon Holdings, Inc. ("Marmon") on March 18, 2008 and currently owns a 63.6% interest. Marmon's revenues, costs and expenses are included in Berkshire's Consolidated Financial Statements beginning as of that date. For both the third quarter and nine months ended September 30, 2009, Marmon's revenues declined approximately 30% from the revenues of the comparable 2008 periods (including periods in 2008 prior to Berkshire's acquisition). Pre-tax earnings for the third quarter and first nine months of 2009 declined approximately 21% and 28%, respectively, from 2008 comparable periods reflecting the revenue declines, partially offset by the impact of ongoing cost reduction efforts across all business sectors. For the third quarter of 2009, the Retail Store Fixtures, Food Service Equipment, Industrial Products, Water Treatment and Highway Technologies sectors produced comparable or improved earnings versus the third quarter of 2008. For the first nine months of 2009, the Retail Store Fixtures and Food Service Equipment sectors generated increased earnings compared to the nine months ended September 30, 2008. The remaining nine sectors experienced lower earnings compared to the comparable nine month period in 2008.

McLane

McLane's revenues for the third quarter of 2009 increased \$536 million (7%) over 2008 and for the first nine months increased \$1,135 million (5%) over 2008. The increase in year-to-date revenues reflected a 9% increase in the grocery business, partially offset by a 9% decline from the foodservice business. Pre-tax earnings for the third quarter of 2009 declined \$4 million (6%) from 2008 and for the first nine months increased \$64 million (31%) over 2008. Earnings for the first nine months of 2009 included the impact of a substantial inventory price change gain associated with an increase in federal excise tax on cigarettes. Many tobacco manufacturers raised prices in anticipation of the tax increase, which allowed McLane to generate a one-time price change gain. The increase in earnings from the inventory price change gain was partially offset by a federally mandated one-time floor stock tax on related inventory held and by lower earnings from the foodservice business.

McLane's business is marked by high sales volume and very low profit margins and has been subject to increased price competition in recent years. The overall gross margin rate was 5.81% for the first nine months of 2009 compared to 5.93% in 2008. Cigarette excise tax inflation has a negative impact on margins by inflating gross sales while providing only marginal increases in profit since most markups are on a fixed amount per unit as opposed to a percentage of gross sales. Approximately one-third of McLane's annual revenues are from Wal-Mart. A curtailment of purchasing by Wal-Mart could have a material adverse impact on the earnings of McLane.

Shaw

Shaw's revenues in the third quarter and first nine months of 2009 declined \$301 million (22%) and \$830 million (21%) from revenues in the corresponding 2008 periods. The revenue declines in 2009 were primarily due to lower unit sales. Pre-tax earnings for the third quarter of 2009 were \$51 million, a slight increase over 2008. Earnings were \$136 million for the first nine months of 2009, a decrease of \$46 million (25%) compared with 2008. Operating results in 2009 benefitted from lower raw material costs. However, the favorable impact of the lower material costs was more than offset by relatively higher manufacturing costs attributable to significant declines in sales volume, which decreased plant operating levels and manufacturing efficiencies. During 2009, Shaw incurred costs of \$8 million in the third quarter and \$62 million in the first nine months related to plant closures. Comparable costs in corresponding 2008 periods were not significant. Operating results in 2009 reflect the effects of the ongoing recession and the slow residential real estate activity.

Other manufacturing

Berkshire's other manufacturing businesses include a wide array of businesses. Included in this group are several manufacturers of building products (Acme Building Brands, Benjamin Moore, Johns Manville and MiTek) and apparel (led by Fruit of the Loom which includes the Russell athletic apparel and sporting goods business and the Vanity Fair Brands women's intimate apparel business). Also included in this group are Forest River, a leading manufacturer of leisure vehicles and ISCAR Metalworking Companies ("IMC"), an industry leader in the metal cutting tools business with operations worldwide.

Nearly all of the businesses in the manufacturing group are experiencing the adverse effects of the global economic recession as consumers and customers dramatically cut purchases. Revenues from other manufacturing activities for the third quarter of 2009 were \$3,244 million, a decrease of \$479 million (13%) from 2008. Revenues for the first nine months of 2009 were \$8,851 million, a decrease of \$2,347 million (21%) from 2008. During the first nine months of 2009, revenues were lower for apparel (13%), building products (23%) and other businesses (25%) as compared to the first nine months of 2008.

Pre-tax earnings of the other manufacturing businesses were \$293 million in the third quarter of 2009, a decrease of \$185 million (39%) versus 2008. Earnings for the first nine months of 2009 were \$640 million, which were \$818 million (56%) lower than the comparable 2008 period. The declines in earnings reflected the lower revenues as well as relatively higher costs resulting from lower manufacturing efficiencies. These businesses have taken actions to reduce costs and reduce or delay capital spending until the economy improves. Although revenues and earnings for the third quarter were lower than the comparable 2008 periods, revenues increased 9% and earnings increased 30% versus the second quarter of 2009.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)

Manufacturing, Service and Retailing (Continued)

Other service

Berkshire's other service businesses include NetJets, the world's leading provider of fractional ownership programs for general aviation aircraft and FlightSafety, a provider of high technology training to operators of aircraft. Among the other businesses included in this group are: TTI, a leading electronic components distributor; Business Wire, a leading distributor of corporate news, multimedia and regulatory filings; The Pampered Chef, a direct seller of high quality kitchen tools; International Dairy Queen, a licensor and service provider to about 5,700 stores that offer prepared dairy treats and food; The Buffalo News, a publisher of a daily and Sunday newspaper; and businesses that provide management and other services to insurance companies.

Revenues of the other service businesses were \$1,538 million in the third quarter of 2009, a decrease of \$556 million (27%) compared to 2008. For the first nine months of 2009, revenues of \$4,616 million declined \$1,880 million (29%) versus 2008. In 2009, pre-tax losses were \$5 million for the third quarter and \$67 million for the first nine months. Other service businesses generated pre-tax earnings in 2008 of \$260 million for the third quarter and \$786 million for the first nine months. The decreases in revenues and pre-tax earnings reflected the negative impact of the global recession on substantially all of Berkshire's other service businesses and in particular, NetJets' fractional ownership business.

In 2009, NetJets' revenues declined \$471 million (41%) for the third quarter and \$1,495 million (42%) for the first nine months as compared to 2008. The declines reflected a 79% decline in aircraft sales as well as lower flight operations revenues primarily due to a 24% decline in flight revenue hours. NetJets produced pre-tax losses in 2009 of \$183 million for the third quarter and \$531 million for the first nine months. The pre-tax losses in 2009 included asset writedowns and other downsizing costs of \$181 million for the third quarter and \$436 million for the first nine months. NetJets owns more planes than is required for its present level of operations and further downsizing costs will be incurred in the fourth quarter. However, management believes that NetJets is likely to operate at a modest profit in 2010, absent any further deterioration in the U.S. economy or negative actions directed at the ownership of private aircraft.

Retailing

Berkshire's retailing operations consist of four home furnishings businesses (Nebraska Furniture Mart, R.C. Willey, Star Furniture and Jordan's), three jewelry businesses (Borsheims, Helzberg and Ben Bridge) and See's Candies. Revenues of the retailing businesses were \$641 million in the third quarter of 2009 and \$1,955 million for the first nine months, reflecting decreases of \$63 million (9%) and \$249 million (11%) compared with the corresponding 2008 periods. Pre-tax earnings in the third quarter of 2009 were unchanged versus 2008 and in the first nine months declined \$24 million (33%) to \$48 million. Throughout 2008 and in the fourth quarter in particular, as the impact of the economic recession in the U.S. worsened, consumer spending declined. These conditions have continued into 2009. Revenues and pre-tax earnings declined in both the jewelry and home furnishings businesses as a result of the general economic conditions. In general, sales of "higher-end" retail products have suffered greater declines than "popular-priced" items.

Finance and Financial Products

A summary of revenues and pre-tax earnings from Berkshire's finance and financial products businesses follows. Amounts are in millions.

	Third Quarter				First Nine Months			
	Revenues		Earnings		Revenues		Earnings	
	2009	2008	2009	2008	2009	2008	2009	2008
Manufactured housing and finance	\$ 872	\$ 904	\$ 53	\$ 7	\$ 2,420	\$ 2,658	\$ 142	\$ 208
Furniture/transportation equipment leasing	164	198	5	25	504	584	10	65
Other	107	156	84	131	327	477	252	385
	<u>\$ 1,143</u>	<u>\$ 1,258</u>			<u>\$ 3,251</u>	<u>\$ 3,719</u>		
Pre-tax earnings			\$ 142	\$ 163			\$ 404	\$ 658
Income taxes and noncontrolling interests			50	72			152	261
			<u>\$ 92</u>	<u>\$ 91</u>			<u>\$ 252</u>	<u>\$ 397</u>

Revenues from manufactured housing and finance activities (Clayton Homes) in 2009 declined \$32 million (4%) for the third quarter and \$238 million (9%) for the first nine months compared to 2008. The declines were due primarily to a 20% decline in year-to-date home unit sales, partially offset by a 7% increase in average selling price due primarily to mix changes. Interest from installment loans and other investments for the third quarter of 2009 was relatively unchanged from 2008 and for the first nine months of 2009 increased approximately 4% over 2008. Installment loan balances were approximately \$12.3 billion as of September 30, 2009.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)**Finance and Financial Products (Continued)**

Pre-tax earnings of Clayton Homes in the third quarter of 2009 increased \$46 million to \$53 million and for the first nine months of 2009 declined \$66 million to \$142 million from the corresponding 2008 periods. Provisions for loan losses in the first nine months of 2009 exceeded 2008 by \$75 million. Lower earnings in the 2009 periods also reflected lower unit sales and increased interest expense, partially offset by lower selling, general and administrative expenses from cost reduction efforts. Pre-tax earnings in the third quarter of 2008 included losses of approximately \$22 million from Hurricanes Ike and Gustav.

Revenues and pre-tax earnings from furniture and transportation equipment leasing activities for the first nine months of 2009 declined \$80 million and \$55 million, respectively, compared to 2008. The declines primarily reflect lower rental income driven by relatively low utilization rates for over-the-road trailer and storage units. Significant cost components of this business are fixed (depreciation and facility expenses) and therefore earnings generally change disproportionately to revenues. Revenues and earnings of Clayton Homes and the furniture/transportation equipment leasing businesses have been negatively affected by the economic recession as well as the credit crisis.

Earnings from other finance business activities consist primarily of interest income earned on short-term and fixed maturity investments and from a small portfolio of long-held commercial real estate loans. The declines in revenues and pre-tax earnings in 2009 are primarily attributable to lower short-term interest rates and lower invested asset levels. In addition, other activities include earnings from a 100 basis point interest rate spread on \$12 billion in Berkshire Hathaway Finance Corporation borrowings, which are used in connection with Clayton Homes' installment lending activities. A corresponding charge is reflected in Clayton Homes' earnings.

Investment and Derivative Gains/Losses

A summary of investment and derivative gains and losses and other-than-temporary impairment losses on investments follows. Amounts are in millions.

	Third Quarter		First Nine Months	
	2009	2008	2009	2008
Investment gains/losses	\$ 110	\$ (46)	\$ (257)	\$ 744
Other-than-temporary impairment losses on investments	(25)	(250)	(3,151)	(679)
Derivative gains/losses	1,732	(1,261)	2,572	(2,213)
Gains/losses before income taxes and noncontrolling interests	1,817	(1,557)	(836)	(2,148)
Income taxes and noncontrolling interests	634	(545)	(295)	(755)
Net gains/losses	\$ 1,183	\$ (1,012)	\$ (541)	\$ (1,393)

Investment gains or losses are recognized upon the sales of investments or as otherwise required under GAAP. The timing of realized gains or losses from sales can have a material effect on periodic earnings. However, such gains or losses usually have little, if any, impact on total shareholders' equity because most equity and fixed maturity investments are carried at fair value with any unrealized gain or loss included as components of accumulated other comprehensive income.

Other-than-temporary impairments ("OTTI") of investments in 2009 predominantly relate to a first quarter OTTI charge with respect to Berkshire's investment in ConocoPhillips common stock. The market price of ConocoPhillips shares declined sharply over the last half of 2008. Over the first nine months of 2009, Berkshire sold approximately 27.5 million shares of ConocoPhillips. Although Berkshire expects the market price for ConocoPhillips shares to increase over time to levels that exceed original cost, Berkshire may sell additional shares before the price fully recovers. Sales in 2009 were or may be in anticipation of other investment opportunities, to increase overall liquidity and to realize capital losses that can be carried back to prior years for income tax purposes. Capital losses can be carried back three years and carried forward five years for federal income tax purposes. Income taxes of approximately \$690 million were paid on capital gains in 2006 and will be fully recoverable if capital losses of at least \$1.98 billion are generated by the end of 2009. Since a significant portion of the decline in the market value of Berkshire's investment in ConocoPhillips occurred during the last half of 2008, a significant portion of the other-than-temporary impairment losses recorded in earnings in the first quarter of 2009 was recognized in other comprehensive income as of December 31, 2008.

Derivative gains/losses primarily represent the changes in fair value of credit default and equity index put option contracts. Changes in the fair values of these contracts are reflected in earnings and can be significant, reflecting the volatility of equity and credit markets. Management does not view the periodic gains or losses from the changes in fair value as meaningful given the volatile nature of equity and credit markets over short periods of time, particularly with respect to the equity index put option contracts.

Investment and Derivative Gains/Losses (Continued)

The fair values of Berkshire's credit default contracts are impacted by changes in credit default spreads, which have been volatile in recent periods. Pre-tax losses from credit default contracts for the first quarter of 2009 were approximately \$1.35 billion, which reflected several defaults and the widening of credit default spreads with respect to the underlying non-investment grade issuers included in the high yield indexes. During the second quarter of 2009, credit default spreads tightened resulting in a second quarter pre-tax gain of approximately \$400 million. During the third quarter of 2009, credit default spreads narrowed further resulting in a pre-tax gain of approximately \$1.44 billion. Non-investment grade issuers are typically highly leveraged and therefore dependent on having ongoing access to the capital markets. The freezing of the credit markets in late 2008 and early 2009 was particularly detrimental to these issuers. As a result, several high yield issuers defaulted in the first half of 2009. For the first nine months of 2009, credit default loss payments were approximately \$1.9 billion compared with \$56 million for the first nine months of 2008.

In the third quarter and first nine months of 2009, gains from equity index put option contracts were \$220 million and \$2,010 million, respectively. The gains in the third quarter of 2009 reflected increases in the equity indexes partially offset by the impact of a weaker U.S. Dollar on non-U.S. contracts and lower interest rates. In 2008, equity index put option contracts produced losses of \$880 million in the third quarter and \$1,731 million for the first nine months. The losses in 2008 reflected declines in the equity indexes. Berkshire's ultimate payment obligations, if any, under equity index put option contracts will be determined as of the contract expiration dates, which begin in 2018. As previously noted, management does not believe that the gains or losses reflected in earnings in the past two years to be meaningful relative to evaluating Berkshire's ultimate payment obligations, if any.

Financial Condition

Berkshire's balance sheet continues to reflect significant liquidity and a strong capital base. Consolidated Berkshire shareholders' equity at September 30, 2009 was \$126.1 billion, an increase of \$16.8 billion from December 31, 2008. Consolidated cash and investments of insurance and other businesses were approximately \$143.4 billion at September 30, 2009, an increase of about \$21.4 billion from December 31, 2008. Cash and cash equivalents of insurance and other businesses were \$23.8 billion as of September 30, 2009. Investments are held predominantly in Berkshire's insurance businesses.

During the first nine months of 2009, Berkshire acquired a 12% convertible perpetual security issued by Swiss Re for \$2.7 billion and an 8.5% Cumulative Convertible Perpetual Preferred Stock of The Dow Chemical Company for \$3 billion. Investment income generated by these investments will greatly exceed income currently earned on short-term investments.

Capital expenditures of the utilities and energy businesses in the first nine months of 2009 were approximately \$2.6 billion. Forecasted capital expenditures for the fourth quarter of 2009 are estimated at \$0.8 billion. MidAmerican intends to fund future capital expenditures with cash flows from operations and debt proceeds. MidAmerican's borrowings were \$19.6 billion at September 30, 2009, an increase of \$419 million from December 31, 2008. In 2009, MidAmerican operating subsidiaries issued \$350 million of 5.5% bonds maturing in 2019 and \$650 million of 6.0% bonds maturing in 2039 and MidAmerican also issued \$250 million of 3.15% notes maturing in 2012. MidAmerican and its operating subsidiaries currently have no significant debt maturities until 2011, when about \$1.1 billion matures. Berkshire has committed until February 28, 2011 to provide up to \$3.5 billion of additional capital to MidAmerican to permit the repayment of its debt obligations or to fund its regulated utility subsidiaries. Berkshire does not intend to guarantee the repayment of debt by MidAmerican or any of its subsidiaries.

Assets of the finance and financial products businesses, which consisted primarily of loans and finance receivables, fixed maturity securities and cash and cash equivalents, were approximately \$25.0 billion as of September 30, 2009 and \$23.9 billion at December 31, 2008. Liabilities were \$27.6 billion as of September 30, 2009 and \$30.7 billion at December 31, 2008. As of September 30, 2009, notes payable and other borrowings of \$14.6 billion included approximately \$12.1 billion par amount of medium-term notes issued by Berkshire Hathaway Finance Corporation ("BHFC"). In 2009, BHFC issued \$250 million of 5.4% notes due in 2018 and \$1.0 billion of 4.0% notes due in 2012. The BHFC notes are unsecured and mature at various dates extending through 2018, beginning with a \$1.5 billion maturity in January 2010. The proceeds from the medium-term notes were used to finance originated and acquired loans of Clayton Homes. The full and timely payment of principal and interest on the notes is guaranteed by Berkshire.

During 2008 and continuing into the first part of 2009, access to credit markets became limited as a consequence of the ongoing worldwide credit crisis. As a result, interest rates for investment grade corporate issuers increased relative to government obligations, even for companies with strong credit histories and ratings. However, management believes that the credit crisis has abated and interest rates for investment grade issuers relative to government obligations have declined. Nevertheless, restricted access to credit markets at affordable rates in the future could have a significant negative impact on operations, particularly the utilities and energy and the finance and financial products operations. Management believes that it currently maintains ample liquidity to cover its existing contractual obligations and provide for contingent liquidity needs.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)

Financial Condition (Continued)

On November 3, 2009, Berkshire announced that it had entered into a definitive agreement to acquire for \$100 per share the remaining 77.4% of BNSF's outstanding shares not currently owned by Berkshire. Based upon the outstanding shares of BNSF, the value of the aggregate consideration to acquire the remaining BNSF shares is approximately \$26.4 billion. Approximately 60% of the aggregate consideration will be paid in cash and 40% in Berkshire Class A and Class B Common Stock. Berkshire expects to fund about 50% of the cash consideration with internally generated cash and the remainder with borrowings expected to be repaid over a three year period. The acquisition is subject to BNSF shareholder approval and customary closing conditions. The closing is expected to occur in the first quarter of 2010.

Contractual Obligations

Berkshire and its subsidiaries are parties to contracts associated with ongoing business and financing activities, which will result in cash payments to counterparties in future periods. Certain obligations reflected in the Consolidated Balance Sheets, such as notes payable, require future payments on contractually specified dates and in fixed and determinable amounts. The timing and amount of the payment of other obligations, such as unpaid property and casualty loss reserves and long duration credit default and equity index put option contracts, are contingent upon the outcome of future events. Actual payments will likely vary, perhaps significantly, from estimates. Other obligations pertain to the acquisition of goods or services in the future, which are not currently reflected in the financial statements, such as minimum rentals under operating leases. Berkshire's consolidated contractual obligations as of September 30, 2009 did not change materially from those disclosed in "Contractual Obligations," included in "Management's Discussion and Analysis of Financial Condition and Results of Operations" contained in Berkshire's Annual Report on Form 10-K for the year ended December 31, 2008.

Critical Accounting Policies

In applying certain accounting policies, Berkshire's management is required to make estimates and judgments regarding transactions that have occurred and ultimately will be settled several years in the future. Amounts recognized in the financial statements from such estimates are necessarily based on assumptions about numerous factors involving varying, and possibly significant, degrees of judgment and uncertainty. Accordingly, the amounts currently recorded in the financial statements may prove, with the benefit of hindsight, to be inaccurate. Reference is made to "Critical Accounting Policies" discussed in "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in Berkshire's Annual Report on Form 10-K for the year ended December 31, 2008 for additional discussion regarding these estimates.

Berkshire's Consolidated Balance Sheet as of September 30, 2009 includes estimated liabilities for unpaid losses from property and casualty insurance and reinsurance contracts of \$59.6 billion. Due to the inherent uncertainties in the process of establishing loss reserve amounts, the actual ultimate claim amounts will likely differ from the currently recorded amounts. A very small percentage change in estimates of this magnitude will result in a material effect on reported earnings. The effects from changes in these estimates are recorded as a component of losses incurred in the period of the change.

Berkshire's Consolidated Balance Sheet as of September 30, 2009 includes goodwill of acquired businesses of \$34.0 billion. A significant amount of judgment is required in performing goodwill impairment tests. Such tests include periodically determining or reviewing the estimated fair value of Berkshire's reporting units. There are several methods of estimating a reporting unit's fair value, including market quotations, if available, asset and liability fair values and other valuation techniques, such as discounted projected future net earnings or cash flows and multiples of earnings. If the carrying amount of a reporting unit, including goodwill, exceeds the estimated fair value, then individual assets, including identifiable intangible assets, and liabilities of the reporting unit are estimated at fair value. The excess of the estimated fair value of the reporting unit over the estimated fair value of net assets would establish the implied value of goodwill. The excess of the recorded amount of goodwill over the implied value is then charged to earnings as an impairment loss. Berkshire performs an annual evaluation of goodwill for impairment in the fourth quarter. Although Berkshire management has not concluded that any significant amounts of goodwill were impaired in recent years, the ultimate length and depth of the ongoing economic recession could adversely impact the long-term economic values of certain of its businesses and result in impairment charges in future periods. Conversely, in light of Berkshire's strong capital position, the ongoing recession is producing a lesser impact and in some instances enhancing the long-term economic value of certain of Berkshire's reporting units.

Berkshire's consolidated financial position reflects very significant amounts of invested assets and derivative contract liabilities that are measured at fair value. A substantial portion of invested assets are carried at fair value based upon current market quotations and other observable market inputs. In instances when market prices are not available, values may be based upon fair value pricing matrices or models. These models may incorporate observable inputs as well as unobservable inputs, which require judgments by management. Derivative contract values reflect estimates of the amounts at which the contracts could be exchanged based upon varying levels of observable market information as well as other assumptions by management. Certain of Berkshire's fixed maturity securities are not actively traded in the securities markets, and loans and finance receivables of Berkshire's finance businesses are not traded at all.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)

Critical Accounting Policies (Continued)

Considerable judgment may be required in determining the assumptions used in certain valuation models, including interest rate, loan prepayment speed, credit risk and liquidity risk assumptions. Changes in these assumptions may produce a significant effect on values. Furthermore, accounting and reporting standards are continually and rapidly changing in the area of financial instruments, which may impact the values recorded in the financial statements in future periods.

Information concerning recently issued accounting pronouncements which are not yet effective is included in Note 3 to the Consolidated Financial Statements. Berkshire is currently evaluating the impact of these accounting pronouncements.

Forward-Looking Statements

Investors are cautioned that certain statements contained in this document as well as some statements in periodic press releases and some oral statements of Berkshire officials during presentations about Berkshire are "forward-looking" statements within the meaning of the Private Securities Litigation Reform Act of 1995 (the "Act"). Forward-looking statements include statements which are predictive in nature, which depend upon or refer to future events or conditions, which include words such as "expects," "anticipates," "intends," "plans," "believes," "estimates" or similar expressions. In addition, any statements concerning future financial performance (including future revenues, earnings or growth rates), ongoing business strategies or prospects and possible future Berkshire actions, which may be provided by management, are also forward-looking statements as defined by the Act. Forward-looking statements are based on current expectations and projections about future events and are subject to risks, uncertainties and assumptions about Berkshire, economic and market factors and the industries in which Berkshire does business, among other things. These statements are not guaranties of future performance and Berkshire has no specific intention to update these statements.

Actual events and results may differ materially from those expressed or forecasted in forward-looking statements due to a number of factors. The principal important risk factors that could cause Berkshire's actual performance and future events and actions to differ materially from such forward-looking statements include, but are not limited to, changes in market prices of Berkshire's investments in fixed maturity and equity securities, losses realized from derivative contracts, the occurrence of one or more catastrophic events, such as an earthquake, hurricane or act of terrorism that causes losses insured by Berkshire's insurance subsidiaries, changes in insurance laws or regulations, changes in Federal income tax laws, and changes in general economic and market factors that affect the prices of securities or the industries in which Berkshire and its affiliates do business.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Reference is made to Berkshire's most recently issued Annual Report and in particular the "Market Risk Disclosures" included in "Management's Discussion and Analysis of Financial Condition and Results of Operations." As of September 30, 2009, there are no material changes in the market risks described in Berkshire's Annual Report on Form 10-K for the year ended December 31, 2008.

Item 4. Controls and Procedures

As of the end of the period covered by this Quarterly Report on Form 10-Q, the Corporation carried out an evaluation, under the supervision and with the participation of the Corporation's management, including the Chairman (Chief Executive Officer) and the Senior Vice President-Treasurer (Chief Financial Officer), of the effectiveness of the design and operation of the Corporation's disclosure controls and procedures pursuant to Exchange Act Rule 13a-15. Based upon that evaluation, the Chairman (Chief Executive Officer) and the Senior Vice President-Treasurer (Chief Financial Officer) concluded that the Corporation's disclosure controls and procedures are effective in timely alerting them to material information relating to the Corporation (including its consolidated subsidiaries) required to be included in the Corporation's periodic SEC filings. During the quarter, there have been no significant changes in the Corporation's internal control over financial reporting or in other factors that could significantly affect internal control over financial reporting.

Part II Other Information

Item 1. Legal Proceedings

Berkshire and its subsidiaries are parties in a variety of legal actions arising out of the normal course of business. In particular, such legal actions affect Berkshire's insurance and reinsurance businesses. Such litigation generally seeks to establish liability directly through insurance contracts or indirectly through reinsurance contracts issued by Berkshire subsidiaries. Plaintiffs occasionally seek punitive or exemplary damages. Berkshire does not believe that such normal and routine litigation will have a material effect on its financial condition or results of operations. Berkshire and certain of its subsidiaries are also involved in other kinds of legal actions, some of which assert or may assert claims or seek to impose fines and penalties in substantial amounts. Reference is made to Note 20 to the Annual Report on Form 10-K for the year ended December 31, 2008 and Note 18 to the Consolidated Financial Statements included in Part I of this Form 10-Q for detailed discussion of such actions.

Item 1A. Risk Factors

Berkshire's significant business risks are described in Item 1A to Form 10-K for the year ended December 31, 2008 to which reference is made herein.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None

Item 3. Defaults Upon Senior Securities
