**1. Basis of Presentation**

UnitedHealth Group Incorporated (individually and together with its subsidiaries, “UnitedHealth Group” and “the Company”) is a diversified health care company with a mission to help people live healthier lives and help make the health system work better for everyone. Our two complementary business platforms — Optum and UnitedHealthcare — are driven by this unified mission and vision to improve health care access, affordability, experiences and outcomes for the individuals and organizations we are privileged to serve.

The Company has prepared the Condensed Consolidated Financial Statements according to U.S. Generally Accepted Accounting Principles (GAAP) and has included the accounts of UnitedHealth Group and its subsidiaries. The year-end condensed consolidated balance sheet was derived from audited financial statements, but does not include all disclosures required by GAAP. In accordance with the rules and regulations of the U.S. Securities and Exchange Commission (SEC), the Company has omitted certain footnote disclosures that would substantially duplicate the disclosures contained in its annual audited Consolidated Financial Statements. Therefore, these Condensed Consolidated Financial Statements should be read together with the Consolidated Financial Statements and the Notes included in Part II, Item 8, “Financial Statements and Supplementary Data” in the Company’s Annual Report on Form 10-K for the year ended December 31, 2020 as filed with the SEC (2020 10-K). The accompanying Condensed Consolidated Financial Statements include all normal recurring adjustments necessary to present the interim financial statements fairly.

***Use of Estimates***

These Condensed Consolidated Financial Statements include certain amounts based on the Company’s best estimates and judgments. The Company’s most significant estimates relate to estimates and judgments for medical costs payable and goodwill. Certain of these estimates require the application of complex assumptions and judgments, often because they involve matters that are inherently uncertain and will likely change in subsequent periods. The impact of any change in estimates is included in earnings in the period in which the estimate is adjusted.

The Company held \$2.6 billion and \$2.3 billion of equity securities as of March 31, 2021 and December 31, 2020, respectively. The Company's investments in equity securities primarily consist of employee savings plan related investments and shares of Brazilian real denominated fixed-income funds with readily determinable fair values. Additionally, the Company's investments included \$1.3 billion of equity method investments in operating businesses in the health care sector for both March 31, 2021 and December 31, 2020, respectively. The allowance for credit losses on held-to-maturity securities at March 31, 2021 and December 31, 2020 was not material.

The amortized cost and fair value of debt securities as of March 31, 2021, by contractual maturity, were as follows:

The Company's unrealized losses from debt securities as of March 31, 2021 were generated from approximately 8,000 positions out of a total of 37,000 positions. The Company believes that it will collect the timely principal and interest due on its debt securities that have an amortized cost in excess of fair value. The unrealized losses were primarily caused by interest rate increases and not by unfavorable changes in the credit quality associated with these securities that impacted our assessment on collectability of principal and interest. At each reporting period, the Company evaluates available-for-sale debt securities for any credit-related impairment when the fair value of the investment is less than its amortized cost. The Company evaluated the expected cash flows, the underlying credit quality and credit ratings of the issuers noting no significant credit deterioration since purchase. As of March 31, 2021, the Company did not have the intent to sell any of the available-for-sale debt securities in an unrealized loss position. Therefore, the Company believes these losses to be temporary. The allowance for credit losses on available-for-sale debt securities at March 31, 2021 and December 31, 2020 was not material.

### 3. Fair Value

Certain assets and liabilities are measured at fair value in the Condensed Consolidated Financial Statements or have fair values disclosed in the Notes to the Condensed Consolidated Financial Statements. These assets and liabilities are classified into one of three levels of a hierarchy defined by GAAP.

For a description of the methods and assumptions that are used to estimate the fair value and determine the fair value hierarchy classification of each class of financial instrument, see Note 4 of Notes to the Consolidated Financial Statements in Part II, Item 8, "Financial Statements and Supplementary Data" in the 2020 10-K.

The following table presents a summary of fair value measurements by level and carrying values for items measured at fair value on a recurring basis in the Condensed Consolidated Balance Sheets:

Nonfinancial assets and liabilities or financial assets and liabilities that are measured at fair value on a nonrecurring basis are subject to fair value adjustments only in certain circumstances, such as when the Company records an impairment. There were no significant fair value adjustments for these assets and liabilities recorded during either the three months ended March 31, 2021 or 2020.

#### 4. Medical Costs Payable

The following table shows the components of the change in medical costs payable for the three months ended March 31:

| (in millions)                              | 2021      | 2020      |
|--|-----------|-----------|
| Medical costs payable, beginning of period | \$ 21,872 | \$ 21,690 |
| Acquisitions                               | 12        | —         |
| Reported medical costs:                    |           |           |
| Current year                               | 45,914    | 41,580    |
| Prior years                                | (1,010)   | (580)     |
| Total reported medical costs               | 44,904    | 41,000    |
| Medical payments:                          |           |           |
| Payments for current year                  | (25,960)  | (23,471)  |
| Payments for prior years                   | (15,995)  | (16,447)  |
| Total medical payments                     | (41,955)  | (39,918)  |
| Medical costs payable, end of period       | \$ 24,833 | \$ 22,772 |

For the three months ended March 31, 2021 and March 31, 2020, prior years medical cost reserve development was primarily driven by lower than expected health system utilization. Medical costs payable included reserves for claims incurred by insured customers but not yet reported to the Company of \$16.3 billion and \$14.8 billion at March 31, 2021 and December 31, 2020, respectively.

The Company's long-term debt obligations also included \$1.2 billion of other financing obligations as of both March 31, 2021 and December 31, 2020, of which \$359 million and \$354 million were classified as current as of March 31, 2021 and December 31, 2020, respectively.

#### ***Short-Term Borrowings***

Commercial paper consists of short-duration, senior unsecured debt privately placed on a discount basis through broker-dealers. As of March 31, 2021, the Company's outstanding commercial paper had a weighted average annual interest rate of 0.2%.

The Company has \$4.4 billion five-year, \$4.4 billion three-year and \$3.8 billion 364-day revolving bank credit facilities with 26 banks, which mature in December 2025, December 2023 and December 2021, respectively. These facilities provide liquidity support for the Company's commercial paper program and are available for general corporate purposes. As of March 31, 2021, no amounts had been drawn on any of the bank credit facilities. The annual interest rates, which are variable based on term, are calculated based on the London Interbank Offered Rate (LIBOR) plus a credit spread based on the Company's senior unsecured credit ratings. If amounts had been drawn on the bank credit facilities as of March 31, 2021, annual interest rates would have ranged from 0.8% to 0.9%.

#### ***Debt Covenants***

The Company's bank credit facilities contain various covenants, including covenants requiring the Company to maintain a defined debt to debt-plus-shareholders' equity ratio of not more than 60%. The Company was in compliance with its debt covenants as of March 31, 2021.

### **6. Commitments and Contingencies**

#### ***Pending Acquisitions***

The Company has entered into agreements to purchase companies in the health care sector, most notably Change Healthcare (NASDAQ: CHNG), which is expected to close in the second half of 2021, subject to regulatory approvals and other customary closing conditions. The total anticipated capital required for these acquisitions, excluding the payoff of acquired indebtedness, is approximately \$12 billion.

#### ***Legal Matters***

Because of the nature of its businesses, the Company is frequently made party to a variety of legal actions and regulatory inquiries, including class actions and suits brought by members, care providers, consumer advocacy organizations, customers and regulators, relating to the Company's businesses, including management and administration of health benefit plans and other services. These matters include medical malpractice, employment, intellectual property, antitrust, privacy and contract claims and claims related to health care benefits coverage and other business practices.

The Company records liabilities for its estimates of probable costs resulting from these matters where appropriate. Estimates of costs resulting from legal and regulatory matters involving the Company are inherently difficult to predict, particularly where the matters: involve indeterminate claims for monetary damages or may involve fines, penalties or punitive damages; present novel legal theories or represent a shift in regulatory policy; involve a large number of claimants or regulatory bodies; are in the early stages of the proceedings; or could result in a change in business practices. Accordingly, the Company is often unable to estimate the losses or ranges of losses for those matters where there is a reasonable possibility or it is probable that a loss may be incurred.

#### ***Government Investigations, Audits and Reviews***

The Company has been involved or is currently involved in various governmental investigations, audits and reviews. These include routine, regular and special investigations, audits and reviews by the Centers for Medicare and Medicaid Services (CMS), state insurance and health and welfare departments, state attorneys general, the Office of the Inspector General, the Office of Personnel Management, the Office of Civil Rights, the Government Accountability Office, the Federal Trade Commission, U.S. Congressional committees, the U.S. Department of Justice, the SEC, the Internal Revenue Service, the U.S. Drug Enforcement Administration, the U.S. Department of Labor, the Federal Deposit Insurance Corporation, the Defense Contract Audit Agency and other governmental authorities. Similarly, our international businesses are also subject to investigations, audits and reviews by applicable foreign governments, including South American and other non-U.S. governmental authorities. Certain of the Company's businesses have been reviewed or are currently under review, including for, among other matters, compliance with coding and other requirements under the Medicare risk-adjustment model. CMS has selected certain of the Company's local plans for risk adjustment data validation (RADV) audits to validate the coding practices of and supporting documentation maintained by health care providers and such audits may result in retrospective adjustments to payments made to the Company's health plans.

On February 14, 2017, the Department of Justice (DOJ) announced its decision to pursue certain claims within a lawsuit initially asserted against the Company and filed under seal by a whistleblower in 2011. The whistleblower's complaint, which was unsealed on February 15, 2017, alleges that the Company made improper risk adjustment submissions and violated the False Claims Act. On February 12, 2018, the court granted in part and denied in part the Company's motion to dismiss. In May 2018, DOJ moved to dismiss the Company's counterclaims, which were filed in March 2018, and moved for partial summary judgment. In March 2019, the court denied the government's motion for partial summary judgment and dismissed the Company's counterclaims without prejudice. The Company cannot reasonably estimate the outcome that may result from this matter given its procedural status.

## 7. Segment Financial Information

The Company's four reportable segments are UnitedHealthcare, OptumHealth, OptumInsight and OptumRx. ## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read together with the accompanying Condensed Consolidated Financial Statements and Notes and with our 2020 10-K, including the Consolidated Financial Statements and Notes in Part II, Item 8, "Financial Statements and Supplementary Data" in that report. Unless the context indicates otherwise, references to the terms "UnitedHealth Group," "we," "our" or "us" used throughout this Management's Discussion and Analysis of Financial Condition and Results of Operations refer to UnitedHealth Group Incorporated and its consolidated subsidiaries.

Readers are cautioned that the statements, estimates, projections or outlook contained in this Management's Discussion and Analysis of Financial Condition and Results of Operations, including discussions regarding financial prospects, economic conditions, trends and uncertainties contained in this Item 2, may constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 (PSLRA). These forward-looking statements involve risks and uncertainties that may cause our actual results to differ materially from the results discussed or implied in the forward-looking statements. A description of some of the risks and uncertainties is set forth in Part I, Item 1A, "Risk Factors" in our 2020 10-K and in the discussion below.

### EXECUTIVE OVERVIEW

#### General

UnitedHealth Group is a diversified health care company with a mission to help people live healthier lives and help make the health system work better for everyone. Our two complementary businesses — Optum and UnitedHealthcare — are driven by this unified mission and vision to improve health care access, affordability, experiences and outcomes for the individuals and organizations we are privileged to serve.

We have four reportable segments across our two business platforms, Optum and UnitedHealthcare:

- OptumHealth;
- OptumInsight;
- OptumRx; and
- UnitedHealthcare, which includes UnitedHealthcare Employer & Individual, UnitedHealthcare Medicare & Retirement, UnitedHealthcare Community & State and UnitedHealthcare Global.

Further information on our business is presented in Part I, Item 1, "Business" and Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our 2020 10-K and additional information on our segments can be found in this Item 2 and in [Note 7 of Notes to the Condensed Consolidated Financial Statements](#) included in Part I, Item 1 of this report.

#### COVID-19 Trends and Uncertainties

The COVID-19 pandemic continues to evolve and the ultimate impact on our business, results of operations, financial condition and cash flows remains uncertain. During the three months ended March 31, 2021, overall care activity, including COVID-19 related care, was nearly at seasonal baselines. This was primarily the result of temporary deferral of elective care activity, which generally tracked with COVID-19 incidence rates during the quarter. For the three months ended March 31, 2021, the temporary deferral of care was more than offset by COVID-19 related care and testing costs, rebate requirements, and general economic impacts, such as impacts of unemployment. The temporary deferral of care, along with continued COVID-19 related care costs, may cause care patterns to moderately exceed normal baselines in future periods as utilization of health system capacity increases and consumers resume elective care. From time to time, health system capacity may be subject to possible increased volatility due to the pandemic. Specific trends and uncertainties related to our two business platforms are as follows:

**Optum.** COVID-19 related care costs continued to impact our OptumHealth risk-based care delivery businesses, which were partially offset by the continued temporary deferral of care. The temporary deferral of care reduced fee-for-service care delivery volume, as well as OptumInsight and OptumRx volume-based business activity. We believe COVID-19 will continue to influence customer and consumer behavior, both during and after the pandemic, which could impact how care is delivered and the manner in which consumers wish to receive their prescription drugs or infusion services. We expect COVID-19 related care costs and other economic impacts to only partially be offset by temporary deferrals of care in the second half of the year as health systems return to seasonally adjusted levels of care. As a result of the dynamic situation and broad-reaching impact to the health system, the ultimate impact of COVID-19 on our Optum businesses is uncertain.

**UnitedHealthcare.** In 2021, we have continued expanded benefit coverage in areas such as COVID-19 related care and testing, telemedicine, and pharmacy; continuing to assist our customers, care providers, members and communities in addressing the COVID-19 crisis. Temporary care deferrals continued to impact UnitedHealthcare's results of operations for the three months ended March 31, 2021, offset by COVID-19 related care and testing, rebate requirements and other revenue impacts and broader economic impacts. Enrollment in our commercial products declined primarily due to employer actions in response to the pandemic.

Increased consumer demand for care, potentially even higher acuity care, along with continued COVID-19 related care and testing costs are expected to result in increased future medical costs in the second half of the year. Disrupted care patterns, as a result of the pandemic, have and may continue to temporarily affect the ability to obtain complete member health status information, impacting revenue in businesses utilizing risk adjustment methodologies. The ultimate overall impact is uncertain and dependent on the future pacing and intensity of the pandemic, the duration of policies and initiatives to address COVID-19, and general economic uncertainty.

#### **Business Trends**

Our businesses participate in the United States, South American and certain other international health markets. Overall spending on health care is impacted by inflation; utilization; medical technology and pharmaceutical advancement; regulatory requirements; demographic trends in the population; and national interest in health and well-being. The rate of market growth may be affected by a variety of factors, including macro-economic conditions, such as the impacts of COVID-19, and regulatory changes, which could impact our results of operations, including our continued efforts to control health care costs.

**Pricing Trends.** To price our health care benefit products, we start with our view of expected future costs, including any potential impacts from COVID-19. We frequently evaluate and adjust our approach in each of the local markets we serve, considering all relevant factors, such as product positioning, price competitiveness and environmental, competitive, legislative and regulatory considerations, including minimum medical loss ratio (MLR) thresholds and similar revenue adjustments. We will continue seeking to balance growth and profitability across all these dimensions.

The commercial risk market remains highly competitive in both the small group and large group segments. We expect broad-based competition to continue as the industry adapts to individual and employer needs amid reform changes.

Government programs in the community and senior sector tend to receive lower rates of increase than the commercial market due to governmental budget pressures and lower cost trends.

**Medical Cost Trends.** Our medical cost trends primarily relate to changes in unit costs, health system utilization and prescription drug costs. COVID-19 related care and testing costs as well as the deferral of care have also impacted medical cost trends in the current year and may continue in future years. We endeavor to mitigate those increases by engaging physicians and consumers with information and helping them make clinically sound choices, with the objective of helping them achieve high quality, affordable care. The continued uncertain impact of COVID-19 may impact our ability to estimate medical costs payable, which has resulted in, and could result in, increased variability to medical cost reserve development.

#### **Regulatory Trends and Uncertainties**

Following is a summary of management's view of regulatory trends and uncertainties. For additional information regarding regulatory trends and uncertainties, see Part I, Item 1 "Business - Government Regulation," Part I, Item 1A, "Risk Factors," Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our 2020 10-K and "[Risk Factors](#)" in Part II, Item 1A of this report.

**Medicare Advantage Rates.** Final 2022 Medicare Advantage rates resulted in an increase in industry base rates of approximately 4.1%, short of the industry forward medical cost trend. We continue to manage costs through improving and expanding our coordinated care models, value-based care arrangements and various consumer engagement tools.

**Affordable Care Act (ACA) Tax.** The Health Insurance Tax was permanently repealed by Congress, effective January 1, 2021. The permanent repeal of the tax impacts year-over-year comparability of our financial statements, including revenues, operating costs, medical care ratio (MCR), operating cost ratio, effective tax rate and cash flows from operations.

### SELECTED OPERATING PERFORMANCE AND OTHER SIGNIFICANT ITEMS

The following summarizes select first quarter 2021 year-over-year operating comparisons to first quarter 2020.

- Consolidated revenues grew 9%, UnitedHealthcare revenues grew 8% and Optum revenues grew 11%.
- UnitedHealthcare served 1.1 million more people domestically, driven by growth in community and senior programs, partially offset by decreased people served by our commercial benefits business.
- Consolidated earnings from operations increased 35%, including increases of 42% at UnitedHealthcare and 25% at Optum.
- Diluted earnings per common share increased 44% to \$5.08.
- Cash flows from operations for the three months ended March 31, 2021 were \$6.0 billion.
- Return on equity was 29.5%.

### RESULTS SUMMARY

(a) Medical care ratio is calculated as medical costs divided by premium revenue.

(b) Net earnings margin attributable to UnitedHealth Group shareholders.

(c) Return on equity is calculated as annualized net earnings attributable to UnitedHealth Group common shareholders divided by average shareholders' equity. Average shareholders' equity is calculated using the shareholders' equity balance at the end of the preceding year and the shareholders' equity balances at the end of each of the quarters in the year presented.

## **2021 RESULTS OF OPERATIONS COMPARED TO 2020 RESULTS OF OPERATIONS**

### **Consolidated Financial Results**

#### ***Revenue***

The increases in revenue were primarily driven by the increase in the number of individuals served through Medicare Advantage and Medicaid; pricing trends; and organic and acquisition growth across the Optum business, primarily due to expansion in care delivery and managed services. The increases were partially offset by decreased individuals served through our commercial benefits business due to the continued economic impacts of COVID-19.

#### ***Medical Costs and MCR***

Medical costs increased as a result of growth in people served through Medicare Advantage and Medicaid, medical cost trends and COVID-19 related care and testing costs, partially offset by the temporary deferral of care continued to be caused by COVID-19, decreased people served in commercial, increased prior year favorable reserve development and calendar day impacts. The MCR was stable due to the temporary deferral of care, increased prior year favorable reserve development and calendar day impacts, being offset by the permanent repeal of the Health Insurance Tax and COVID-19 related care and testing costs.

#### ***Operating Cost Ratio***

The operating cost ratio decreased primarily due to the permanent repeal of the return of the Health Insurance Tax and operating efficiency gains, partially offset by business mix.

#### ***Income Tax Rate***

Our effective tax rate decreased primarily due to the permanent repeal of the nondeductible Health Insurance Tax.

#### **Reportable Segments**

See [Note 7 of Notes to the Condensed Consolidated Financial Statements](#) included in Part I, Item 1 of this report for more information on our segments. We utilize various metrics to evaluate and manage our reportable segments, including individuals served by UnitedHealthcare by major market segment and funding arrangement, people served by OptumHealth and adjusted scripts for OptumRx. These metrics are the main drivers of revenue, earnings and cash flows at each business. The metrics also allow management and investors to evaluate and understand business mix, customer penetration and pricing trends when comparing the metrics to revenue by segment.

The following table presents a summary of the reportable segment financial information:

Fee-based and risk-based commercial business decreased primarily due to increased unemployment. Medicare Advantage increased due to growth in people served through individual and group Medicare Advantage plans. The increase in people served through Medicaid was primarily driven by states continuing to ease redetermination requirements due to COVID-19, new state-based awards and growth in people served through Dual Special Needs Plans.

UnitedHealthcare's revenue increased due to growth in the number of individuals served through Medicare Advantage and Medicaid and a greater mix of people with higher acuity needs, partially offset by a decrease in the number of individuals served through commercial benefits and the permanent repeal of the Health Insurance Tax. Earnings from operations increased due to the continued deferral of care caused by COVID-19 on the health system, the growth in people served through Medicare Advantage and Medicaid and the repeal of the Health Insurance Tax, partially offset by COVID-19 related care and testing costs, the reduction in people served through commercial benefits and broader economic impacts of COVID-19.

### **Optum**

Total revenues and earnings from operations increased due to growth at OptumHealth and OptumInsight. The results by segment were as follows:

#### **OptumHealth**

Revenue and earnings from operations at OptumHealth increased primarily due to organic growth and acquisitions in care delivery. Earnings from operations were also impacted by the temporary deferral of care at our risk-based businesses caused by COVID-19 and cost management initiatives, partially offset by COVID-19 related care costs. OptumHealth served approximately 99 million people as of March 31, 2021 compared to 96 million people as of March 31, 2020.

#### **OptumInsight**

Revenue at OptumInsight increased primarily due to growth in technology and managed services, partially offset by decreased activity levels in volume-based services due to the impact of COVID-19 on payer and care provider clients. Earnings from operations increased primarily due to productivity gains and cost management initiatives, as well as the factors impacting revenue.

#### **OptumRx**

Revenue and earnings from operations at OptumRx grew modestly due to organic growth and acquisitions in pharmacy care services and pricing trends, offset by lower script volumes. OptumRx fulfilled 329 million and 339 million adjusted scripts in the first quarters of 2021 and 2020, respectively, as the first quarter 2020 included the advance provision of medications to people served in response to COVID-related supply concerns, with script levels then receding with care deferral patterns.

#### 2021 Cash Flows Compared to 2020 Cash Flows

Increased cash flows provided by operating activities were primarily driven by increased net earnings and changes in working capital accounts. Other significant changes in sources or uses of cash year-over-year included decreased short-term borrowings and increased purchases of investments, partially offset by increased customer funds administered.

#### Financial Condition

As of March 31, 2021, our cash, cash equivalent, available-for-sale debt securities and equity securities balances of \$63.4 billion included approximately \$20.0 billion of cash and cash equivalents (of which \$2.1 billion was available for general corporate use), \$40.9 billion of debt securities and \$2.6 billion of investments in equity securities. Given the significant portion of our portfolio held in cash and cash equivalents, we do not anticipate fluctuations in the aggregate fair value of our financial assets to have a material impact on our liquidity or capital position. Our available-for-sale debt securities portfolio had a weighted-average duration of 3.8 years and a weighted-average credit rating of “Double A” as of March 31, 2021. When multiple credit ratings are available for an individual security, the average of the available ratings is used to determine the weighted-average credit rating.

#### Capital Resources and Uses of Liquidity

In addition to cash flows from operations and cash and cash equivalent balances available for general corporate use, our capital resources and uses of liquidity are as follows:

**Cash Requirements.** A summary of our cash requirements as of December 31, 2020 was disclosed in Part II, Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our 2020 10-K. During the three months ended March 31, 2021, there were no material changes to this previously disclosed information outside the ordinary course of business. We believe our capital resources are sufficient to meet future, short-term and long-term liquidity needs. We continually evaluate opportunities to expand our operations, including through internal development of new products, programs and technology applications and acquisitions.

**Short-Term Borrowings.** Our revolving bank credit facilities provide liquidity support for our commercial paper borrowing program, which facilitates the private placement of unsecured debt through independent broker-dealers, and are available for general corporate purposes. For more information on our commercial paper and bank credit facilities, see [Note 5 of Notes to the Condensed Consolidated Financial Statements](#) included in Part I, Item 1 of this report.

Our revolving bank credit facilities contain various covenants, including covenants requiring us to maintain a defined debt to debt-plus-shareholders' equity ratio of not more than 60%. As of March 31, 2021, our debt to debt-plus-shareholders' equity ratio, as defined and calculated under the credit facilities, was approximately 39%.

**Long-Term Debt.** Periodically, we access capital markets and issue long-term debt for general corporate purposes, such as, to meet our working capital requirements, to refinance debt, to finance acquisitions or for share repurchases. For more information on our long-term debt, see [Note 5 of Notes to the Condensed Consolidated Financial Statements](#) included in Part I, Item 1 of this report.

**Credit Ratings.** Our credit ratings as of March 31, 2021 were as follows:

|                       | Moody's |         | S&P Global |         | Fitch   |         | A.M. Best |          |
|-----------------------|---------|---------|------------|---------|---------|---------|-----------|----------|
|                       | Ratings | Outlook | Ratings    | Outlook | Ratings | Outlook | Ratings   | Outlook  |
| Senior unsecured debt | A3      | Stable  | A+         | Stable  | A       | Stable  | A-        | Positive |
| Commercial paper      | P-2     | n/a     | A-1        | n/a     | F1      | n/a     | AMB-1     | n/a      |

The availability of financing in the form of debt or equity is influenced by many factors, including our profitability, operating cash flows, debt levels, credit ratings, debt covenants and other contractual restrictions, regulatory requirements and economic and market conditions. A significant downgrade in our credit ratings or adverse conditions in the capital markets may increase the cost of borrowing for us or limit our access to capital.

**Share Repurchase Program.** During the three months ended March 31, 2021, we repurchased approximately 5 million shares at an average price of \$345.42 per share. As of March 31, 2021, we had Board authorization to purchase up to 53 million shares of our common stock.

**Dividends.** Our quarterly cash dividend to shareholders reflects an annual dividend rate of \$5.00 per share.

**Pending Acquisitions.** The Company has entered into agreements to purchase companies in the health care sector, most notably Change Healthcare (NASDAQ: CHNG), which is expected to close in the second half of 2021, subject to regulatory approvals and other customary closing conditions. The total anticipated capital required for these acquisitions, excluding the payoff of acquired indebtedness, is approximately \$12 billion.

For additional liquidity discussion, see Note 10 of Notes to the Consolidated Financial Statements in Part II, Item 8, "Financial Statements and Supplementary Data" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" in Part II, Item 7 in our 2020 10-K.

#### RECENTLY ISSUED ACCOUNTING STANDARDS

There are no recently issued accounting standards that are expected to have a material impact on our Condensed Consolidated Financial Statements.

#### CRITICAL ACCOUNTING ESTIMATES

In preparing our Condensed Consolidated Financial Statements, we are required to make judgments, assumptions and estimates, which we believe are reasonable and prudent based on the available facts and circumstances. These judgments, assumptions and estimates affect certain of our revenues and expenses and their related balance sheet accounts and disclosure of our contingent liabilities. We base our assumptions and estimates primarily on historical experience and consider known and projected trends. On an ongoing basis, we re-evaluate our selection of assumptions and the method of calculating our estimates. Actual results, however, may materially differ from our calculated estimates, and this difference would be reported in our current operations.

Our critical accounting estimates include medical costs payable and goodwill. For a detailed description of our critical accounting estimates, see "Management's Discussion and Analysis of Financial Condition and Results of Operations" in Part II, Item 7 in our 2020 10-K. For a detailed discussion of our significant accounting policies, see Note 2 of Notes to the Consolidated Financial Statements in Part II, Item 8, "Financial Statements" in our 2020 10-K.

## FORWARD-LOOKING STATEMENTS

The statements, estimates, projections, guidance or outlook contained in this document include “forward-looking” statements which are intended to take advantage of the “safe harbor” provisions of the federal securities law. The words “believe,” “expect,” “intend,” “estimate,” “anticipate,” “forecast,” “outlook,” “plan,” “project,” “should” and similar expressions identify forward-looking statements. These statements may contain information about financial prospects, economic conditions and trends and involve risks and uncertainties. Actual results could differ materially from those that management expects, depending on the outcome of certain factors including: risks associated with public health crises, large-scale medical emergencies and pandemics, such as the COVID-19 pandemic; our ability to effectively estimate, price for and manage medical costs; new or changes in existing health care laws or regulations, or their enforcement or application; the DOJ’s legal action relating to the risk adjustment submission matter; our ability to maintain and achieve improvement in quality scores impacting revenue; reductions in revenue or delays to cash flows received under government programs; changes in Medicare, the CMS star ratings program or the application of risk adjustment data validation audits; failure to maintain effective and efficient information systems or if our technology products do not operate as intended; cyberattacks, other privacy/data security incidents, or our failure to comply with related regulations; risks and uncertainties associated with the pharmacy benefits management industry; competitive pressures; changes in or challenges to our public sector contract awards; our ability to contract on competitive terms with physicians, hospitals and other service providers; failure to attract, develop, retain, and manage the succession of key employees and executives; the impact of potential changes in tax laws and regulations (including any increase in the U.S. income tax rate applicable to corporations); failure to achieve targeted operating cost productivity improvements; increases in costs and other liabilities associated with litigation, government investigations, audits or reviews; failure to manage successfully our strategic alliances or complete or receive anticipated benefits of strategic transactions; fluctuations in foreign currency exchange rates; downgrades in our credit ratings; our investment portfolio performance; impairment of our goodwill and intangible assets; and our ability to obtain sufficient funds from our regulated subsidiaries or from external financings to fund our obligations, maintain our debt to total capital ratio at targeted levels, maintain our quarterly dividend payment cycle, or continue repurchasing shares of our common stock. This above list is not exhaustive. We discuss these matters, and certain risks that may affect our business operations, financial condition and results of operations more fully in our filings with the SEC, including our reports on Forms 10-K, 10-Q and 8-K. By their nature, forward-looking statements are not guarantees of future performance or results and are subject to risks, uncertainties and assumptions that are difficult to predict or quantify. Actual results may vary materially from expectations expressed or implied in this document or any of our prior communications. You should not place undue reliance on forward-looking statements, which speak only as of the date they are made. We do not undertake to update or revise any forward-looking statements, except as required by law.

## ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We manage exposure to market interest rates by diversifying investments across different fixed-income market sectors and debt across maturities, as well as by matching a portion of our floating-rate assets and liabilities, either directly or through the use of interest rate swap contracts. Unrealized gains and losses on investments in available-for-sale debt securities are reported in comprehensive income.

The following table summarizes the impact of hypothetical changes in market interest rates across the entire yield curve by 1% point or 2% points as of March 31, 2021 on our investment income and interest expense per annum, and the fair value of our investments and debt (in millions, except percentages):

| Increase (Decrease) in Market Interest Rate | March 31, 2021                        |                                      |                                       |  |
|---|---------------------------------------|--------------------------------------|---------------------------------------|--|
|   | Investment<br>Income Per<br>Annum (a) | Interest<br>Expense Per<br>Annum (a) | Fair Value of<br>Financial Assets (b) | Fair Value of<br>Financial Liabilities |
| 2 %   | \$ 468                                | \$ 245                               | \$ (3,116)                            | \$ (7,467)                             |
| 1   | 234                                   | 122                                  | (1,576)                               | (4,059)                                |
| (1)   | (80)                                  | (14)                                 | 1,226                                 | 4,741                                  |
| (2)   | (80)                                  | (14)                                 | 1,689                                 | 9,821                                  |

Note: Given the low absolute level of short-term market rates on our floating-rate assets and liabilities as of March 31, 2021, the assumed hypothetical change in interest rates does not reflect the full 100 and 200 basis point reduction in interest income or interest expense, as the rates are assumed not to fall below zero. As of March 31, 2021 and 2020, some of our investments had interest rates below 2% so the assumed hypothetical change in the fair value of investments does not reflect the full 200 basis point reduction.

## **ITEM 4. CONTROLS AND PROCEDURES**

### ***EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES***

We maintain disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (Exchange Act) that are designed to provide reasonable assurance that information required to be disclosed by us in reports that we file or submit under the Exchange Act is (i) recorded, processed, summarized and reported within the time periods specified in SEC rules and forms; and (ii) accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

In connection with the filing of this quarterly report on Form 10-Q, management evaluated, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, the effectiveness of the design and operation of our disclosure controls and procedures as of March 31, 2021. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective at the reasonable assurance level as of March 31, 2021.

### ***CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING***

There have been no changes in our internal control over financial reporting during the quarter ended March 31, 2021 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## **PART II. OTHER INFORMATION**

### **ITEM 1. LEGAL PROCEEDINGS**

A description of our legal proceedings is included in and incorporated by reference to [Note 6 of Notes to the Condensed Consolidated Financial Statements](#) contained in Part I, Item 1 of this report.

### **ITEM 1A. RISK FACTORS**

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, Item 1A, “Risk Factors” of our 2020 10-K, which could materially affect our business, financial condition or future results. The risks described in our 2020 10-K are not the only risks facing us. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition or future results.

There have been no material changes to the risk factors as disclosed in our 2020 10-K.

### **ITEM 2. UNREGISTERED SALE OF EQUITY SECURITIES AND USE OF PROCEEDS**

In November 1997, our Board of Directors adopted a share repurchase program, which the Board evaluates periodically. There is no established expiration date for the program. During the first quarter 2021, we repurchased approximately 5 million shares at an average price of \$345.42 per share. As of March 31, 2021, we had Board authorization to purchase up to 53 million shares of our common stock.
