VISA INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Note 1—Summary of Significant Accounting Policies

Organization. Visa Inc., together with its subsidiaries (Visa or the Company), is a global payments technology company that facilitates global commerce and money movement across more than 200 countries and territories. Visa operates one of the world's largest electronic payments networks — VisaNet — which provides transaction processing services (primarily authorization, clearing and settlement). The Company offers products, solutions and services that facilitate secure, reliable and efficient money movement for participants in the ecosystem. Visa is not a financial institution and does not issue cards, extend credit or set rates and fees for account holders of Visa products. In most cases, account holder and merchant relationships belong to, and are managed by, Visa's financial institution clients.

Consolidation and basis of presentation. The accompanying unaudited consolidated financial statements include the accounts of Visa and its consolidated entities and are presented in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). The Company consolidates its majority-owned and controlled entities, including variable interest entities (VIEs) for which the Company is the primary beneficiary. The Company's investments in VIEs have not been material to its unaudited consolidated financial statements as of and for the periods presented. Intercompany balances and transactions have been eliminated in consolidation.

The accompanying unaudited consolidated financial statements are presented in accordance with U.S. Securities and Exchange Commission (SEC) requirements for Quarterly Reports on Form 10-Q and, consequently, do not include all of the annual disclosures required by U.S. GAAP. Reference should be made to Visa's Annual Report on Form 10-K for the year ended September 30, 2023 for additional disclosures, including a summary of the Company's significant accounting policies.

In the opinion of management, the accompanying unaudited consolidated financial statements include all normal recurring adjustments necessary for a fair presentation of the Company's financial position, results of operations and cash flows for the interim periods presented. The results of operations for interim periods are not necessarily indicative of results for the full year.

Use of estimates. The preparation of the accompanying unaudited consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions about future events. These estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the unaudited consolidated financial statements and reported amounts of revenues and expenses during the reporting period. These estimates may change as new events occur and additional information is obtained, and will be recognized in the period in which such changes occur. Future actual results could differ materially from these estimates.

Note 2—Acquisitions

On January 16, 2024, Visa acquired Pismo Holdings, a global cloud-native issuer processing and core banking platform, for \$1.0 billion in cash. Due to the limited amount of time since the acquisition date, the initial allocation of the purchase price is not yet complete. The Company expects to provide the initial purchase price allocation within its Form 10-Q for the second quarter of fiscal 2024.

Note 3—Revenues

The nature, amount, timing and uncertainty of the Company's revenues and cash flows and how they are affected by economic factors are most appropriately depicted through the Company's revenue categories and geographical markets. The following tables disaggregate the Company's net revenues by revenue category and by geography:

	 Three Months Ended December 31,			
	 2023	2022		
	(in millions)			
Service revenues	\$ 3,915 \$	3,511		
Data processing revenues	4,356	3,827		
International transaction revenues	3,019	2,797		
Other revenues	692	587		
Client incentives	(3,348)	(2,786)		
Net revenues	\$ 8,634 \$	7,936		

	Three Months Ended December 31,			
	2023	2022		
	 (in millio	ons)		
U.S.	\$ 3,645 \$	3,567		
International	4,989	4,369		
Net revenues	\$ 8,634 \$	7,936		

Remaining performance obligations are comprised of deferred revenues and contract revenues that will be invoiced and recognized as revenues in future periods primarily related to value added services. As of December 31, 2023, the remaining performance obligations were \$3.2 billion. The Company expects approximately half to be recognized as revenues in the next two years and the remaining thereafter. However, the amount and timing of revenue recognition is affected by several factors, including contract modifications and terminations, which could impact the estimate of amounts allocated to remaining performance obligations and when such revenues could be recognized.

Note 4—Cash, Cash Equivalents, Restricted Cash and Restricted Cash Equivalents

The Company reconciles cash, cash equivalents, restricted cash and restricted cash equivalents reported on the consolidated balance sheets that aggregate to the beginning and ending balances shown in the consolidated statements of cash flows as follows:

Note 5-U.S. and Europe Retrospective Responsibility Plans

U.S. Retrospective Responsibility Plan

Under the terms of the U.S. retrospective responsibility plan, the Company maintains an escrow account from which settlements of, or judgments in, certain litigation (U.S. covered litigation) are paid. The accrual related to the U.S. covered litigation could be either higher or lower than the U.S. litigation escrow account balance. See *Note 13—Legal Matters*.

The following table presents the changes in the restricted cash equivalents—U.S. litigation escrow account:

	Three Months Ended December 31,

Balance as of end of period	\$ 1,616 \$	1,705		

⁽¹⁾ These payments are associated with the interchange multidistrict litigation. See Note 13—Legal Matters.

Europe Retrospective Responsibility Plan

Visa Inc., Visa International and Visa Europe are parties to certain existing and potential litigation relating to the setting of multilateral interchange fee rates in the Visa Europe territory (VE territory covered litigation). Under the terms of the Europe retrospective responsibility plan, the Company is entitled to recover certain losses resulting from VE territory covered litigation (VE territory covered losses) through a periodic adjustment to the class A common stock conversion rates applicable to the series B and C preferred stock. VE territory covered losses are recorded in the contra-equity account right to recover for covered losses within stockholders' equity before the corresponding adjustment to the applicable conversion rate is effected. Adjustments to the conversion rate may be executed once in any six-month period unless a single, individual loss greater than €20 million is incurred, in which case, the six-month limitation does not apply. When the adjustment to the conversion rate is made, the amount previously recorded in right to recover for covered losses is then recorded against the book value of the preferred stock within stockholders' equity.

The following table presents the activities related to VE territory covered losses in preferred stock and right to recover for covered losses within stockholders' equity:

(1) Figures in the table may not recalculate exactly due to rounding. As-converted and book values are based on unrounded numbers.

(2) As of December 31, 2023, the as-converted value of preferred stock is calculated as the product of: (a) 2 million and 3 million shares of the series B and C preferred stock outstanding, respectively; (b) 2.903 and 3.625, the class A common stock conversion rate applicable to the series B and C preferred stock outstanding, respectively; and (c) \$260.35, Visa's class A common stock closing stock price.

As of September 30, 2023, the as-converted value of preferred stock is calculated as the product of: (a) 2 million and 3 million shares of the series B and C preferred stock outstanding, respectively; (b) 2.937 and 3.629, the class A common stock conversion rate applicable to the series B and C preferred stock outstanding, respectively; and (c) \$230.01, Visa's class A common stock closing stock price.

VE territory covered losses incurred reflect settlements with merchants and additional legal costs. See Note 13—Legal Matters.
 Adjustment to right to recover for covered losses for the conversion rate adjustment differs from the actual recovered amount due to differences in foreign exchange rates between the time the losses were incurred and the subsequent recovery through the conversion rate adjustment.

Note 6—Fair Value Measurements and Investments

Assets and Liabilities Measured at Fair Value on a Recurring Basis

Fair Value Measurements Using Inputs Considered a Level 1 Level 2 December 31, 2023 December 31, 2023 September 30, 2023 September 30, 2023 (in millions) Assets Cash equivalents and restricted cash equivalents: 10,316 \$ 13,504 Money market funds U.S. government-sponsored debt securities 28 95 301 U.S. Treasury securities Investment securities: Marketable equity securities 397 339 U.S. government-sponsored debt securities 1,580 1,108 U.S. Treasury securities 5,837 4,316 Other current and non-current assets: Money market funds 28 23 Derivative instruments 154 293 Total 16,673 18,483 1,762 1,401 Liabilities Accrued compensation and benefits: \$ 175 \$ Deferred compensation liability 221 \$ \$ Accrued and other liabilities: Derivative instruments 396 287 **Total** 175 221 \$ 287 \$ 396

Level 1 assets and liabilities. Money market funds, U.S. Treasury securities and marketable equity securities are classified as Level 1 within the fair value hierarchy, as fair value is based on unadjusted quoted prices in active markets for identical assets. The Company's deferred compensation liability is measured at fair value based on marketable equity securities held under the deferred compensation plan.

Level 2 assets and liabilities. The fair value of U.S. government-sponsored debt securities, as provided by third-party pricing vendors, is based on quoted prices in active markets for similar, not identical, assets. Derivative instruments are valued using inputs that are observable in the market or can be derived principally from or corroborated by observable market data.

Due after one year through five years	2,809
Total	\$ 7,540

Equity Securities

The Company's non-marketable equity securities include investments in privately held companies without readily determinable fair values. These investments are measured at fair value on a non-recurring basis and are classified as Level 3 due to the absence of quoted market prices, the inherent lack of liquidity and the fact that significant inputs used to measure fair value are unobservable and require management's judgment.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)—(Continued)

The following table summarizes the total carrying value of the Company's non-marketable equity securities that were accounted for using the fair value measurement alternative and held as of December 31, 2023, including the cumulative unrealized gains and losses:

	_	December 31, 2023
		(in millions)
Initial cost basis	\$	710
Adjustments:		
Upward adjustments		909
Downward adjustments (including impairment)		(430)

Unrealized gains and losses included in the carrying value of the Company's non-marketable equity securities accounted for using the fair value measurement alternative and still held as of December 31, 2023 and 2022, respectively, were as follows:

	Three Months December	
	 2023	2022
	 (in million	s)
Upward adjustments	\$ 9 \$	17
Downward adjustments (including impairment)	\$ — \$	_

For the three months ended December 31, 2023 and 2022, the Company recognized net unrealized gains of \$36 million and net unrealized losses of \$102 million, respectively, on marketable and non-marketable equity securities still held as of quarter end.

Other Fair Value Disclosures

Debt. Debt instruments are measured at amortized cost on the Company's consolidated balance sheets. The fair value of the debt instruments, as provided by third-party pricing vendors, is based on quoted prices in active markets for similar, not identical, assets. If measured at fair value in the financial statements, these instruments would be classified as Level 2 in the fair value hierarchy. As of December 31, 2023, the carrying value and estimated fair value of debt was \$20.7 billion, respectively. As of September 30, 2023, the carrying value and estimated fair value of debt was \$20.5 billion and \$17.7 billion, respectively.

Other financial instruments not measured at fair value. As of December 31, 2023, the carrying values of settlement receivable and payable and customer collateral are an approximate fair value due to their generally short maturities. If measured at fair value in the financial statements, these financial instruments would be classified as Level 2 in the fair value hierarchy.

Non-financial assets. Certain non-financial assets such as goodwill, intangible assets and property, equipment and technology are subject to non-recurring fair value measurements if they are deemed to be impaired. The Company performed its annual impairment review of its indefinite-lived intangible assets and goodwill as of February 1, 2023, and concluded there was no impairment as of that date. No recent events or changes in circumstances indicated that impairment existed as of December 31, 2023.

Note 8—Settlement Guarantee Management

The Company indemnifies its clients for settlement losses suffered due to failure of any other client to fund its settlement obligations in accordance with the Visa operating rules. This indemnification creates settlement risk for the Company due to the difference in timing between the date of a payment transaction and the date of subsequent settlement.

Historically, the Company has experienced minimal losses as a result of its settlement risk guarantee. However, the Company's future obligations, which could be material under its guarantees, are not determinable as they are dependent upon future events.

The Company's settlement exposure is limited to the amount of unsettled Visa payment transactions at any point in time, which vary significantly day to day. During the three months ended December 31, 2023, the Company's maximum daily settlement exposure was \$133.2 billion and the average daily settlement exposure was \$83.0 billion.

Represents the fair value of interest rate swap agreements entered into on a portion of the outstanding senior notes.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)—(Continued)

The Company maintains and regularly reviews global settlement risk policies and procedures to manage settlement exposure, which may require clients to post collateral if certain credit standards are not met. The Company held the following collateral to manage settlement exposure:

	De	cember 31, 2023	September 30, 2023

Average repurchase cost per share ⁽²⁾	\$ 238.47	\$	197.69		
Total cost ⁽²⁾	\$ 3,609	\$	3,115		

Shares repurchased in the open market reflect repurchases that settled during the three months ended December 31, 2023 and 2022. All shares repurchased in the open market have been retired and constitute authorized but unissued shares.

Egures in the table may not recalculate exactly due to rounding. Average repurchase cost per share and total cost are calculated based on unrounded numbers and include applicable taxes.

In October 2023 and 2022, the Company's board of directors authorized share repurchase programs of \$25.0 billion providing multi-year flexibility, and \$12.0 billion, respectively. These authorizations have no expiration date. As of December 31, 2023, the Company's share repurchase programs had remaining authorized funds of \$26.4 billion. All share repurchase programs authorized prior to October 2022 have been completed.

Class B common stock. On January 23, 2024, Visa's common stockholders approved amendments to the Company's certificate of incorporation authorizing Visa to implement an exchange offer program that would have the effect of releasing transfer restrictions on portions of the Company's class B common stock. The certificate of incorporation amendments automatically redenominate all shares of class B common stock as class B-1 common stock with no changes to the par value, conversion features, rights and privileges of the class B common stock. The amendments also authorized new classes of class B common stock that will only be issuable in connection with an exchange offer where a preceding class of B common stock was tendered in exchange and retired. The new authorization will have no impact to outstanding diluted earnings per class A common stock.

Dividends. During the three months ended December 31, 2023 and 2022, the Company declared and paid dividends of \$1.1 billion and \$945 million, respectively. On January 23, 2024, the Company's board declared a quarterly cash dividend of \$0.52 per share of class A common stock (determined in the case of class B-1 and C common stock and series A, B and C preferred stock on an as-converted basis), payable on March 1, 2024, to all holders of record as of February 9, 2024.

For the three months ended December 31, 2023 and 2022, the Company recorded share-based compensation cost related to the EIP of \$200 million and \$170 million, respectively.

Note 12—Income Taxes

For the three months ended December 31, 2023 and 2022, the effective income tax rates were 19% and 16%, respectively. The difference in the effective tax rates is primarily due to a \$142 million tax benefit recognized during the three months ended December 31, 2022 due to the reassessment of an uncertain tax position as a result of new information obtained during an ongoing tax examination.

During the three months ended December 31, 2023, the Company's gross unrecognized tax benefits increased by \$113 million. The Company's net unrecognized tax benefits that, if recognized, would favorably impact the effective tax rate, increased by \$29 million. The change in unrecognized tax benefits is related to various tax positions across several jurisdictions.

In January 2024, a resolution was reached regarding India tax assessments for years falling within the period from 2010 to 2019. As a result, the Company filed to withdraw appeals to the appellate authorities for these years.

Effective through September 30, 2028, the Company's operating hub in the Asia Pacific region is subject to a tax incentive in Singapore which is conditional upon meeting certain requirements.

The Company's tax filings are subject to examination by U.S. federal, state and foreign taxing authorities. The timing and outcome of the final resolutions of the various ongoing income tax examinations and refund claims are uncertain. However, it is reasonably possible that the Company's net unrecognized tax benefits could decrease by approximately \$400 million in the next 12 months.

Note 13-Legal Matters

The Company is party to various legal and regulatory proceedings. Some of these proceedings involve complex claims that are subject to substantial uncertainties and unascertainable damages. For those proceedings where a loss is determined to be only reasonably possible or probable but not estimable, the Company has disclosed the nature of the claim. Additionally, unless otherwise disclosed below with respect to these proceedings, the Company cannot provide an estimate of the possible loss or range of loss. Although the Company believes that it has strong defenses for the litigation and regulatory proceedings described below, it could, in the future, incur judgments or fines or enter into settlements of claims that could have a material adverse effect on the Company's financial position, results of operations or cash flows. From time to time, the Company may engage in settlement discussions or mediations with respect to one or more of its outstanding litigation matters, either on its own behalf or collectively with other parties.

The litigation accrual is an estimate and is based on management's understanding of its litigation profile, the specifics of each case, advice of counsel to the extent appropriate and management's best estimate of incurred loss as of the balance sheet date.

The following table summarizes the activity related to accrued litigation:

Accrual Summary-U.S. Covered Litigation

Visa Inc., Visa U.S.A. and Visa International are parties to certain legal proceedings that are covered by the

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)—(Continued)

U.S. retrospective responsibility plan, which the Company refers to as the U.S. covered litigation. An accrual for the U.S. covered litigation and a charge to the litigation provision are recorded when a loss is deemed to be probable and reasonably estimable. In making this determination, the Company evaluates available information, including but not limited to actions taken by the Company's litigation committee. The total accrual related to the U.S. covered litigation could be either higher or lower than the escrow account balance. See further discussion below under U.S. Covered Litigation and Note 5—U.S. and Europe Retrospective Responsibility Plans.

Accrual Summary—VE Territory Covered Litigation

Visa Inc., Visa International and Visa Europe are parties to certain legal proceedings that are covered by the Europe retrospective responsibility plan. Unlike the U.S. retrospective responsibility plan, the Europe retrospective responsibility plan does not have an escrow account that is used to fund settlements or judgments. The Company is entitled to recover VE territory covered losses through periodic adjustments to the conversion rates applicable to the series B and C preferred stock. An accrual for the VE territory covered losses and a reduction to stockholders' equity will be recorded when the loss is deemed to be probable and reasonably estimable. See further discussion below under VE Territory Covered Litigation and Note 5—U.S. and Europe Retrospective Responsibility Plans.

U.S. Covered Litigation

Interchange Multidistrict Litigation (MDL) - Class Actions

On December 4, 2023, plaintiffs in the two actions led, respectively, by Hayley Lanning and Camp Grounds Coffee, served a motion for partial summary judgment. On January 8, 2024, defendants' motions for summary judgment under Ohio v. American Express were granted in part and denied in part.

Interchange Multidistrict Litigation (MDL) - Individual Merchant Actions

Visa has reached settlements with a number of merchants representing approximately 73% of the Visa-branded payment card sales volume of merchants who opted out of the Amended Settlement Agreement with the Damages Class plaintiffs.

On November 1, 2023, defendants served a motion to enforce the Amended Settlement Agreement, or in the alternative for summary judgment, regarding claims in the actions brought by certain plaintiffs in their capacity as payment facilitators. On December 4, 2023, plaintiffs in certain of the individual merchant actions served a motion

for partial summary judgment or a joinder in partial summary judgment motions. On January 8, 2024, defendants' motions for summary judgment under *Ohio v. American Express* were granted in part and denied in part.

VE Territory Covered Litigation

Europe Merchant Litigation

Since July 2013, proceedings have been commenced by more than 1,150 Merchants (the capitalized term "Merchant" when used in this section, means a Merchant together with subsidiary/affiliate companies that are party to the same claim) against Visa Europe, Visa Inc. and other Visa subsidiaries in the UK and other countries primarily relating to interchange rates in Europe and in some cases relating to fees charged by Visa and certain Visa rules. As of the filing date, Visa has settled the claims asserted by over 475 Merchants, and there are approximately 600 Merchants with outstanding claims. In addition, over 30 additional Merchants have threatened to commence similar proceedings. Standstill agreements have been entered into with respect to some of those threatened Merchant claims, several of which have been settled.

Other Litigation

MiCamp Solutions

On December 8, 2023, a complaint was filed in the U.S. District Court for the Northern District of California by MiCamp Solutions, LLC against Visa on behalf of a purported class of Independent Sales Organizations (ISOs) and their merchant customers and a purported subclass of ISOs. The complaint alleges violations of federal and state antitrust laws, state data privacy laws, and the constitution, based on, among other things, Visa's interchange fees and its assessment of fees for non-compliance with its surcharge rules. The complaint seeks to recover damages and to enjoin the enforcement of Visa's default interchange and surcharge rules, among other things.

Mirage Wine + Spirit's Inc.

On December 14, 2023, a putative class action was filed in the U.S. District Court for the Southern District of Illinois by Mirage Wine + Spirit's Inc. against Apple Inc., Visa Inc. and Mastercard Incorporated on behalf of certain merchants in the United States that accepted Apple Pay as a method of payment at the physical point-of-sale from December 14, 2019. Plaintiff alleges a conspiracy under which Apple agreed not to enter a purported market for point-of-sale payment card networks services and seeks damages, injunctive relief and attorneys' fees based on alleged violations of section 1 of the Sherman Act. On January 5, 2024, Visa requested transfer of the action to the U.S. District Court for the Eastern District of New York for coordinated or consolidated pretrial proceedings with the Interchange Multidistrict Litigation.

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This management's discussion and analysis provides a review of the results of operations, financial condition and liquidity and capital resources of Visa Inc. and its subsidiaries (Visa, we, us, our or the Company) on a historical basis and outlines the factors that have affected recent earnings, as well as those factors that may affect future earnings. The following discussion and analysis should be read in conjunction with our unaudited consolidated financial statements and related notes included in *Item 1—Financial Statements* of this report.

Forward-Looking Statements

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of the U.S. Private Securities Litigation Reform Act of 1995 that relate to, among other things, the impact on our future financial position, results of operations and cash flows; the implementation of the exchange offer program; prospects, developments, strategies and growth of our business; anticipated expansion of our products in certain countries; industry developments; anticipated timing and benefits of our acquisitions; expectations regarding litigation matters, investigations and proceedings; timing and amount of stock repurchases; sufficiency of sources of liquidity and funding; effectiveness of our risk management programs; and expectations regarding the impact of recent accounting pronouncements on our unaudited consolidated financial statements. Forward-looking statements generally are identified by words such as "anticipates," "believes," "estimates," "expects," "intends," "may," "projects," "could," "should," "will," "continue" and other similar expressions. All statements other than statements of historical fact could be forward-looking statements, which speak only as of the date they are made, are not guarantees of future performance and are subject to certain risks, uncertainties and other factors, many of which are beyond our control and are difficult to predict. We describe risks and uncertainties that could cause actual results to differ materially from those expressed in, or implied by, any of these forward-looking statements in our SEC filings, including our Annual Report on Form 10-K, for the year ended September 30, 2023, and any subsequent reports on Forms 10-Q and 8-K. Except as required by law, we do not intend to update or revise any forward-looking statements as a result of new information, future events or otherwise.

Overview

Visa is a global payments technology company that facilitates global commerce and money movement across more than 200 countries and territories among a global set of consumers, merchants, financial institutions and government entities through innovative technologies. We provide transaction processing services (primarily authorization, clearing and settlement) to our financial institution and merchant clients through VisaNet, our proprietary advanced transaction processing network. We offer products, solutions and services that facilitate secure, reliable and efficient money movement for all participants in the ecosystem.

Financial overview. A summary of our as-reported U.S. GAAP and non-GAAP operating results is as follows:

⁽i) Figures in the table may not recalculate exactly due to rounding. Percentage changes are calculated based on unrounded numbers. (2) For a full reconciliation of our GAAP to non-GAAP financial results, see tables in *Non-GAAP financial results* below.

Highlights for the first quarter of fiscal 2024. For the three months ended December 31, 2023, net revenues increased 9% over the prior-year comparable period, primarily due to the growth in nominal cross-border volume, processed transactions and nominal payments volume, partially offset by higher client incentives. During the three months ended December 31, 2023, exchange rate movements did not have a material impact on net revenues growth. See Results of Operations—Net Revenues below for further discussion.

For the three months ended December 31, 2023, GAAP operating expenses decreased 6% over the prior-year comparable period, primarily driven by lower litigation provision, partially offset by higher personnel expenses. See Results of Operations—Operating Expenses below for further discussion. During the three months ended December 31, 2023, exchange rate movements positively impacted our operating expenses by approximately one percentage point.

For the three months ended December 31, 2023, non-GAAP operating expenses increased 7% over the prior-year comparable period, primarily driven by higher personnel expenses.

Acquisition. On January 16, 2024, we acquired Pismo Holdings (Pismo), a global cloud-native issuer processing and core banking platform, for \$1.0 billion in cash.

Common stock repurchases. During the three months ended December 31, 2023, we repurchased 15 million shares of our class A common stock in the open market for \$3.6 billion. As of December 31, 2023, our share repurchase programs had remaining authorized funds of \$26.4 billion. See Note 9-Stockholders' Equity to our unaudited consolidated financial statements.

Non-GAAP financial results. We use non-GAAP financial measures of our performance which exclude certain items which we believe are not representative of our continuing operations, as they may be non-recurring or have no cash impact, and may distort our longer-term operating trends. We consider non-GAAP measures useful to investors because they provide greater transparency into management's view and assessment of our ongoing operating performance.

Gains and losses on equity investments. Gains and losses on equity investments include periodic non-cash fair value adjustments and gains and losses upon sale of an investment. These long-term investments are strategic in nature and are primarily private company investments. Gains and losses associated with these

investments are tied to the performance of the companies that we invest in and therefore do not correlate to the underlying performance of our business.

- Amortization of acquired intangible assets. Amortization of acquired intangible assets consists of amortization of intangible assets such as developed technology, customer relationships and brands acquired in connection with business combinations executed beginning in fiscal 2019. Amortization charges for our acquired intangible assets are non-cash and are significantly affected by the timing, frequency and size of our acquisitions, rather than our core operations. As such, we have excluded this amount to facilitate an evaluation of our current operating performance and comparison to our past operating performance.
- Acquisition-related costs. Acquisition-related costs consist primarily of one-time transaction and integration costs associated with our business
 combinations. These costs include professional fees, technology integration fees, restructuring activities and other direct costs related to the purchase
 and integration of acquired entities. These costs also include retention equity and deferred equity compensation when they are agreed upon as part of the
 purchase price of the transaction but are required to be recognized as expense post-combination. We have excluded these amounts as the expenses are
 recognized for a limited duration and do not reflect the underlying performance of our business.
- Litigation provision. During the three months ended December 31, 2022, we recorded additional accruals to address claims associated with the
 interchange multidistrict litigation. Under the U.S. retrospective responsibility plan, we recover the monetary liabilities related to the U.S. covered litigation
 through a downward adjustment to the rate at which shares of our class B common stock ultimately convert into shares of class A common stock. During
 the three months ended December 31, 2022, basic and diluted earnings per class A common stock were unchanged, as a result of the downward
 adjustments of the class B common stock conversion rate during the period. See Note 5—U.S. and Europe Retrospective Responsibility Plans and Note
 13—Legal Matters to our unaudited consolidated financial statements.

Non-GAAP operating expenses, non-operating income (expense), income tax provision, effective income tax rate, net income and diluted earnings per share should not be relied upon as substitutes for, or considered in isolation from, measures calculated in accordance with U.S. GAAP. Payments volume and processed transactions. Payments volume is the primary driver for our service revenues, and the number of processed transactions is the primary driver for our data processing revenues.

Payments volume represents the aggregate dollar amount of purchases made with cards and other form factors carrying the Visa, Visa Electron, V PAY and Interlink brands and excludes Europe co-badged volume. Nominal payments volume is denominated in U.S. dollars and is calculated each quarter by applying an established U.S. dollar/foreign currency exchange rate for each local currency in which our volumes are reported. Processed transactions represent transactions using cards and other form factors carrying the Visa, Visa Electron, V PAY, Interlink and PLUS brands processed on Visa's networks.

The following table presents nominal payments and cash volume:

- OS Service revenues in a given quarter are primarily assessed based on nominal payments volume in the prior quarter. Therefore, service revenues reported for the three months ended December 31, 2023 and 2022, respectively, were based on nominal payments volume reported by our financial institution clients for the three months ended September 30, 2023 and 2022, respectively. On occasion, previously presented volume information may be updated. Prior period updates are not material.

- (4) Includes large, medium and small business credit and debit, as well as commercial prepaid volume.
- (6) Cash volume generally consists of cash access transactions, balance access transactions, balance transfers and convenience checks.
- (6) Total nominal volume is the sum of total nominal payments volume and cash volume. Total nominal volume is provided by our financial institution clients, subject to review by Visa.
- (7) Growth on a constant-dollar basis excludes the impact of foreign currency fluctuations against the U.S. dollar.

\$	8,634	\$ 7,936	9	%		

⁽ii) Figures in the table may not recalculate exactly due to rounding. Percentage changes are calculated based on unrounded numbers.

Net revenues increased over the three-month prior-year comparable period primarily due to the growth in nominal cross-border volume, processed transactions and nominal payments volume, partially offset by higher client incentives.

Our net revenues are impacted by the overall strengthening or weakening of the U.S. dollar as payments volume and related revenues denominated in local currencies are converted to U.S. dollars. During the three months ended December 31, 2023, exchange rate movements did not have a material impact on net revenues growth.

The following table presents the components of our net revenues:

			ee Months Ended December 31,

Client incentives	(3,348)		(2,786)	20	%
Net revenues	\$ 8,634	\$	7,936	9	%

- (i) Figures in the table may not recalculate exactly due to rounding. Percentage changes are calculated based on unrounded numbers.
 - · Service revenues increased primarily due to 9% growth in nominal payments volume and select pricing modifications.
 - · Data processing revenues increased primarily due to 9% growth in processed transactions, select pricing modifications and business mix.
 - International transaction revenues increased primarily due to growth in nominal cross-border volumes of 18%, excluding transactions within Europe, partially offset by lower volatility of a broad range of currencies.
 - · Other revenues increased primarily due to select pricing modifications and growth in consulting services.
 - Client incentives increased primarily due to growth in payments volume. The amount of client incentives we record in future periods will vary based on changes in performance expectations, actual client performance, amendments to existing contracts or the execution of new contracts.

⁽ii) Figures in the table may not recalculate exactly due to rounding. Percentage changes are calculated based on unrounded numbers.

• Personnel expenses increased during the three months ended December 31, 2023 primarily due to a higher number of employees and compensation, reflecting our strategy to invest in future growth.

- Marketing expenses decreased during the three months ended December 31, 2023 primarily due to spend related to the FIFA World Cup 2022TM in the prior year and absent in the current year.
- · Professional fees increased during the three months ended December 31, 2023 primarily due to higher legal and consulting fees.
- General and administrative expenses increased during the three months ended December 31, 2023 primarily due to higher usage of travel related card benefits and indirect taxes, partially offset by favorable foreign currency fluctuations.
- Litigation provision decreased during the three months ended December 31, 2023 primarily due to the accrual related to the U.S. covered litigation in the prior year and absent in the current year. See Note 13—Legal Matters to our unaudited consolidated financial statements.

Non-operating Income (Expense)

The following table presents the components of our non-operating income (expense):

NM- Not meaningful

- (ii) Figures in the table may not recalculate exactly due to rounding. Percentage changes are calculated based on unrounded numbers.
 - Interest expense increased during the three months ended December 31, 2023 primarily due to losses from derivative instruments and the discrete tax benefit recognized during the prior year, partially offset by lower interest expense related to lower outstanding debt.
 - Investment income (expense) and other increased during the three months ended December 31, 2023, primarily due to higher interest income on our cash and investments and gains on our investments.

Effective Income Tax Rate

The following table presents our effective income tax rates:

	Three Mo Decei	onths Ended mber 31,
	2023	2022
Effective income tax rate	19 %	16 %

The difference in the effective tax rates is primarily due to a \$142 million tax benefit recognized during the three months ended December 31, 2022 due to the reassessment of an uncertain tax position as a result of new information obtained during an ongoing tax examination.

Liquidity and Capital Resources

Cash Flow Data

The following table summarizes our cash flow activity for the periods presented:

		Three Months Ended December 31,			
	<u> </u>	2023		2022	
		(in m	llions)		
Total cash provided by (used in):					
Operating activities	\$	3,614	\$	4,171	
Investing activities	\$	(1,889)	\$	(510)	
Financing activities	\$	(4,379)	\$	(6,347)	

Operating activities. Cash provided by operating activities for the three months ended December 31, 2023 was lower than the prior-year comparable period primarily due to higher incentive payments and higher litigation payments, partially offset by continued growth in our underlying business.

Investing activities. Cash used in investing activities for the three months ended December 31, 2023 was higher than the prior-year comparable period primarily due to higher purchases of investment securities and cash received from the settlement of net investment hedge derivative instruments in the prior year.

Financing activities. Cash used in financing activities for the three months ended December 31, 2023 was lower than the prior-year comparable period primarily due to the principal debt payment upon maturity of our December 2022 senior notes in the prior year, partially offset by higher share repurchases and higher dividends paid. See Note 7—Debt and Note 9—Stockholders' Equity to our unaudited consolidated financial statements.

Sources of Liquidity

Our primary sources of liquidity are cash on hand, cash flow from our operations, our investment portfolio and access to various equity and borrowing arrangements. Funds from operations are maintained in cash and cash equivalents and short-term or long-term investment securities based upon our funding requirements, access to liquidity from these holdings and the returns that these holdings provide. Based on our current cash flow budgets and forecasts of our short-term and long-term liquidity needs, we believe that our current and projected sources of liquidity will be sufficient to meet our projected liquidity needs for more than the next 12 months. We will continue to assess our liquidity position and potential sources of supplemental liquidity in view of our operating performance, current economic and capital market conditions and other relevant circumstances.

Uses of Liquidity

There has been no significant change to our primary uses of liquidity since September 30, 2023, except as discussed below.

Common stock repurchases. During the three months ended December 31, 2023, we repurchased shares of our class A common stock in the open market for \$3.6 billion. As of December 31, 2023, our share repurchase programs had remaining authorized funds of \$26.4 billion. See Note 9—Stockholders' Equity to our unaudited consolidated financial statements.

Dividends. During the three months ended December 31, 2023, we declared and paid \$1.1 billion in dividends to holders of our common and preferred stock. On January 23, 2024, our board declared a quarterly cash dividend of \$0.52 per share of class A common stock (determined in the case of class B-1 and C common stock and series A, B and C convertible participating preferred stock on an as-converted basis). See Note 9—Stockholders' Equity to our unaudited consolidated financial statements. We expect to continue paying quarterly dividends in cash, subject to approval by the board. All preferred and class B-1 and C common stock will share ratably on an as-converted basis in such future dividends.

Acquisition. On January 16 2024, we acquired Pismo for \$1.0 billion in cash. See Note 2—Acquisitions to our unaudited consolidated financial statements.

Accounting Pronouncements Not Yet Adopted

In November 2023, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2023-07, which is intended to improve reportable segment disclosure requirements, primarily through enhanced disclosures about significant segment expenses. This standard also enhances interim disclosure requirements and provides new segment disclosure requirements for entities with a single reportable segment. This ASU is effective for our annual periods beginning October 1, 2024, and interim periods beginning October 1, 2025, and requires retrospective application to all prior periods presented. We are currently evaluating the impact of the ASU on our disclosures.

In December 2023, the FASB issued ASU 2023-09, which provides improvements to income tax disclosures. This standard requires disaggregated information related to effective tax rate reconciliation as well as information on income taxes paid. This ASU is effective for our annual periods beginning October 1, 2025, and requires prospective application with the option to apply the standard retrospectively. We are currently evaluating the impact of the ASU on our disclosures.

ITEM 3. Quantitative and Qualitative Disclosures about Market Risk

There have been no significant changes to our market risks since September 30, 2023.

ITEM 4. Controls and Procedures

Evaluation of disclosure controls and procedures. Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the design and operation of the disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) of Visa Inc. at the end of the period covered by this report and, based on such evaluation, have concluded that the disclosure controls and procedures of Visa Inc. were effective at the reasonable assurance level as of such date.

Changes in internal control over financial reporting. There have been no changes in our internal control over financial reporting that occurred during our first quarter of fiscal 2024 that have materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.
